Read this manual carefully before you use this machine and keep it handy for future reference. For safe and correct use, be sure to read the Safety Information in "About This Machine" before using the machine.

Introduction

This manual contains detailed instructions and notes on the operation and use of this machine. For your safety and benefit, read this manual carefully before using the machine. Keep this manual in a handy place for quick reference.

Important

Contents of this manual are subject to change without prior notice. In no event will the company be liable for direct, indirect, special, incidental, or consequential damages as a result of handling or operating the machine.

Notes:

Some illustrations in this manual might be slightly different from the machine.

Certain options might not be available in some countries. For details, please contact your local dealer.

Depending on which country you are in, certain units may be optional. For details, please contact your local dealer.

Notes:

The model names of the machines do not appear in the following pages. Check the type of your machine before reading this manual.

- Type 1: C2525/DSc525/LD425c/Aficio MP C2500
- Type 2: C3030/DSc530/LD430c/Aficio MP C3000

Certain types might not be available in some countries. For details, please contact your local dealer.

Two kinds of size notation are employed in this manual. With this machine refer to the inch version.

Manuals for This Machine

Refer to the manuals that are relevant to what you want to do with the machine.

❖ **About This Machine**

Be sure to read the Safety Information in this manual before using the machine.

This manual provides an introduction to the functions of the machine. It also explains the control panel, preparation procedures for using the machine, how to enter text, and how to install the CD-ROMs provided.

❖ **General Settings Guide**

Explains User Tools settings, and Address Book procedures such as registering fax numbers, e-mail addresses, and user codes. Also refer to this manual for explanations on how to connect the machine.

❖ **Troubleshooting**

Provides a guide to solving common problems, and explains how to replace paper, toner, staples, and other consumables.

❖ **Security Reference**

This manual is for administrators of the machine. It explains security functions that the administrators can use to protect data from being tampered, or prevent the machine from unauthorized use.

Also refer to this manual for the procedures for registering administrators, as well as setting user and administrator authentication.

❖ **Copy/ Document Server Reference**

Explains Copier and Document Server functions and operations. Also refer to this manual for explanations on how to place originals.

❖ **Facsimile Reference**

Explains Facsimile functions and operations.

❖ **Printer Reference**

Explains Printer functions and operations.

❖ **Scanner Reference**

Explains Scanner functions and operations.

❖ **Network Guide**

Explains how to configure and operate the machine in a network environment, and use the software provided.

This manual covers all models, and includes descriptions of functions and settings that might not be available on this machine. Images, illustrations, and information about operating systems that are supported might also differ slightly from those of this machine.

How to Read This Manual

Symbols

This manual uses the following symbols:

WARNING:

Indicates important safety notes.

Ignoring these notes could result in serious injury or death. Be sure to read these notes. They can be found in the “Safety Information” section of About This Machine.

CAUTION:

Indicates important safety notes.

Ignoring these notes could result in moderate or minor injury, or damage to the machine or to property. Be sure to read these notes. They can be found in the “Safety Information” section of About This Machine.

Important

Indicates points to pay attention to when using the machine, and explanations of likely causes of paper misfeeds, damage to originals, or loss of data. Be sure to read these explanations.

Note

Indicates supplementary explanations of the machine’s functions, and instructions on resolving user errors.

Reference

This symbol is located at the end of sections. It indicates where you can find further relevant information.

[]

Indicates the names of keys that appear on the machine’s display panel.

[]

Indicates the names of keys on the machine’s control panel.

Display Panel

The display panel shows machine status, error messages, and function menus. The function items displayed serve as selector keys. You can select or specify an item by lightly pressing them.

When you select or specify an item on the display panel, it is highlighted like **Program / Change**. Keys appearing as **OK** cannot be used.

Important

A force or impact of more than 30 N (about 3 kgf) will damage the display panel.

To display the following screen, press the **[User Tools/Counter]** key to display the User Tools menu, and then press **[System Settings]**.

Using the System Settings menu screen as an example, this section explains how to use the machine's display panel.

AMC026S

1. The menu tabs for various settings appear. To display the setting you want to specify or change, press the appropriate menu tab.

2. A list of settings appears. To specify or change a setting, press the appropriate key in the list.

3. Press this to quit the User Tools menu.

Accessing User Tools (System Settings)

This section is for Administrators in charge of this machine.

User Tools allow you to change or set defaults.

Note

- Operations for system settings differ from normal operations. Always quit User Tools when you have finished.
- Any changes you make with User Tools remain in effect even if the main power switch or operation switch is turned off, or the **[Energy Saver]** or **[Clear Modes]** key is pressed.
- Default settings are shown in bold type.

Reference

p.4 “Quitting User Tools”

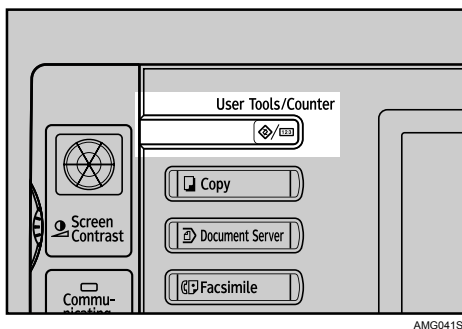

Changing Default Settings

This section describes how to change the settings of User Tools.

Important

- If Administrator Authentication Management is specified, contact your administrator.

1 Press the **[User Tools/Counter]** key.

2 Select the menu.

To change the System Settings, Press **[System Settings]**.

To change the Copier / Document Server Features, Press **[Copier / Document Server Features]**.

To change the Facsimile Features, Press **[Facsimile Features]**.

To change the Printer Features, Press **[Printer Features]**.

To change the Scanner Features, Press **[Scanner Features]**.

To adjust color registration or gradation, press **[Maintenance]**.

To change the language used on the display, press **[English]**.

To check the telephone numbers to contact for repairs, or to order consumables, press **[Inquiry]**.

To check the counter, press **[Counter]**.

3 Select the user tool you want to change.

4 Change settings by following instructions on the display, and then press [OK].

 **Note**

- To cancel changes made to settings and return to the initial display, press the **[User Tools/Counter]** key.

 **Reference**

- p.47 "System Settings"
- p.89 "Copier / Document Server Features"
- p.119 "Facsimile Features"
- p.181 "Printer Features"
- p.195 "Scanner Features"
- p.269 "Other User Tools"

Quitting User Tools

This section describes how to end User Tools.

1 Press the **[User Tools/Counter]** key.

 **Note**

- You can also quit User Tools by pressing **[Exit]**.

Menu Protect

Using Menu Protect, you can prevent unauthenticated users from changing the user tools. Menu Protect can be specified for each of the following user tools menus.

- Copier / Document Server Features
- Facsimile Features
- Printer Features
- Scanner Features

For details, consult your administrator.

1. Connecting the Machine

This chapter describes how to connect the machine to the network and specify the network settings.

Connecting to the Interfaces

This section explains how to identify the machine's interface and connect the machine according to the network environment.

When the IEEE 1394 interface board (optional) is installed.

When the IEEE 1284 interface board (optional) is installed.

When the wireless LAN board (optional) is installed.

AMC004S

1. IEEE 1394 ports (optional)

Ports for connecting the IEEE 1394 interface cable

2. USB2.0 port

Port for connecting the USB2.0 interface cable

3. 10BASE-T/100BASE-TX port

Port for connecting the 10BASE-T or 100BASE-TX cable

4. IEEE 1284 port (optional)

Port for connecting the IEEE 1284 interface cable

5. Wireless LAN port (optional)

Port for using the wireless LAN

Note

- You cannot install two or more of the options below: IEEE 1394 interface board, IEEE 1284 interface board, IEEE 802.11b wireless LAN

Connecting to the Ethernet Interface

Connect 10BASE-T or 100BASE-TX cable to the Ethernet interface.

1

Important

If the main power switch is on, turn it off.

1 A ferrite core for the Ethernet cable is supplied with this machine. Make a loop in the cable about 15cm (5.9 inch) (①) from the machine end of the cable. Attach the ferrite core.

AEV047S

2 Make sure the main power switch of the machine is off.

3 Connect the Ethernet interface cable to the 10BASE-T/100BASE-TX port.

AMB016S

4 Connect the other end of the Ethernet cable to a network connection device such as a hub.

5 Turn on the main power switch of the machine.

① Indicator (green)

Lights up green when the machine is connected correctly to the network.

② Indicator (yellow)

Lights up yellow when 100 BASE-TX is in operation. Goes off when 10 BASE-T is in operation.

Note

- For details about installing the printer driver, see “Preparing the Machine”, Printer Reference.

Reference

“Turning On the Power”, About This Machine

“Preparing the Machine”, Printer Reference

Connecting to the USB Interface

Connect the USB2.0 interface cable to the USB2.0 port.

1 Connect the USB2.0 interface cable to the USB2.0 port.

2 Connect the other end to the USB2.0 port on the host computer.

Note

- This machine does not come with a USB interface cable. Make sure you purchase the appropriate cable for the machine and your computer.
- The USB2.0 interface board is supported by Windows 98SE / Me / 2000 / XP, Windows Server 2003, Mac OS X 10.3.3 or higher.
 - For Windows 98SE / Me:
Make sure to install “USB Printing Support”. When used with Windows 98SE / Me, only a speed equal to that of USB1.1 is possible.
 - For Mac OS:
To use Macintosh, the machine must be equipped with the optional PostScript 3 unit. When used with Mac OS X 10.3.3 or higher, a transfer speed of USB2.0 is supported.
- For details about installing the printer driver, see “Preparing the Machine”, Printer Reference.

Reference

“Preparing the Machine”, Printer Reference

Connecting to the IEEE 1394 Interface

Connect the IEEE 1394 interface cable to the IEEE 1394 interface board.

- 1** Connect the IEEE 1394 interface cable to the IEEE 1394 port.

- 2** Connect the other end of the cable into the interface connector on the host computer.

Check the shape of the connector to the computer. Connect the cable firmly.

Note

- Use the interface cable supplied with the IEEE 1394 interface board.
- Two interface ports are available for connecting the IEEE 1394 interface cable. Either is suitable.
- For details about installing the printer driver, see “Preparing the Machine”, Printer Reference.

Reference

“Turning On the Power”, About This Machine

“Preparing the Machine”, Printer Reference

Connecting to the IEEE 1284 Interface

Connect the IEEE 1284 interface cable to the IEEE 1284 interface board.

- 1** Make sure the main power switch on the machine is off.
If the main power switch is on, turn it off.
- 2** Turn off the main power switch of the host computer.
- 3** Connect the IEEE 1284 interface cable to the IEEE 1284 port.

Use the conversion connector (1) supplied with the IEEE 1284 interface board.

- 4** Connect the other end of the cable into the interface connector on the host computer.
Check the shape of the connector to the computer. Connect the cable firmly.
- 5** Turn on the main power switch of the machine.
- 6** Turn on the host computer.

When using Windows 95/98/Me/2000/XP and Windows Server 2003, a printer driver installation screen might appear when the computer is turned on. If this happens, click **[Cancel]** on the screen.

Note

- For details about installing the printer driver, see “Preparing the Machine”, Printer Reference.

Reference

“Turning On the Power”, About This Machine

“Preparing the Machine”, Printer Reference

Connecting to the IEEE 802.11b (Wireless LAN) Interface

Connect to the IEEE 802.11b (wireless LAN) interface.

1

Note

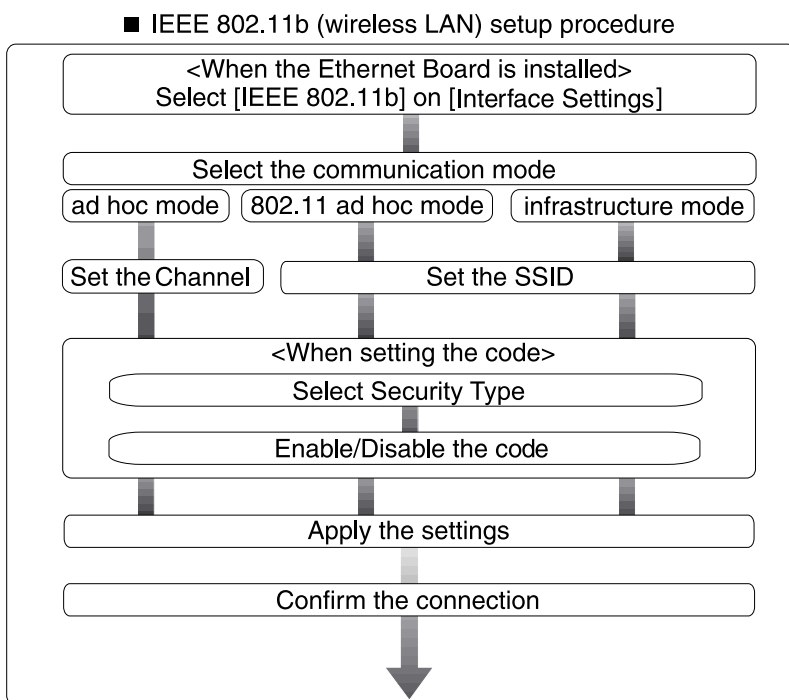

- Check the settings of the IPv4 address and subnet mask of this machine.
- For details about how to set the IPv4 address and subnet mask from the control panel of the machine, see “Interface Settings”.

Reference

p.58 “Network”

Setup Procedure

Set up IEEE 802.11b (wireless LAN) according to the following procedure:

Note

- ❑ Select **[802.11 Ad-hoc Mode]** mode when connecting Windows XP as a wireless LAN client using Windows XP standard driver or utilities, or when not using the infrastructure mode.
- ❑ For details about how to specify wireless LAN settings from the control panel on the machine, see “IEEE 802.11b”.
- ❑ For details about how to specify wireless LAN settings from other than the control panel on the machine, see “Using Utilities to Make Settings”.
- ❑ For details about the setting items, see “IEEE 802.11b”.

Reference

p.65 “IEEE 802.11b”

p.35 “Using Utilities to Make Network Settings”

Checking the Connection

Check the wireless LAN connection.

Make sure the LED of the IEEE 802.11b interface unit is lit.

❖ When using in infrastructure mode

ZGDH600J

1. If [LAN Type] on the [Interface Settings] / [Network] screen is not set to [IEEE 802.11b], it does not light, even if the main power is on.

2. If it is connected properly to the network, the LED is green when in infrastructure mode. If the LED is blinking, the machine is searching for devices.

❖ When using in adhoc mode / 802.11 ad hoc mode

1

ZGDH600J

1. If the IEEE 802.11b interface unit is functioning, the LED lights up in orange.

2. If it is connected properly to the network, the LED is green when in ad hoc mode or 802.11 ad hoc mode. If the LED is blinking, the machine is searching for devices. The LED will light after a few seconds.

Print the configuration page to verify settings.

 **Note**

For more information about printing a configuration page, see “Print List”.

 **Reference**

p.182 “Printing the configuration page”

Checking the Signal

When using in infrastructure mode, you can check the machine's radio wave status using the control panel.

- ① Press **[System Settings]**.
- ② Press **[Interface Settings]**.
- ③ Press **[IEEE 802.11b]**.
- ④ Press **[Wireless LAN Signal]**.
The machine's radio wave status appears.
- ⑤ After checking radio wave status, press **[Exit]**.
- ⑥ Press the **[User Tools/Counter]** key to return to the User Tools / Counter / Inquiry menu.

 **Note**

To check the radio wave status, press **[IEEE 802.11b]** under **[LAN Type]** in Network menu of Interface Settings.

 **Reference**

p.35 “Using Utilities to Make Network Settings”

p.65 “IEEE 802.11b”

Network Settings

This section describes the network settings you can change with User Tools (System Settings). Make settings according to functions you want to use and the interface to be connected.

Important

- These settings should be made by the system administrator, or with the advice the system administrator.

Settings Required to Use the Printer/LAN-Fax

This section lists the settings required for using the printer or LAN-Fax function.

Ethernet

This section lists the settings required for using the printer or LAN-Fax function with an Ethernet connection.

For details about how to specify the settings, see “Interface Settings”.

Menu	User Tool	Setting Requirements
Interface Settings/Network	Machine IPv4 Address	Necessary
Interface Settings/Network	IPv4 Gateway Address	As required
Interface Settings/Network	Machine IPv6 Address	As required
Interface Settings/Network	IPv6 Gateway Address	As required
Interface Settings/Network	IPv6 Stateless Address Autoconfiguration	As required
Interface Settings/Network	DNS Configuration	As required
Interface Settings/Network	DDNS Configuration	As required
Interface Settings/Network	Domain Name	As required
Interface Settings/Network	WINS Configuration	As required
Interface Settings/Network	Effective Protocol	Necessary
Interface Settings/Network	NCP Delivery Protocol	As required
Interface Settings/Network	NW Frame Type	As required
Interface Settings/Network	SMB Computer Name	As required
Interface Settings/Network	SMB Work Group	As required
Interface Settings/Network	Ethernet Speed	As required
Interface Settings/Network	LAN Type	Necessary

Menu	User Tool	Setting Requirements
Interface Settings/Network	Permit SNMPv3 Communication	As required
Interface Settings/Network	Permit SSL/TLS Communication	As required
Interface Settings/Network	Host Name	As required
Interface Settings/Network	Machine Name	As required

Note

- IPv6 can be used only for the printer function.
- In **[Effective Protocol]**, check that the protocol you want to use is set to **[Active]**.
- [LAN Type]** is displayed when the wireless LAN board is installed. If Ethernet and IEEE 802.11b (wireless LAN) are both connected, the selected interface has priority.

Reference

p.58 "Interface Settings"

IEEE 1394 (IPv4 over 1394)

This section lists the settings required for using the printer or LAN-Fax function with IEEE 1394 interface cable.

For details about how to specify the settings, see "Interface Settings".

Menu	User Tool	Setting Requirements
Interface Settings/IEEE 1394	IPv4 Address	Necessary
Interface Settings/IEEE 1394	DDNS Configuration	As required
Interface Settings/IEEE 1394	Host Name	As required
Interface Settings/IEEE 1394	Domain Name	As required
Interface Settings/IEEE 1394	WINS Configuration	As required
Interface Settings/IEEE 1394	IPv4 over 1394	Necessary
Interface Settings/Network	IPv4 Gateway Address	As required
Interface Settings/Network	DNS Configuration	As required
Interface Settings/Network	Effective Protocol	Necessary

Note

- [IEEE 1394]** appears when IEEE 1394 interface board is installed.
- In **[Effective Protocol]**, check that the protocol you want to use is set to **[Active]**.

Reference

p.58 "Interface Settings"

IEEE 802.11b (wireless LAN)

This section lists the settings required for using the printer or LAN-Fax function with IEEE 802.11b (wireless LAN).

For details about how to specify the settings, see “Interface Settings”.

Menu	User Tool	Setting Requirements
Interface Settings/Network	Machine IPv4 Address	Necessary
Interface Settings/Network	IPv4 Gateway Address	As required
Interface Settings/Network	Machine IPv6 Address	As required
Interface Settings/Network	IPv6 Gateway Address	As required
Interface Settings/Network	IPv6 Stateless Address Autoconfiguration	As required
Interface Settings/Network	DNS Configuration	As required
Interface Settings/Network	DDNS Configuration	As required
Interface Settings/Network	Domain Name	As required
Interface Settings/Network	WINS Configuration	As required
Interface Settings/Network	Effective Protocol	Necessary
Interface Settings/Network	NCP Delivery Protocol	As required
Interface Settings/Network	NW Frame Type	As required
Interface Settings/Network	SMB Computer Name	As required
Interface Settings/Network	SMB Work Group	As required
Interface Settings/Network	LAN Type	Necessary
Interface Settings/Network	Permit SNMPv3 Communication	As required
Interface Settings/Network	Permit SSL/TLS Communication	As required
Interface Settings/Network	Host Name	As required
Interface Settings/Network	Machine Name	As required
Interface Settings/IEEE 802.11b	Communication Mode	Necessary
Interface Settings/IEEE 802.11b	SSID Setting	As required
Interface Settings/IEEE 802.11b	Channel	As required
Interface Settings/IEEE 802.11b	Security Method	As required
Interface Settings/IEEE 802.11b	Transmission Speed	As required

Note

- In **[Effective Protocol]**, check that the protocol you want to use is set to **[Active]**.
- [IEEE 802.11b]** and **[LAN Type]** are displayed when the wireless LAN interface board is installed. If both Ethernet and wireless LAN (IEEE 802.11b) are connected, the selected interface takes precedence.

Interface Settings/IEEE 1394	WINS Configuration	As required
Interface Settings/IEEE 1394	IPv4 over 1394	Necessary
Interface Settings/Network	IPv4 Gateway Address	Necessary
Interface Settings/Network	DNS Configuration	As required
Interface Settings/Network	Effective Protocol	Necessary
File Transfer	SMTP Server	Necessary
File Transfer	SMTP Authentication	As required
File Transfer	POP before SMTP	As required
File Transfer	Reception Protocol	As required
File Transfer	POP3 / IMAP4 Settings	As required

Menu	User Tool	Setting Requirements
File Transfer	Administrator's E-mail Address	As required
File Transfer	E-mail Communication Port	Necessary
File Transfer	E-mail Reception Interval	As required
File Transfer	Max. Reception E-mail Size	As required
File Transfer	E-mail Storage in Server	As required
File Transfer	Program / Change / Delete E-mail Message	As required
File Transfer	Fax E-mail Account	Necessary

Note

- [IEEE 1394] is displayed when the IEEE 1394 interface board is installed.
- In [Effective Protocol], check that the protocol you want to use is set to [Active].
- [SMTP Server] and [Fax E-mail Account] must be specified in order to use the send function.
- When [POP before SMTP] is set to [On], also make setting for [Reception Protocol] and [POP3 / IMAP4 Settings].
- When [SMTP Authentication] is set to [On], also make setting for [Administrator's E-mail Address].
- [E-mail Communication Port] and [Fax E-mail Account] must be specified in order to use the reception function.
- When setting [POP before SMTP] to [On], check [POP3] port number in [E-mail Communication Port].

IEEE 802.11b (wireless LAN)

This section lists the settings required for using Internet Fax with IEEE 802.11b (wireless LAN).

For details about how to specify the settings, see “Interface Settings” and “File Transfer”.

Menu	User Tool	Setting Requirements
Interface Settings/Network	Machine IPv4 Address	Necessary
Interface Settings/Network	IPv4 Gateway Address	Necessary
Interface Settings/Network	DNS Configuration	As required
Interface Settings/Network	DDNS Configuration	As required
Interface Settings/Network	Domain Name	As required
Interface Settings/Network	WINS Configuration	As required
Interface Settings/Network	Effective Protocol	Necessary
Interface Settings/Network	LAN Type	Necessary
Interface Settings/Network	Permit SNMPv3 Communication	As required
Interface Settings/Network	Permit SSL/TLS Communication	As required
Interface Settings/Network	Host Name	As required
Interface Settings/IEEE 802.11b	Communication Mode	Necessary
Interface Settings/IEEE 802.11b	SSID Setting	As required
Interface Settings/IEEE 802.11b	Channel	As required
Interface Settings/IEEE 802.11b	Security Method	As required
Interface Settings/IEEE 802.11b	Transmission Speed	As required
File Transfer	SMTP Server	Necessary
File Transfer	SMTP Authentication	As required
File Transfer	POP before SMTP	As required
File Transfer	Reception Protocol	As required
File Transfer	POP3 / IMAP4 Settings	As required
File Transfer	Administrator's E-mail Address	As required
File Transfer	E-mail Communication Port	Necessary
File Transfer	E-mail Reception Interval	As required
File Transfer	Max. Reception E-mail Size	As required
File Transfer	E-mail Storage in Server	As required
File Transfer	Program / Change / Delete E-mail Message	As required
File Transfer	Fax E-mail Account	Necessary

Note

- In **[Effective Protocol]**, check that the protocol you want to use is set to **[Active]**.
- [IEEE 802.11b]** and **[LAN Type]** are displayed when the wireless LAN interface board is installed. If both Ethernet and wireless LAN (IEEE 802.11b) are connected, the selected interface takes precedence.
- [SMTP Server]** and **[Fax E-mail Account]** must be specified in order to use the send function.
- When **[POP before SMTP]** is set to **[On]**, also make setting for **[Reception Protocol]** and **[POP3 / IMAP4 Settings]**.
- When **[SMTP Authentication]** is set to **[On]**, also make setting for **[Administrator's E-mail Address]**.
- [E-mail Communication Port]** and **[Fax E-mail Account]** must be specified in order to use the reception function.
- When setting **[POP before SMTP]** to **[On]**, check **[POP3]** port number in **[E-mail Communication Port]**.

❖ [File Transfer] → [Number of Scanner Resends]

- Web Image Monitor:Cannot be used for specifying the setting.
- SmartDeviceMonitor for Admin:Cannot be used for specifying the setting.
- telnet:Cannot be used for specifying the setting.

Connecting the Machine to a Telephone Line and Telephone

1

This section describes how to connect the machine to the telephone lines and select the line type.

Connecting the Telephone Line

To connect the machine to a telephone line, use a snap-in modular type connector.

⚠ CAUTION:

- *To reduce the risk of fire, use only No.26 AWG or larger telecommunication line cord.*

⚠ WARNING:

- *Pour réduire le risque d'incendie, utiliser uniquement des conducteurs de télécommunications 26 AWG ou de section supérieure.*

⚠ Important

- By law in the United States, you must program your phone number identification (your fax number) into your machine before you can connect the public phone system. See "Registering Fax Information".
- Make sure the connector is the correct type before you start.

AMC025S

1. External telephone connector
2. G3 interface unit connector
3. Extra G3 interface unit connector

🔍 Reference

p.141 "Registering Fax Information"

Selecting the Line Type

Select the line type to which the machine is connected. There are two types: tone and pulse dial.

Select the line type using “Administrator Tools”.

 **Note**

This function is not available in some regions.

 **Reference**

p.133 “Select Dial / Push Phone”

2. System Settings

This chapter describes user tools in the System Settings menu.

General Features

This section describes the user tools in the General Features menu under System Settings.

❖ Program / Change / Delete User Text

You can register text phrases you often use when specifying settings, such as “.com” and “Regards”.

You can register up to 40 entries.

- Program/Change

- ① Press **[System Settings]**.
- ② Check that **[General Features]** is selected.
- ③ Press **[Program / Change / Delete User Text]**.
- ④ Press **[Program/Change]**
- ⑤ Select the user text you want to change.
To program new user text, press **[Not Programmed]**.
- ⑥ Press **[OK]**.
- ⑦ Press **[Exit]**.

- Delete

- ① Press **[System Settings]**.
- ② Check that **[General Features]** is selected.
- ③ Press **[Program / Change / Delete User Text]**.
- ④ Press **[Delete]**.
- ⑤ Select the user text you want to delete.
- ⑥ Press **[Clear]**.
- ⑦ Press **[Exit]**.

❖ Panel Tone

The beeper (key tone) sounds when a key is pressed.

- On
- Off

❖ Warm Up Notice (copier/Document Server)

You can have the beeper sound when the machine becomes ready to copy after leaving Energy Saver mode, or when the power is turned on.

- On
- Off

❖ Copy Count Display (copier/Document Server)

The copy counter can be set to show the number of copies made (count up) or the number of copies yet to be made (count down).

- Up
- Down

❖ Function Priority

Specify the mode to be displayed immediately after the operation switch is turned on, or when System Reset mode is turned on.

- Copier
- Document Server
- Fax
- Printer
- Scanner

❖ Print Priority

Print Priority is given to the mode selected.

- Display Mode
- Copier/Document Server
- Facsimile
- Printer
- Interleave
- Job Order

When **[Interleave]** is selected, the current print job will be interrupted after a maximum of five sheets.

❖ Function Reset Timer

You can set the length of time the machine waits before changing modes when using the multi-access function.

This is useful if you are making many copies and have to change settings for each copy. If you set a longer reset period, you can prevent interruption from other functions.

- Set Time
- Immediate

When you select **[Set Time]**, enter the time (3–30 seconds, in 1 second increments) using the number keys.

The default setting is 3 second(s).

❖ **Output: Copier (copier)**

Specify a tray to which documents are delivered.

AMC002S

1. Finisher Shift Tray**2. Finisher Upper Tray****3. Finisher Shift Tray****4. Finisher Booklet Tray**

- Internal Tray 1
- Internal Tray 2
- Finisher Upper Tray
- Finisher Shift Tray

5. Finisher Upper Tray**6. Finisher Shift Tray****7. Internal Tray 1****8. Internal Tray 2**❖ **Output: Document Server (Document Server)**

Specify a tray to which documents are delivered.

- Internal Tray 1
- Internal Tray 2
- Finisher Upper Tray
- Finisher Shift Tray

❖ **Output: Facsimile (facsimile)**

Specify a tray to which documents are delivered.

- Internal Tray 1
- Internal Tray 2
- Finisher Upper Tray
- Finisher Shift Tray

❖ Output: Printer (printer)

Specify a tray to which documents are delivered.

The output trays set on the printer driver have priority over the output tray specified below.

- **Internal Tray 1**
- Internal Tray 2
- Finisher Upper Tray
- Finisher Shift Tray

❖ System Status/Job List Display Time

Specify how long to display the System Status and Job List display for.

- **On: 15 second(s)**
- Off

By selecting **[On]**, you can specify a display time between 10 and 999 seconds.

❖ Key Repeat

You can enable or disable repetition of an operation if a key on the screen or control panel is pressed continuously.

- Off
- **Normal**
- Repeat Time: Medium
- Repeat Time: Long

 Note

- If the Panel Tone setting is **[Off]**, the beeper does not sound, whatever the Warm Up Notice setting.
- The Function Reset Timer setting is ignored if Interleave is set for Print Priority.

 Reference

“Function Compatibility”, Copy/Document Server Reference

Output tray settings

 Important

- You cannot interrupt the current stapling job even if a stapling job is specified by a different function.
- When the 500-sheet finisher, 1000-sheet finisher, or booklet finisher is installed and Staple or Shift Sort is specified for a job, the job will be delivered to the finisher shift tray regardless of the output tray specified.

Tray Paper Settings

This section describes the user tools in the Tray Paper Settings menu under System Settings.

Important

- If the specified paper size differs from the actual size of the paper loaded in the paper tray, a misfeed might occur because the correct paper size was not detected.

❖ Paper Tray Priority: Copier (copier/Document Server)

Specify the tray to supply paper for output.

- Tray 1
- Tray 2
- Tray 3 (optional)
- Tray 4 (optional)

When optional paper tray unit is installed, [Tray 3] and [Tray 4] is displayed.
When optional LCT is installed, [Tray 3] is displayed.

❖ Paper Tray Priority: Facsimile (facsimile)

Specify the tray to supply paper for output.

- Tray 1
- Tray 2
- Tray 3 (optional)
- Tray 4 (optional)

When optional paper tray unit is installed, [Tray 3] and [Tray 4] is displayed.
When optional LCT is installed, [Tray 3] is displayed.

❖ Paper Tray Priority: Printer (printer)

Specify the tray to supply paper for output.

- Tray 1
- Tray 2
- Tray 3 (optional)
- Tray 4 (optional)

When optional paper tray unit is installed, [Tray 3] and [Tray 4] is displayed.
When optional LCT is installed, [Tray 3] is displayed.

❖ Tray Paper Size: Tray 2-4

Select the size of the paper loaded in the paper tray.

❖ The paper sizes you can set for tray 2 are as follows:

“Auto Detect”, “11×17□”, “8¹/₂×14□”, “8¹/₂×13□”, “8¹/₂×11□”, “8¹/₂×11□”, “8¹/₄×14□”, “8¹/₄×13□”, “8×13□”, “7¹/₄×10¹/₂□”, “7¹/₄×10¹/₂□”, “A3□”, “B4JIS□”, “A4□”, “A4□”, “B5JIS□”, “B5JIS□”, “A5□”, “8K□”, “16K□”, “16K□”

❖ The paper sizes you can set for tray 3 are as follows:

- When optional paper tray unit is installed:

“Auto Detect”, “11×17□”, “8¹/₂×14□”, “8¹/₂×13□”, “8¹/₂×11□”, “8¹/₂×11□”, “8¹/₄×14□”, “8¹/₄×13□”, “8×13□”, “7¹/₄×10¹/₂□”, “7¹/₄×10¹/₂□”, “A3□”, “B4JIS□”, “A4□”, “A4□”, “B5JIS□”, “B5JIS□”, “A5□”, “8K□”, “16K□”, “16K□”

- When optional LCT is installed:

“8¹/₂×11□”, “A4□”

❖ The paper sizes you can set for tray 4 are as follows:

“Auto Detect”, “11×17□”, “8¹/₂×14□”, “8¹/₂×13□”, “8¹/₂×11□”, “8¹/₂×11□”, “8¹/₄×14□”, “8¹/₄×13□”, “8×13□”, “7¹/₄×10¹/₂□”, “7¹/₄×10¹/₂□”, “A3□”, “B4JIS□”, “A4□”, “A4□”, “B5JIS□”, “B5JIS□”, “A5□”, “8K□”, “16K□”, “16K□”

❖ Printer Bypass Paper Size

Specify the size of the paper in the bypass tray when printing data from the computer.

❖ The paper sizes you can set for bypass tray are as follows:

“12×18□”, “11×17□”, “8¹/₂×14□”, “8¹/₂×13□”, “8¹/₂×11□”, “8¹/₂×11□”, “8¹/₄×13□”, “8×13□”, “7¹/₄×10¹/₂□”, “7¹/₄×10¹/₂□”, “5¹/₂×8¹/₂□”, “5¹/₂×8¹/₂□”, “4¹/₈×9¹/₂□”, “3⁷/₈×7¹/₂□”, “A3□”, “B4JIS□”, “A4□”, “A4□”, “B5JIS□”, “B5JIS□”, “A5□”, “A5□”, “B6JIS□”, “A6□”, “C6Env□”, “C5Env□”, “DLEnv□”, “8K□”, “16K□”, “16K□”

Specify a custom size of between 90.0-305.0mm (3.55"-12.00") vertically, and between 148.0-600.0mm (5.83"-23.62") horizontally.

❖ Paper Type: Bypass Tray

Sets the display so you can see what type of paper is loaded in the bypass tray.

- Paper Type
 - **No Display**
 - Recycled Paper
 - Color Paper
 - Letterhead
 - Label Paper
 - OHP (Transparency)
 - Special Paper 1-3
 - Cardstock
 - Preprinted Paper
 - Bond Paper
- Paper Thickness
 - Thin Paper
 - Normal (60-81g/m², 16-22lb.)
 - Middle Thick (82-105g/m², 22-28lb.)
 - Thick 1 (106-169g/m², 28.5-44.9lb.)
 - Thick 2 (170-219g/m², 45-58lb.)
 - Thick 3 (220-253g/m², 58.5-67lb.)

❖ Paper Type: Tray 1-4

Sets the display so you can see what type of paper is loaded in each paper tray. The print function use this information to automatically select the paper tray.

- Paper Type
 - **No Display**
 - Recycled Paper
 - Color Paper
 - Letterhead
 - Label Paper
 - Special paper 1-3
 - Cardstock
 - Preprinted Paper
 - Bond Paper

- Paper Thickness
 - Thin Paper
 - Normal (60-81g/m², 16-22lb.)
 - Middle Thick (82-105g/m², 22-28lb.)
 - Thick 1 (106-169g/m², 28.5-44.9lb.)
 - Thick 2 (170-219g/m², 45-58lb.)
- Copying Method in Duplex
 - **2 Sided Copy**
 - 1 Sided Copy
- Apply Auto Paper Select
 - **Yes**
 - No

❖ **Cover Sheet Tray**

Allows you to specify and display the paper tray that is setting cover sheets. After selecting the paper tray, you can also specify the display timing and copy method for two-sided copying.

- Tray to Program
 - **Off**
 - Bypass Tray
 - Tray 1
 - Tray 2
 - Tray 3 (optional)
 - Tray 4 (optional)
- Copying Method in Duplex
 - 2 Sided Copy
 - 1 Sided Copy
- Display Time
 - At Mode Selected
 - Full Time

❖ Slip Sheet Tray

Allows you to specify and display the paper tray that is inserting slip sheets. After selecting the paper tray, you can also specify the display timing and copy method for two-sided copying.

- Tray to Program
 - Off
 - Bypass Tray
 - Tray 1
 - Tray 2
 - Tray 3 (optional)
 - Tray 4 (optional)
- Copying Method in Duplex
 - 2 Sided Copy
 - 1 Sided Copy
- Display Time
 - At Mode Selected
 - Full Time

Note

- The paper guide for the optional LCT is fixed for A4 , 8¹/₂"×11"  size paper. Contact your service representative if you need to change the paper size.
- When paper of the same type and size is loaded in two different paper trays and you want to specify tray for 2 Sided Copy. If one of the trays is specified as the default in Paper Tray Priority, assign 2 Sided Copy to that tray.
- A  mark appears next to the paper tray if **[Off]** is selected in **[Auto Paper Select]**.
- [Auto Paper Select]** can only be selected for the copier function if **[No Display]** and **[Recycled Paper]** are selected. If **[No]** is selected, Auto Paper Select is not valid for the tray.
- Functions using the cover sheet tray setting are the front cover function and front/back cover function.
- If you set "Display Time" to "At Mode Selected" in "Cover Sheet Tray" and "Slip Sheet Tray", the trays selected for the cover sheets and slip sheets are indicated only if you have enabled the use of cover sheets and slip sheets.

Reference

"Covers", Copy/ Document Server Reference

"Slip Sheets", Copy/ Document Server Reference

Timer Settings

This section describes the user tools in the Timer Settings menu under System Settings.

❖ Auto Off Timer

After a specified period has passed, following job completion, the machine automatically turns off, in order to conserve energy. This function is called "Auto Off". The machine status after the Auto Off operation is referred to as "Off mode", or "Sleep mode". For the Auto Off Timer, specify the time to elapse before Auto Off.

The default setting is **60 minute(s)**.

The time can be set from 1 to 240 minutes, using the number keys.

Auto Off may not work when error messages appear.

❖ Energy Saver Timer

Set the amount of time the machine waits before switching to lower-power mode after copying has finished or the last operation is performed.

The time can be set from 1 to 240 minutes, using the number keys.

The default setting is **15 minute(s)**.

❖ Panel Off Timer

Set the amount of time the machine waits before switching the panel off after copying has finished or the last operation is performed.

The warm up time for making a copy from standby mode is 3 seconds for Panel off Level 1 and 15 seconds for Panel off Level 2.

Enter a time interval between 10 seconds and 240 minutes, using the number keys.

The default setting is **1 minute(s)**.

❖ System Auto Reset Timer

The System Reset setting automatically switches the screen to that of the function set in Function Priority when no operations are in progress, or when an interrupted job is cleared. This setting determines the system reset interval.

- On

- Off

The time can be set from 10 to 999 seconds, using the number keys

The default setting is **60 second(s)**.

❖ Copier/Document Server Auto Reset Timer (copier/Document Server)

Specifies the time to elapse before copier and Document Server modes reset.

- On

- Off

If **[Off]** is selected, the machine does not automatically switch to the user code entry screen.

The time can be set from 10 to 999 seconds, using the number keys.

The default setting is **60 second(s)**.

❖ Facsimile Auto Reset Timer (facsimile)

Specifies the time to elapse before the facsimile mode resets.

The time can be set from 30 to 999 seconds, using the number keys.

The default setting is **30 second(s)**.

❖ Printer Auto Reset Timer (printer)

Specifies the time to elapse before the printer function resets.

- **On**

- **Off**

The time can be set from 10 to 999 seconds, using the number keys.

The default setting is **60 second(s)**.

❖ Scanner Auto Reset Timer (scanner)

Specifies the time to elapse before the scanner function resets.

- **On**

- **Off**

If **[Off]** is selected, the machine will not automatically switch to the user code entry screen.

The time can be set from 10 to 999 seconds, using the number keys.

The default setting is **60 second(s)**.

❖ Set Date

Set the date for the copier's internal clock using the number keys.

To change between year, month, and day, press **[←]** and **[→]**.

❖ Set Time

Set the time for the copier's internal clock using the number keys.

Enter the time using the 24-hour format (in 1 second increments).

To change between hours, minutes and seconds, press **[←]** and **[→]**.

❖ Auto Logout Timer

Specify whether or not to automatically log out a user when the user does not operate the machine for a specified period of time after logging in.

- **On**

- **Off**

When **[On]** is selected, the time can be set from 60 to 999 seconds, in one second increments, using the number keys.

The default setting is **180 second(s)**.

Interface Settings

This section describes the user tools in the Interface Settings menu under System Settings.

Network

This section describes the user tools in the Network menu under Interface Settings.

❖ Machine IPv4 Address

Before using this machine in the network environment, you must specify the IPv4 address and subnet mask.

When you select **[Specify]**, enter the **[Machine IPv4 Address]** and **[Sub-net Mask]** as “xxx.xxx.xxx.xxx” (“x” indicates a number).

If the IEEE 1394 interface board is installed, and you are using the IEEE 1394 interface, you must set the address of the domain, different from the **[IPv4 Address]** of **[IEEE 1394]**. If you to set the address for the same domain, set a different value for the **[Sub-net Mask]**.

When you select **[Specify]**, make sure that **[Machine IPv4 Address]** is different from that of another machines on the network.

The physical address (MAC address) also appears.

If you use Ethernet and IEEE 1394 (IPv4 over 1394) interfaces at the same time, settings must be made carefully.

- **Auto-Obtain (DHCP)**
- Specify
 - Machine IPv4 Address: 011.022.033.044
 - Sub-net Mask: 000.000.000.000

❖ IPv4 Gateway Address

A gateway is a connection or interchange point between two networks.

Specify the gateway address for the router or host computer used as a gateway.

- IPv4 Gateway Address: **000.000.000.000**

❖ Machine IPv6 Address

Specify the machine’s IPv6 network address.

- Link-local Address
The machine’s specified link-local address appears.
- Manual Configuration Address
The machine’s manually configuration address appears.
- Stateless Address: 1-5
The specified stateless address appears.

❖ IPv6 Gateway Address

Displays the machine’s IPv6 gateway address.

❖ IPv6 Stateless Address Autoconfiguration

Specify IPv6 Stateless Address Autoconfiguration.

- Active
- Inactive

❖ DNS Configuration

Make settings for the DNS server.

When you select **[Specify]**, enter the **[DNS Server]** IPv4 address as "xxx.xxx.xxx.xxx" ("x" indicates a number).

- **Auto-Obtain (DHCP)**
- Specify
 - DNS Server 1: 000.000.000.000
 - DNS Server 2: 000.000.000.000
 - DNS Server 3: 000.000.000.000

❖ DDNS Configuration

Specify the DDNS settings.

- Active
- Inactive

❖ Domain Name

Specify the domain name.

- **Auto-Obtain (DHCP)**
- Specify

❖ WINS Configuration

Specify the WINS server settings.

If **[On]** is selected, enter the **[WINS Server]** IPv4 address as "xxx.xxx.xxx.xxx" ("x" indicates a number).

If DHCP is in use, specify the **[Scope ID]**.

Enter a **[Scope ID]** using up to 31 characters.

- On
 - Primary WINS Server:000.000.000.000
 - Secondary WINS Server:000.000.000.000
 - Scope ID
- Off

❖ Effective Protocol

Select the protocol to use in the network.

- IPv4: **Active** / Inactive
- IPv6: Active / **Inactive**
- NetWare: **Active** / Inactive
- SMB: **Active** / Inactive
- AppleTalk: **Active** / Inactive

❖ NCP Delivery Protocol

Select the protocol for NCP delivery.

- IPX Priority
- **TCP / IP Priority**
- IPX Only
- TCP/IP Only

If you select “IPX Only” or “TCP/IP Only”, you cannot switch the protocol even if you cannot connect with it. If “NetWare” in **[Effective Protocol]** is set to “Inactive”, you can only use TCP/IP.

❖ NW Frame Type

Select the frame type when you use NetWare.

- **Auto Select**
- Ethernet II
- Ethernet 802.2
- Ethernet 802.3
- Ethernet SNAP

❖ SMB Computer Name

Specify the SMB computer name.

Enter the computer name using up to 15 characters.

“*+/,/;<>=?[\]|. and spaces cannot be entered.

Do not set a computer name starting with RNP and rnp.

Use uppercase letters for alphabets.

❖ SMB Work Group

Specify the SMB work group.

Enter the computer name using up to 15 characters.

“*+/,/;<>=?[\]|. and spaces cannot be entered.

Use uppercase letters for alphabet.

❖ Ethernet Speed

Set the access speed for networks.

Select a speed that matches your network environment. **[Auto Select]** should usually be selected.

- **Auto Select**
- 10Mbps Full Duplex
- 10Mbps Half Duplex
- 100Mbps Full Duplex
- 10Mbps Half Duplex

❖ LAN Type

When you have installed the IEEE 802.11b interface unit, select the method of connection.

- Ethernet
- IEEE 802.11b

[LAN Type] is displayed when wireless LAN board is installed. If Ethernet and IEEE 802.11b (wireless LAN) are both connected, the selected interface has priority.

❖ Ping Command

Check the network connection with ping command using given IPv4 address. If you fail to connect to the network, check the following, and then retry the ping command.

- Make sure that “IPv4” in **[Effective Protocol]** is set to “Effective”.
- Check that the machine with assigned IPv4 address is connected to the network.
- There is a possibility that same IPv4 address is used for the specified equipment.

❖ Permit SNMPv3 Communication

Set the encrypted communication of SNMPv3.

- Encryption Only
- Encryption/Clear Text

If you select to **[Encryption Only]**, you need to set an encryption password for the machine.

❖ Permit SSL/TLS Communication

Set the encrypted communication of SSL/TLS.

- Ciphertext Only
- Ciphertext Priority
- Ciphertext/Clear Text

If you set to **[Ciphertext Only]**, you need to install the SSL certificate for the machine.

❖ Host Name

Specify the host name.

Enter the host name using up to 63 characters.

❖ Machine Name

Specify the machine name.

Enter the machine name using up to 31 characters.

Parallel Interface

This section describes the user tools in the Parallel Interface menu under Interface Settings.

[Parallel Interface] is displayed when this machine is installed with the IEEE 1284 interface board.

2

❖ Parallel Timing

Sets the timing for the control signal of the parallel interface.

- **ACK outside**
- ACK inside
- STB down

❖ Parallel Communication Speed

Sets the communication speed for the parallel interface.

- **High Speed**
- Standard

❖ Selection Signal Status

Sets the level for the select signal of the parallel interface.

- **HIGH**
- LOW

❖ Input Prime

Sets whether to validate or invalidate the input prime signal upon reception.

- Active
- **Inactive**

❖ Bidirectional Communication

Sets the printer's response mode to a status acquisition request when using a parallel interface.

- **On**
- Off

When set to **[Off]**, bidirectional communication function will be disabled, and the printer driver will not be installed under Windows Auto Detect function.

❖ Signal Control

Specify how error during printing or sending facsimile from the computer is to be dealt with.

- **Job Acceptance Priority**
- Printer Priority

IEEE 1394

This section describes the user tools in the IEEE 1394 menu under Interface Settings.

[**IEEE 1394**] is displayed when this machine is installed with the IEEE 1394 interface board.

❖ IPv4 Address

Before using this machine in the network environment, you must specify the IPv4 address and subnet mask.

When you select [**Specify**], enter the [**Machine IPv4 Address**] and [**Sub-net Mask**] as “xxx.xxx.xxx.xxx” (“x” indicates a number).

If the IEEE 1394 interface board is installed, and you are using the IEEE 1394 interface, you must set the address of the domain, different from the [**IPv4 Address**] of [**IEEE 1394**]. If you to set the address for the same domain, set a different value for the [**Sub-net Mask**].

When you select [**Specify**], make sure that [**Machine IPv4 Address**] is different from that of another machines on the network.

The physical address (MAC address) also appears.

If you use Ethernet and IEEE 1394 (IPv4 over 1394) interfaces at the same time, settings must be made carefully.

- **Auto-Obtain (DHCP)**
- Specify
 - Machine IPv4 Address: 011.022.033.044
 - Sub-net Mask: 000.000.000.000

❖ DDNS Configuration

Specify the DDNS settings.

- **Active**
- **Inactive**

❖ Host Name

Specify the host name.

Enter the host name using up to 63 characters.

❖ Domain Name

Make settings for the domain name.

- **Auto-Obtain (DHCP)**
- **Specify**
 - Enter the domain name using up to 63 characters.

❖ WINS Configuration

Specify the WINS server settings.

If **[On]** is selected, specify the **[WINS Server]** IPv4 address as “xxx.xxx.xxx.xxx” (“xxx” indicates a number).

If DHCP is in use, specify the **[Scope ID]**.

Enter **[Scope ID]** using up to 31 characters.

- On
 - Primary WINS Server:000.000.000.000
 - Secondary WINS Server:000.000.000.000
 - Scope ID
- Off

❖ IPv4 over 1394

When you use the IPv4 over 1394 function of the IEEE 1394 interface to connect the machine to the network, or you print from computer with the IPv4 over 1394 driver, you must specify **[Active]** for **[IPv4 over 1394]**.

- Active
- Inactive

Printing with IPv4 over 1394 is possible under Windows Me/XP and Windows Server 2003.

❖ SCSI print (SBP-2)

When you print using the SCSI print client function supported by Windows 2000/XP, or Windows Server 2003, you must set **[SCSI print (SBP-2)]**.

- Active
- Inactive

❖ Bidirectional SCSI print

Specifies the printer's response mode etc. for status requests when using the IEEE 1394 interface.

- On
- Off

If this is set to **[Off]** bidirectional communication will not work.

IEEE 802.11b

This section describes the user tools in the IEEE 802.11b menu under Interface Settings.

[IEEE 802.11b] is displayed when this machine is installed with the wireless LAN interface board.

Be sure to make all settings simultaneously.

2

❖ Communication Mode

Specifies the communication mode of the wireless LAN.

- 802.11 Ad hoc
- Ad hoc
- Infrastructure

❖ SSID Setting

Specifies SSID to distinguish the access point in infrastructure mode or 802.11 ad hoc mode.

The characters that can be used are ASCII 0x20-0x7e (32 bytes).

If blank is specified in 802.11b ad hoc mode or ad hoc mode, "ASSID" appears.

❖ Channel

Specifies a channel when you select 802.11b ad hoc mode or ad hoc mode.

The default setting is **11**.

The following channels are available:

- Metric version: 1-14
- Inch version: 1-11

❖ Security Method

Specifies the encryption of the IEEE 802.11b (wireless LAN).

If set to **[WEP]**, always enter WEP key. If set to **[WPA]**, the encryption and authentication methods.

Specify "WPA", when **[Communication Mode]** is set to **[Infrastructure]**.

- Off
- WEP
- WPA
 - WPA Encryption Method
Select either "TKIP" or "CCMP(AES)".
 - WPA Authent. Method
Select either "WPA-PSK" or "WPA802.1X)". If you have selected "WPA-PSK", enter the pre-shared key (PSK) of 8- 63 characters in ASCII code.

❖ Wireless LAN Signal

When using in infrastructure mode, you can check the machine's radio wave status using the control panel.

Radio wave status is displayed when you press **[Wireless LAN Signal]**.

❖ Transmission Speed

Specifies the communication speed of the IEEE 802.11b (wireless LAN).

- Auto Select
- 11Mbps Fixed
- 5.5Mbps Fixed
- 2Mbps Fixed
- 1Mbps Fixed

❖ Restore Factory Defaults

You can return the IEEE 802.11b (wireless LAN) settings to their defaults.

- No
- Yes

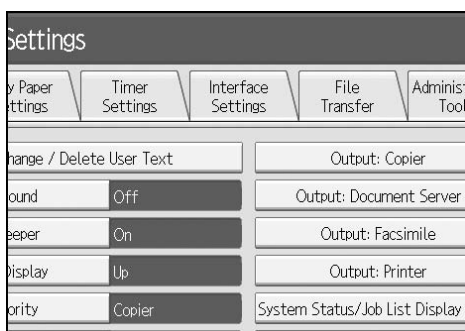

Print List

You can check items related to the network environment.

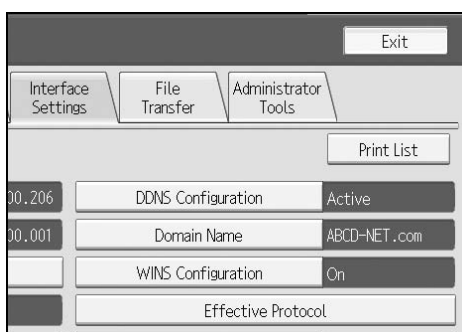

The configuration page shows the current network settings and network information.

1 Press [System Settings].

2 Press [Interface Settings].

3 Press [Print List].

4 Press the **[Start]** key.

The configuration page is printed.

5 Press **[Exit]**.

6 Press the **[User Tools/Counter]** key.

 **Note**

You can also exit by pressing **[Exit]** on the User Tools main menu.

File Transfer

This section describes the user tools in the File Transfer menu under System Settings.

❖ Delivery Option

Enables or disables sending stored or scanned documents to the ScanRouter delivery server.

- On
 - Main Delivery Server IPv4 Address
 - Sub Delivery Server IPv4 Address
- **Off**

Specify this option when selecting whether or not to use the ScanRouter delivery software. If you do, you will have to preregister I/O devices in the ScanRouter delivery software.

❖ Capture Server IP Address

Specify the capture server IPv4 address.

This setting appears when the media link board is installed, and that the capture function is being used by the ScanRouter delivery software.

❖ Fax RX File Transmission

Specify how to deliver fax files received via the different lines.

- Setting per Line
 - Line 1
 - Line 2
 - Line 3
 - E-mail
 - IP-Fax

The lines appear according to the operating environment.

- RX File Delivery
 - Specifies whether or not received fax documents are sent to the ScanRouter delivery software for each fax line.
 - Deliver to Server
 - **Do not Deliver**
- Print at Delivery
 - Specifies whether or not received fax documents sent to the ScanRouter delivery software should also be printed at the same time.
 - Print
 - **Do not Print**

- **File to Deliver**
Specify whether all received fax documents or only received fax documents that include delivery codes (ID or SUB/SEP codes) are sent to the ScanRouter delivery software.

- File with Delivery Code

- **All Files**

- **Delivery Failure File**

If a received fax document cannot be sent to the ScanRouter delivery software, it is stored in memory. To print a stored file, select **[Print File]**, to delete, select **[Delete File]**.

If the machine can send the data to the ScanRouter delivery software, it does so automatically. If you delete the data, you will not be able to distribute or print it.

- Print File
- Delete File

❖ **SMTP Server**

When using DNS, enter the host name.

When not using DNS, enter the SMTP server IPv4 address.

- Server Name
- Port No.: 25

Enter the server name using up to 127 characters. Spaces cannot be entered.

Enter port number between 1 and 65535 using the number keys, and then press the **[#]** key.

❖ SMTP Authentication

Specify SMTP authentication (PLAIN, LOGIN, CRAMMD5, DIGEST-MD5). When sending e-mail to an SMTP server, you can enhance the SMTP server security level using authentication that requires entering the user name and password.

If the SMTP server requires authentication, set **[SMTP Authentication]** to **[On]**, and then specify the user name, password and encryption.

Enter the user name and password to be set for the Administrator's e-mail address when using Internet Fax.

- SMTP AUTH
 - On
 - User Name
Enter the user name using up to 191 characters. Spaces cannot be entered. Depending on the SMTP server type, "realm" must be specified. Add "@" after the user name, as in "user name@realm".
 - E-mail Address
 - Password
Enter the password using up to 63 characters. Spaces cannot be entered.
 - Encryption: **Auto** / On / Off
 - [Encryption]-[Auto]**: Use If the authentication method is PLAIN, LOGIN, CRAM-MD5, or DIGEST-MD5.
 - [Encryption]-[On]**: Use If the authentication method is CRAMMD5 or DIGEST-MD5.
 - [Encryption]-[Off]**: Use If the authentication method is PLAIN, or LOGIN.
 - Off

❖ POP before SMTP

Specify POP authentication (POP before SMTP).

When sending e-mail to an SMTP server, you can enhance the SMTP server security level by connecting to the POP server for authentication.

To enable POP server authentication before sending e-mail via the SMTP server, set **[POP before SMTP]** to **[On]**. E-mail is sent to the SMTP server after the time specified for **[Wait Time after Authent.]** has elapsed.

If you select **[On]**, enter **[Server Name]** in **[POP3/IMAP4 Setting]**. Also, check the port number for **[POP3]** in **[E-mail Communication Port]**.

- On
 - Wait Time after Authent.: **300msec**
Specify **[Wait Time after Authent.]** from zero to 10,000 milliseconds, in increments of one millisecond.
 - User Name
Enter the user name using up to 63 characters. Spaces cannot be entered.
 - E-mail Address
 - Password
Enter the password using up to 63 characters. Spaces cannot be entered.
- Off

❖ Reception Protocol

Specify Reception Protocol for receiving Internet Fax.

- POP3
- IMAP4
- SMTP

❖ POP3 / IMAP4 Settings

Specify the POP3/IMAP4 server name for receiving Internet faxes.

The specified POP3/IMAP4 server name is used for **[POP before SMTP]**.

- Server Name
If DNS is in use, enter the host name.
If DNS is not in use, enter the POP3/IMAP4 or server IPv4 address.
Enter POP3/IMAP4 server name using up to 127 characters. Spaces cannot be entered.
- Encryption
 - **Auto**
Password encryption is automatically set according to the POP/IMAP server settings.
 - On
Encrypt password.
 - Off
Do not encrypt password.

❖ Administrator's E-mail Address

On e-mailed scanned documents, if the sender is not specified this appears as the sender's address.

When sending e-mail under the Internet fax function, administrator's e-mail address will appear as the sender's address under the following conditions:

- The sender has not been specified and the machine's e-mail address has not been registered.
- The specified sender is not registered in the machine's address book and the machine's e-mail address has not been registered.

When conducting SMTP authentication for the transmitted files under the Internet fax function, the Administrator's E-mail Address will appear in the "From:" box. If you have specified the user name and e-mail address in **[SMTP Authentication]**, make sure to specify this setting.

Enter within up to 128 characters.

On e-mailed scanned documents, if **[Auto Specify Sender Name]** is **[Off]**, specify the sender.

❖ E-mail Communication Port

Specify the port numbers for receiving Internet faxes. The specified POP3 port number is used for **[POP before SMTP]**.

- POP3: **110**
- IMAP4: **143**
- SMTP: **25**

Enter a port number between 1 and 65535 using the number keys, and then press the **[#]** key.

❖ E-mail Reception Interval

Specify, in minutes, the time interval for receiving Internet faxes via POP3 or IMAP4 server.

- **On: 15 minute(s)**
- Off

If **[On]** is selected, the time interval can be specified from 2 to 1440 in increments of one minute.

❖ Max. Reception E-mail Size

Specify the maximum reception e-mail size for receiving Internet faxes.

- **2MB**

Enter a size from one to 50 MB in increments of one megabyte.

❖ E-mail Storage in Server

Specify whether or not to store received Internet fax e-mails on the POP3 or IMAP4 server.

- **Off**
- All
- Errors Only

❖ Default User Name/Password (Send)

Specify the user name and password required when sending scan file directly to a shared folder on a computer running Windows, to an FTP server, or to a NetWare server.

- SMB User Name
- SMB Password
- FTP User Name
- FTP Password
- NCP User Name
- NCP Password

Enter in up to 64 characters.

❖ Program / Change / Delete E-mail Message

You can program, change, or delete the e-mail message used when sending an Internet fax or scan file as an attachment.

- Program/Change

- ① Press **[System Settings]**.
- ② Press **[File Transfer]**.
- ③ Press **[▼Next]**.
- ④ Press **[Program / Change / Delete E-mail Message]**.
- ⑤ Press **[Program/Change]**.
- ⑥ Press **[Not Programmed]**.
- ⑦ Press **[Change]**.
- ⑧ Enter a name, and then press **[OK]**.
Enter the name using up to 20 characters.
- ⑨ Press **[Edit]**.
To start a new line, press **[OK]** to return to the e-mail message screen, and then press **[▼]** in "Select Line to Edit:".
- ⑩ Enter the text, and then press **[OK]**.
Enter up to five lines of text. Each line can consist of up to 80 characters.
- ⑪ Press **[OK]**.
- ⑫ Press **[Exit]**.

- Delete

- ① Press **[System Settings]**.
- ② Press **[File Transfer]**.
- ③ Press **[▼Next]**.
- ④ Press **[Program / Change / Delete E-mail Message]**.
- ⑤ Press **[Delete]**.
- ⑥ Select the e-mail message to delete.
The confirmation message about deleting appears.
- ⑦ Press **[Yes]**.

❖ Auto Specify Sender Name

Set whether or not to specify the name of the sender when sending e-mail.

- **On**
If you select [**On**], the specified e-mail address will appear in the "From:" box. If you do not specify the sender's address, the administrator's e-mail address will appear in the "From:" box.
If you do not specify the sender when sending a file by e-mail under the fax function, or if the specified e-mail address is not registered in the machine's address book, the machine's e-mail address will appear in the "From:" box. If the machine does not have an e-mail address, the administrator's e-mail address will appear in the "From:" box.
- **Off**
If you select [**Off**], the specified e-mail address will appear in the "From:" box, but you cannot send e-mail without specifying the sender's e-mail address. Under the fax function, you cannot send e-mail if the specified sender's e-mail address is not registered in the machine's address book.

❖ Fax E-mail Account

Specify e-mail address, user name and password for receiving Internet faxes.

- **Receive**
 - **E-mail Address**
Enter an e-mail address using up to 128 characters.
 - **User Name**
Enter a user name using up to 64 characters.
 - **Password**
Enter a password using up to 64 characters.
- **Do not Receive**

❖ Scanner Resend Interval Time

Specifies the interval the machine waits before resending a scan file, if they cannot be sent to the delivery server or mail server.

The default setting is **300 second(s)**.

The interval time can be set from 60 to 999 seconds in one second increments, using the number keys.

This setting is for the scanner function.

❖ Number of Scanner Resends

Sets a maximum number of times scan file is resent to the delivery server or mail server.

- **On: 3 time(s)**
- **Off**

If [**On**] is selected, the number of times can be set from 1 to 99. This setting is for the scanner function.

This setting is for the scanner function.

Administrator Tools

This section describes the user tools in the Administrator Tools menu under System Settings.

Administrator Tools are used by the administrator. To change these settings, contact the administrator.

We recommend specifying Administrator Authentication before making Administrator Tools settings.

❖ Address Book Management

You can add, change or delete information registered in the Address Book. For details, see "Address Book".

- Program/Change

You can register and change names as well as user codes.

- Names

You can register a name, key display, registration number, and title selection.

- Auth. Info

You can register a user code, and specify the functions available to each user code. You can also register user names and passwords to be used when sending e-mail, sending files to folders, or accessing an LDAP server.

- Protection

You can register a protection code.

- Fax Dest.

You can register a fax number, international TX mode, fax header, label insertion, IP-Fax destination, and protocol.

- E-mail

You can register an e-mail address.

- Folder

You can register the protocol, path, port number, and server name.

- Add to Group

You can put names registered in the Address Book into a group.

- Delete

You can delete a name from the Address Book.

You can register up to 2,000 names.

You can register up to 500 user codes.

You can also register and manage names in the Address Book using Web Image Monitor or SmartDeviceMonitor for Admin.

❖ Address Book: Program / Change / Delete Group

Names registered in the Address Book can be added into a group. You can then easily manage the names registered in each group.

- Program/Change
You can register and change groups.
 - Names
You can register a name, key display, registration number, and title selection.
 - Programmed User/Group
You can check the names or groups registered in each group.
 - Protection
You can register a protection code.
 - Add to Group
You can put groups registered in the Address Book into a group.
- Delete
You can delete a group from the Address Book.

You can register up to 100 groups.

You can also register and manage groups in the Address Book using Web Image Monitor or SmartDeviceMonitor for Admin.

Use SmartDeviceMonitor for Admin provided with the printer scanner unit.

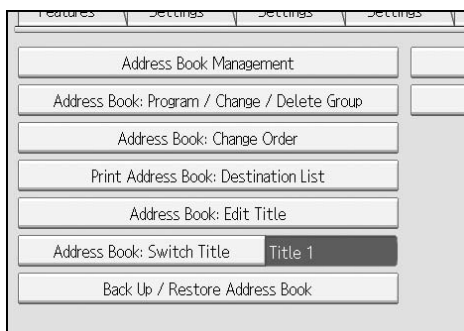

❖ Address Book: Change Order

Changes the order of registered name.

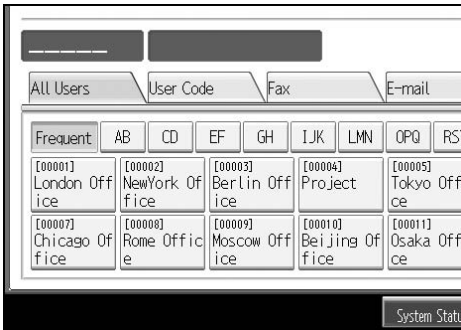

You can rearrange the order of items on the same page, but you cannot move items to another page.

For example, you cannot move an item from “PLANNING” ([OPQ]) to “DAILY” ([CD]).

- ① Press **[System Settings]**.
- ② Press **[Administrator Tools]**.
- ③ Press **[Address Book: Change Order]**.

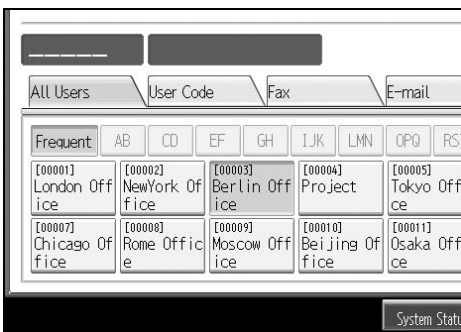

- ④ Press the name key to be move.

You can select a name using the number keys.

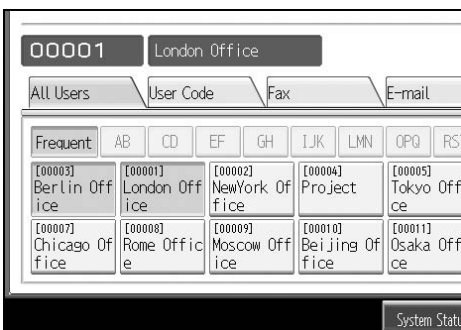

- ⑤ Press the name key in the place you want to move to.

The user key is moved to the selected position, and the user key currently at the selected position is moved forward or backward.

If you move the selected user key forward, the user key currently at the selected position is moved backward.

If you move the selected user key backward, the user key currently at the selected position is moved forward.

You can also select a name using the number keys.

❖ Print Address Book: Destination List

You can print the destination list registered in the Address Book.

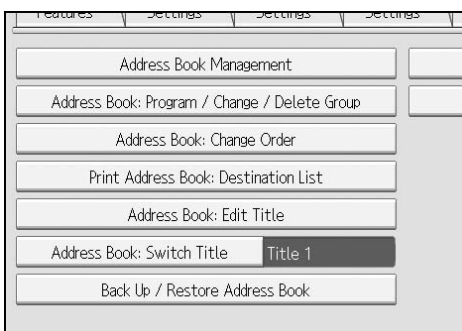

- Print in Title 1 Order
Prints the Address Book in Title 1 order.
- Print in Title 2 Order
Prints the Address Book in Title 2 order.
- Print in Title 3 Order
Prints the Address Book in Title 3 order.
- Print Group Dial List
Prints the group Address Book.

- ① Press **[System Settings]**.
- ② Press **[Administrator Tools]**.
- ③ Press **[Print Address Book: Destination List]**.
- ④ Select the print format.
- ⑤ To print the list on two-sided pages, select **[Print on 2 Sides]**.
- ⑥ Press the **[Start]** key.
The list prints out.

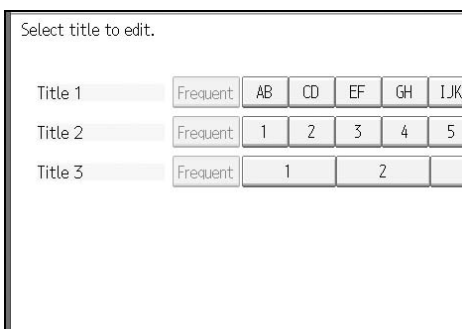

❖ Address Book: Edit Title

You can edit the title to easily find a user.

- ① Press **[System Settings]**.
- ② Press **[Administrator Tools]**.
- ③ Press **[Address Book: Edit Title]**.

- ④ Press the title key you want to change.

- ⑤ Enter the new name, and then press **[OK]**.
- ⑥ Press **[OK]**.

❖ **Address Book: Switch Title**

Specifies the title to select a name.

- **Title 1**
- Title 2
- Title 3

❖ **Back Up / Restore Address Book**

You can back up the machine's address book to external storage or restore the backup copy from the external storage.

- **Back Up**
You can back up the machine's address book to external storage.
- **Restore**
You can restore the backup copy of the address book from external storage.
- **Format**
You can format the external storage.
- **Obtain Media Info**
The free space and occupied space of the external storage are displayed.

❖ **Display/Print Counter**

Allows you to view and print the number of prints.

- **Display/Print Counter**
Displays the number of prints for each function (Total, Copier, Facsimile, Printer, A3/DLT, Duplex, and Staple).
- **Print Counter List**
Prints out a list of the number of prints made under each function.

❖ **Display/Clear/Print Counter per User**

Allows you to view and print the numbers of prints accessed with user codes, and to set those values to 0.

Press **[▲Previous]** and **[▼Next]** to show all the numbers of prints.

The number of prints may differ from the counter value shown in Display/Print Counter.

- **Print Counter for All Users**
Prints the counter values for all the users.
- **Clear Counter for All Users**
Sets the counter value for all the users.
- **Print Counter per User**
Prints the counter values for each user.
- **Clear Counter per User**
Sets the counter value for each user.

❖ User Authentication Management

- User Code Auth.
Using User Code Authentication, you can limit the available functions and supervise their use.
When using User Code Authentication, register the user code.
Using the Printer PC Control function, you can obtain a log of prints corresponding to the codes entered using the printer driver.
If User Code Authentication has been specified, Auto Color Selection cannot be used.
For details about Basic Authentication, Windows Authentication, LDAP Authentication, and Integration Server Authentication, consult your administrator.
- Copier
- Printer
- Other Functions
- Printer Job Authentication
- Basic Auth.
- Windows Auth.
- LDAP Auth.
- Integration Svr. Auth.
- Off

❖ Enhanced Authentication Management

For details about this function, consult your administrator.

❖ Administrator Authentication Management

For details about this function, consult your administrator.

❖ Program/Change Administrator

For details about this function, consult your administrator.

❖ Key Counter Management

Specify the functions that you want to manage with the key counter.

- Copier: Full Color / B&W
- Printer: B&W
- Other Functions: Document Server / Facsimile / Scanner

❖ Extended Security

Specify whether or not to use the extended security functions. For details about the extended security functions, consult your administrator.

❖ Auto Delete File in Document Server

Specify whether documents stored in the Document Server will or will not be deleted after a specified period of time.

- **On: 3 day(s)**
- Off

If you select **[On]**, documents stored subsequently are deleted after the specified period.

If you select **[Off]**, documents are not automatically deleted.

If you select **[On]**, enter a number of days from 1 to 180 (in 1 day increments). The default is 3 days, this means documents are deleted 3 days (72 hours) after they are stored.

❖ Delete All Files in Document Server

You can delete files stored in the Document Server, including files stored for Sample Print, Locked Print, Hold Print, and Stored Print under the printer function.

- No
- Yes

Even if a password is always set, all documents are deleted.

A confirmation message appears. To delete all documents, select **[Yes]**.

❖ Program / Change / Delete LDAP Server

Program the LDAP server to find up e-mail destinations in the LDAP server Address Book directly. This function is possible when sending scan files by e-mail using the scanner or fax function.

- Name
- Server Name
- Search Base
- Port Number
- SSL
- Authentication
- User Name
- Password
- Search Conditions
- Search Options

To start an LDAP search, make sure that the items listed below are set. For other items, check your environment and make any necessary changes.

- Server Name
- Search Base
- Port Number
- Search Conditions
- Authentication method selection

To use the LDAP server in Administrator Tools, select **[On]** under LDAP server. This function supports LDAP Version 2.0 and 3.0. Ver 2.0 does not support High Security authentication.

❖ **LDAP Search**

Specify whether or not to use the LDAP server for searching.

- On
- Off

If you select **[Off]**, **[Search LDAP]** will not appear on the searching display.

❖ **AOF (Always On)**

Specify whether or not to use Auto Off.

- On
- Off

❖ **Firmware Version**

You can check the version of the software installed in this machine.

❖ **Network Security Level**

For details about this function, consult your administrator.

❖ **Auto Erase Memory Setting**

For details about this function, consult your administrator.

❖ **Erase All Memory**

For details about this function, consult your administrator.

❖ **Delete All Logs**

For details about this function, consult your administrator.

❖ **Transfer Log Setting**

For details about this function, consult your administrator.

❖ **Data Security for Copying**

For details about this function, consult your administrator.

p.273 "Counter"

Program / Change / Delete LDAP Server

This section explains how to specify the LDAP server settings.

To program/change the LDAP server

- 1** Press [System Settings].
- 2** Press [Administrator Tools].
- 3** Press [Program / Change / Delete LDAP Server].
- 4** Check that [Program/Change] is selected.
- 5** Select the LDAP server you want to program or change.
When programming the server, select [Not Programmed].
- 6** Set each item as necessary.
- 7** Press [OK] after setting each item.
For details about LDAP server, see “Programming the LDAP server”.
- 8** Press [Exit].
- 9** Press the [User Tools/Counter] key.

 **Reference**

p.84 “Programming the LDAP server”

To delete the programmed LDAP server

- 1** Press [System Settings].
- 2** Press [Administrator Tools].
- 3** Press [Program / Change / Delete LDAP Server].
- 4** Press [Delete].
- 5** Select the LDAP server you want to delete.
- 6** Press [Yes].
- 7** Press [Exit].
- 8** Press the [User Tools/Counter] key.

Programming the LDAP server

This section explains how to specify the LDAP server settings.

To enter an identification name

2

- 1** Press [Change] under “Name”.

Register a name for the LDAP server that will appear on the server selection screen of the LDAP search operation.

- 2** Enter the server’s identification name.

- 3** Press [OK].
-

To enter a server name

- 1** Press [Change] under “Server Name”.

Register the LDAP server’s host name or IPv4 address.

- 2** Enter the LDAP server name.

- 3** Press [OK].
-

To enter the search base

- 1** Press [Change] under “Search Base”.

Select a route folder to start the search from e-mail addresses registered in the selected folder are search targets.

- 2** Enter the search base.

For example, if the search target is the sales department of ABC company, enter “dc=sales department, o=ABC”. (In this example, the description is for an active directory. “dc” is for the organization unit, and “o” is for the company.)

Search base registration may be required depending on your server environment. When registration is required, unspecified searches will result in error. Check you server environment and enter any required specifications.

- 3** Press [OK].

To enter a port number

1 Press [Change] under “Port No.”.

Specify the port number for communicating with the LDAP server. Specify a port that is compliant with your environment.

2 Enter the port number using the number keys, and then press the [#] key.

When SSL is set to [On], the port number automatically changes to “636”.

To start SSL communication

1 Press [On].

Use SSL to communicate with the LDAP server.

To use SSL, the LDAP server must support SSL.

When SSL is set to [On], the port number automatically changes to “689”.

SSL setting must be enabled on this machine. For details, consult your network administrator.

To set authentication

1 Press [▼Next].

2 Press [On] or [High Security] under “Authentication”.

To make a search request to the LDAP server, use the administrator account for authentication.

Authentication settings must comply with your server’s authentication settings. Check your server settings before setting this machine.

[High Security] is available only with LDAP Version 3.0.

When **[High Security]** is selected, the administrator password is encrypted before it is sent to the network. When **[On]** is selected, the password is sent without encryption.

To enter the user name and password

1 Press [▼Next].

2 Press [Change] under “User Name”.

When [On] or [High Security] is selected for the authentication setting, use the administrator account name and password. Do not enter the administrator account name and password when using authentication for each individual or each search.

3 Enter the user name, and then press [OK].

Procedures for the user name setting differ depending on server environment. Check your server environment before making the setting.

Example: Domain Name\User Name, User Name@Domain Name, CN=Name, OU=Department Name, DC=Server Name

4 Press [Change] under “Password”.

5 Enter the password, and then press [OK].

The user name and password are required for administrator access to the LDAP server.

You can set the user name and password in this machine’s Address Book to allow individual authentication access to the LDAP server. Use Administrator Tools to select the user name and password you want to use.

To test the connection

1 Press [Connection Test].

Access the LDAP server to check the proper connection is established. Check authentication works according to the authentication settings.

A connection test is carried out.

2 Press [Exit].

If the connection test fails, check your settings and try again.

This function does not check search conditions or the search base.

To set search conditions

- 1** Press [▼Next] twice.
- 2** Press [Change] for items you want to use as search conditions from the following: [Name], [E-mail Address], [Fax Number], [Company Name], and [Department Name].

You can enter an attribute as a typical search keyword. Using the entered attribute, the function searches the LDAP server's Address Book.

- 3** Enter the attribute you want to use when searching for e-mail addresses, and then press [OK].

The attribute value may change depending on the server environment. Check the attribute value complies with your server environment before setting it.

You can leave items blank, but you cannot leave attributes blank when searching for e-mail addresses from the LDAP server Address Book.

To set search options

- 1** Press [▼Next] three times.
- 2** Press [Change] under "Attribute".
- 3** Enter the attribute you want to use when searching for e-mail addresses, and then press [OK].

To search the LDAP server data using a keyword other than prepared keywords such as Name, E-mail Address, FAX Number, Company Name, and Department Name, specify the attribute for the keyword registered in your LDAP server, and the name to be displayed on the control panel during the search. For example, to search e-mail addresses by employee number, enter "employeeNo." in the Attribute field, and "Employee No." in the key display field.

The attribute value may change depending on the server environment. Check the attribute complies with your server environment before setting it.

- 4** Press [Change] under "Key Display".

5 Enter the key display, and then press [OK].

The registered “key display” appears as a keyword for searching LDAP.

- Without key display registration

Name	Beginning Word	End Word	Exact Match
User Code	Beginning Word	End Word	Exact Match
Fax Destination	Beginning Word	End Word	Exact Match
E-mail Address	Beginning Word	End Word	Exact Match
Folder Name	Beginning Word	End Word	Exact Match

- With key display registration

Name	Beginning Word	End Word	Exact Match
Fax Destination	Beginning Word	End Word	Exact Match
E-mail Address	Beginning Word	End Word	Exact Match
Company Name	Beginning Word	End Word	Exact Match
Department Name	Beginning Word	End Word	Exact Match
EmployeeNo.	Beginning Word	End Word	Exact Match

The key does not appear on the search screen unless both “Attribute” and “Key Display” are registered. Make sure you register both to use the optional search.

3. Copier / Document Server Features

This chapter describes user tools in the Copier / Document Server Features menu.

General Features

This section describes the user tools in the General Features menu under Copier / Document Server Features.

❖ **Auto Image Density Priority**

You can set whether Auto Image Density is “On” or “Off” when the machine is turned on, reset, or modes are cleared.

- Full Color
 - On
 - **Off**
- B&W
 - **On**
 - Off

❖ **Original Type Priority**

You can select the original type effective when the power is turned on, or modes cleared.

- Full Color
 - Text
 - **Text/Photo**
 - Photo
 - Pale
 - Generation Copy
 - Map
- B&W
 - Text
 - **Text/Photo**
 - Photo
 - Pale
 - Generation Copy
 - Map

❖ **Original Photo Type Priority**

When you select “Text / Photo” or “Photo” in “Original Type Priority”, you can change the settings of the selected original type.

- Glossy Photo
- **Printed Photo**
- Copied Photo

❖ **Original Type Display**

You can have the original types shown on the initial display.

- **Display**
- Hide

If you select **[Hide]**, the display is as below.

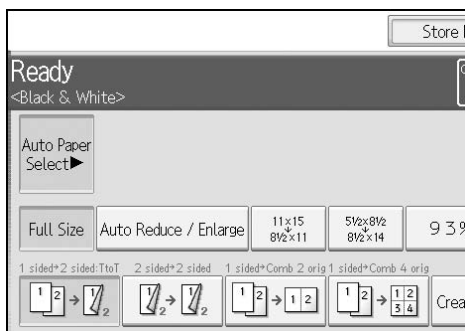

❖ **Paper Display**

You can choose to have the available paper trays and sizes shown on the initial display.

- **Display**
- Hide

If you select **[Hide]**, the display is shown as below. Press **[Auto Paper Select]** to display paper sizes.

❖ **Original Orientation in Duplex Mode**

You can set the original orientation when making two-sided copies.

- **Top to Top**
- Top to Bottom

❖ Copy Orientation in Duplex Mode

You can set the copy orientation when making two-sided copies.

- Top to Top
- Top to Bottom

❖ Max. Copy Quantity

The maximum copy quantity can be set between 1 and 999.
The default setting is **999 sheets**.

❖ Auto Tray Switching

If you load paper of the same size in two or more trays, the machine automatically shifts to the other when the first tray runs out of paper (when Auto Paper Select is selected.) This function is called “Auto Tray Switching”. This setting specifies whether to use Auto Tray Switching or not.

- **With Image Rotation**
Use to copy when using the Auto Tray Switching function.
- Without Image Rotation
Only copies with Auto Tray Switching if you load paper of the same size and in the same orientation in two or more trays. If the paper is not the same size or in the same orientation, copying is interrupted and the message “Load paper.” is displayed.
- Off
When a paper tray runs out of paper, copying is interrupted and the message “Load paper.” is displayed.

❖ Tone: Original Remains

The beeper (key tone) sounds if you forget to remove originals after copying.

- On
- Off

If Panel Tone of User Tools (System Settings) is **[Off]** the beeper does not sound irrespective of the Tone: Original remains setting.

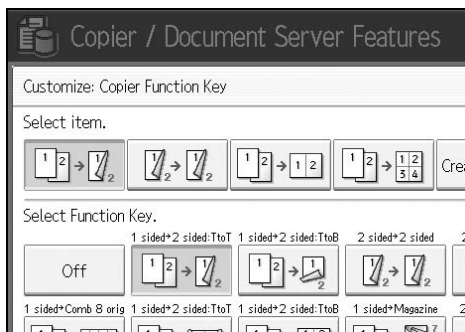

❖ Job End Call

You can choose whether or not the beeper sounds when copying is complete. If Panel Tone of User Tools (System Settings) settings is **[On]**, the machine beeps to notify you that it did not complete a job for reasons such as copying was interrupted, the paper tray ran out of paper, or a paper jam occurred.

- On
- Off

❖ **Customize: Copier Function Key**

You can assign up to six frequently-used functions to Copy Function keys.

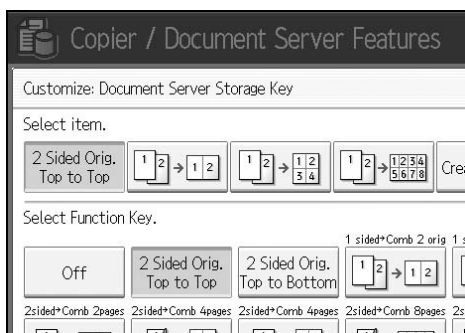

3

- Off
- 2 originals → 2 Sided: Top to Top
- 2 originals → 2 Sided: Top to Bottom
- 2 Sided → 2 Sided
- 2 Sided: Top to Top → 2 originals
- 1 Sided → 1 Sided Combine: 2 originals
- 1 Sided → 1 Sided Combine: 4 originals
- 1 Sided → 1 Sided Combine: 8 originals
- 4 originals → 2 Sided Combine: Top to Top
- 4 originals → 2 Sided Combine: Top to Bottom
- 1 Sided → Magazine
- 2 Sided → Magazine
- Create Margin
- Original Orientation
- Batch
- Staple: Top Slant/Left
- Staple: Bottom Slant/Left
- Staple: Left 2
- Staple: Top 2
- Staple: Top
- Staple: Bottom
- Saddle Stitch
- 2 Holes Left
- 2 Holes Top
- 3 Holes Left
- 3 Holes Top

- 4 Holes Left
- 4 Holes Top
- Positive/Negative

❖ **Customize: Document Server Storage key**

You can assign up to six frequently-used functions to Document Server Storage keys.

- Off
- 2 Sided original: Top to Top
- 2 Sided original: Top to Bottom
- 1 Sided → 1 Sided Combine: 2 originals
- 1 Sided → 1 Sided Combine: 4 originals
- 1 Sided → 1 Sided Combine: 8 originals
- 2 Sided: Top to Top → 1 Sided Combine: 2 originals
- 2 Sided: Top to Bottom → 1 Sided Combine: 2 originals
- 2 Sided: Top to Top → 1 Sided Combine: 4 originals
- 2 Sided: Top to Bottom → 1 Sided Combine: 4 originals
- 2 Sided: Top to Top → 1 Sided Combine: 8 originals
- 2 Sided: Top to Bottom → 1 Sided Combine: 8 originals
- Create Margin
- Original Orientation
- Batch
- Positive/Negative

Reproduction Ratio

This section describes the user tools in the Reproduction Ratio menu under Copier / Document Server Features.

❖ Shortcut R/E

You can register up to three frequently used Reduce / Enlarge ratios other than the fixed Reduce / Enlarge ratio and have them shown on the initial display. You can also change registered Reduce / Enlarge ratios.

- Metric version
 - 25%
 - A3 → A5, F → A5 (50%)
 - A3 → F (65%)
 - A3 → A4, A4 → A5 (71%)
 - B4 → F4 (75%)
 - F → A4, B4 → A4 (82%)
 - 93%
 - B4 → A3 (115%)
 - F → A3, A4 → B4 (122%)
 - A4 → A3, A5 → A4 (141%)
 - A5 → A3 (200%)
 - 400%
 - User R/E Ratio (25-400%)
 - Off
- Default:
 - **F1: 71%**
 - **F2: 141%**
 - **F3: 93%**
- Inch version
 - 25%
 - 11"×17" → 5¹/₂"×8¹/₂" (50%)
 - 11"×17" → 8¹/₂"×11" (65%)
 - 11"×15" → 8¹/₂"×11" (73%)
 - 8¹/₂"×14" → 8¹/₂"×11" (78%)
 - F → 8¹/₂"×11" (85%)
 - 93%
 - 8¹/₂"×14" → 11"×17" (121%)
 - 8¹/₂"×11" → 11"×17" (129%)
 - 8¹/₂"×8¹/₂" → 8¹/₂"×14" (155%)

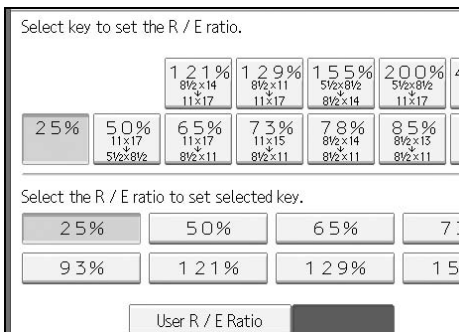

- $5\frac{1}{2}'' \times 8\frac{1}{2}'' \rightarrow 11'' \times 17''$ (200%)
- 400%
- User R/E Ratio (25-400%)
- Off

Default:

- **F1: 73%**
- **F2: 155%**
- **F3: 93%**

❖ Reproduction Ratio

Specify the enlargement and reduction ratios that appear if [Reduce / Enlarge] is pressed on the copier screen.

- Metric version
 - 25%
 - A3 → A5, F → A5 (50%)
 - A3 → F (65%)
 - A3 → A4, A4 → A5 (71%)
 - B4 → F4 (75%)
 - F → A4, B4 → A4 (82%)
 - 93%
 - B4 → A3 (115%)
 - F → A3, A4 → B4 (122%)
 - A4 → A3, A5 → A4 (141%)
 - A5 → A3 (200%)
 - 400%
 - User R/E Ratio (25-400%)

- Inch version
 - 25%
 - 11"×17" → 5¹/₂"×8¹/₂" (50%)
 - 11"×17" → 8¹/₂"×11" (65%)
 - 11"×15" → 8¹/₂"×11" (73%)
 - 8¹/₂"×14" → 8¹/₂"×11" (78%)
 - F → 8¹/₂"×11" (85%)
 - 93%
 - 8¹/₂"×14" → 11"×17" (121%)
 - 8¹/₂"×11" → 11"×17" (129%)
 - 8¹/₂"×8¹/₂" → 8¹/₂"×14" (155%)
 - 5¹/₂"×8¹/₂" → 11"×17" (200%)
 - 400%
 - User R/E Ratio (25-400%)

❖ R/E Ratio Priority

You can set the ratio with priority when **[Reduce / Enlarge]** is pressed.

- Metric version
 - 400%
 - 200%
 - 141%
 - 122%
 - 115%
 - 93%
 - 82%
 - 75%
 - **71%**
 - 65%
 - 50%
 - 25%

- Inch version
 - 400%
 - 200%
 - 155%
 - 129%
 - 121%
 - 93%
 - 85%
 - 78%
 - 73%
 - 65%
 - 50%
 - 25%

❖ **Ratio for Create Margin**

You can set a Reduce / Enlarge ratio when registering Create Margin in a shortcut key.

Enter a ratio using number keys (in the range of 90 to 99%).

The default setting is **93%**.

Edit

This section describes the user tools in the Edit menu under Copier / Document Server Features.

Enter the width of the binding margin with the number keys as follows:

- Metric version: 0–30 mm (in increments of 1 mm)
- Inch version: 0"-1.2" (in increments of 0.1 inch)

Enter the width of the erased margin with the number keys as follows:

- Metric version: 2–99 mm (in increments of 1 mm)
- Inch version: 0.1"-3.9" (in increments of 0.1 inch)

An image of approximately 1.5 mm (0.06") will not be displayed as the width of the separation line, when specifying solid or broken lines.

❖ **Front Margin: Left/Right**

Specify left and right margins on the front side of copies in Margin Adjustment mode.

- **Left**
- **Right**

Default:

- Metric version: **Left 5 mm**
- Inch version: **Left 0.2"**

❖ **Back Margin: Left/Right**

Specify left and right margins on the back side of copies in Margin Adjustment mode.

- **Left**
- **Right**

Default:

- Metric version: **Left 5 mm**
- Inch version: **Left 0.2"**

❖ **Front Margin: Top/Bottom**

Specify top and bottom margins on the front side of copies in Margin Adjustment mode.

- **Top**
- **Bottom**

Default:

- Metric version: **Top/Bottom 0mm**
- Inch version: **Top/Bottom 0.0"**

❖ Back Margin: Top/Bottom

Specify top and bottom margins on the back side of copies in Margin Adjustment mode.

- Top
- Bottom

Default:

- Metric version: **Top/Bottom 0mm**
- Inch version: **Top/Bottom 0.0"**

❖ 1 Sided → 2 Sided Auto Margin: TtoT

In 1 sided to 2 sided Duplex mode, you can specify the margins on the back side.

The margin is set to the same value of "Back Margin: Left/Right".

- Left
- **Right**

Default:

- Metric version: **Right 5 mm**
- Inch version: **Right 0.2"**

❖ 1 Sided → 2 Sided Auto Margin: TtoB

In 1 sided to 2 sided Duplex mode, you can specify the margins on the back side.

The value set for "Back Margin: Top/Bottom" is used.

- Top
- Bottom

Default:

- Metric version: **Top/Bottom 0mm**
- Inch version: **Top/Bottom 0.0"**

❖ Erase Border Width

Top/Bottom 0mm

Default:

- Metric version: **10mm**
- Inch version: **0.4"**

❖ Erase Original Shadow in Combine

In Combine mode, you can specify whether to erase a 3 mm, 0.1" boundary margin around all four edges of each original.

- **On**
- Off

❖ **Erase Center Width**

Specify the width of the erased center margins with this function.

Default:

- Metric version: **10 mm**
- Inch version: **0.4"**

❖ **Front Cover Copy in Combine**

You can make a combined copy on the front cover sheet when you select Front Cover mode.

Combine				Not Combined				
1	2	5	6	1	2	3	6	7
3	4	7	8		4	5	8	

GCST019E

- **Combine**
- Don not Combine

❖ **Copy Order in Combine**

You can set the copy order in Combine mode to Left to Right or Top to Bottom.

From Left to Right	From Top to Bottom																
<table border="1"> <tr><td>1</td><td>2</td></tr> <tr><td>3</td><td>4</td></tr> </table>	1	2	3	4	<table border="1"> <tr><td>1</td><td>3</td></tr> <tr><td>2</td><td>4</td></tr> </table>	1	3	2	4								
1	2																
3	4																
1	3																
2	4																
<table border="1"> <tr><td>1</td><td>2</td><td>3</td><td>4</td></tr> <tr><td>5</td><td>6</td><td>7</td><td>8</td></tr> </table>	1	2	3	4	5	6	7	8	<table border="1"> <tr><td>1</td><td>3</td><td>5</td><td>7</td></tr> <tr><td>2</td><td>4</td><td>6</td><td>8</td></tr> </table>	1	3	5	7	2	4	6	8
1	2	3	4														
5	6	7	8														
1	3	5	7														
2	4	6	8														

GCAH090E

- **From Left to Right**
- Form Right to Left
- Bottom Left
- Top to Bttm from Right

❖ **Orientation: Booklet, Magazine**

You can select the orientation of copies to open when using Booklet or Magazine mode.

- **Open to Left**
- Open to Right

❖ Copy on Designating Page in Combine

Specify whether to make a combined copy on the inserted slip sheets in Desig./Chapter mode.

- **Combine**
- Don not Combine

❖ Image Repeat Separation Line

You can select a separation line and color using the Image Repeat function from: None, Solid, Broken A, Broken B, or Crop Marks.

- **None**

- **Solid**

- **Broken A**

- **Broken B**

- **Crop Marks**

Line color (Full Color):

- Yellow
- Red
- Cyan
- Magenta
- Green
- Blue
- **Black**

Separation lines cannot be specified when using **[None]**.

In "Black and White", printing will be done in black.

The image area of approximately 1.5 mm (0.06") wide on the separation line may not be copied, when specifying solid or broken lines.

❖ Double Copies Separation Line

You can select a separation line using the Double Copies function from: None, Solid, Broken A, Broken B, or Crop Marks.

- **None**

- **Solid**

- **Broken A**

- **Broken B**

- **Crop Marks**

Line color (Full Color):

- Yellow
- Red
- Cyan
- Magenta
- Green
- Blue
- **Black**

Separation lines cannot be specified when using **[None]**.

In "Black and White", printing will be done in black.

The image area of approximately 1.5 mm (0.06") wide on the separation line may not be copied, when specifying solid or broken lines.

❖ Separation Line in Combine

You can select a separation line using the Combine function from: None, Solid, Broken A, Broken B, or Crop Marks.

- **None**

- **Solid**

- **Broken A**

- **Broken B**

- **Crop Marks**

Line color (Full Color):

- Yellow
- Red
- Cyan
- Magenta
- Green
- Blue
- **Black**

Separation lines cannot be specified when using **[None]**.

In "Black and White", printing will be done in black.

The image area of approximately 1.5 mm (0.06") wide on the separation line may not be copied, when specifying solid or broken lines.

You can set the pattern used to print the stamp.
 - **Normal**
The stamp is printed on the image. You cannot check which parts will overlap.
 - **Lighter**
The image can be seen through the stamp.
 - **Lightest**
The image appears even clearer than in the Lighter setting.
- **Page to Stamp**
You can have the stamp printed on the first page or all pages.
 - **All Pages**
 - **1st Page Only**

❖ **Stamp Color**

Sets the stamp print color.

- Yellow
- **Red**
- Cyan
- Magenta
- Green
- Blue
- Black

Reference

“Preset Stamp”, Copy/ Document Server Reference

User Stamp

This section describes the user tools in the User Stamp menu under Stamp.

❖ Program/Delete Stamp

You can register, change, or delete these designs as user stamps.

You can register up to four custom stamps with your favourite designs.

❖ Stamp Format:1-4

Specify how each of registered User Stamps 1 to 4 is printed.

• Stamp Position

Specify where to print the User Stamp.

- Top Left
- Top Center
- **Top Right**
- Center Left
- Center
- Center Right
- Bottom Left
- Btm Center
- Bottom Right

• Stamp Position

You can adjust the position of the User Stamp within the available range as shown below.

• Metric version:

"Top Left" ...T/B: 4-144mm, L/R: 4-144mm

"Top Cnter" ...T/B: 4-144mm, L/R: 72-72mm

"Top Right" ...T/B: 4-144mm, L/R: 4-144mm

"Cnter Left" ...T/B: 72-72mm, L/R: 4-144mm

"Cnter" ...T/B: 72-72mm, L/R: 72-72mm

"Cnter Right" ...T/B: 72-72mm, L/R: 4-144mm

"Bottom Left" ...T/B: 4-144mm, L/R: 4-144mm

"Btm Cnter" ...T/B: 4-144mm, L/R: 72-72mm

"Bottom Right" ...T/B: 4-144mm, L/R: 4-144mm

• Inch version:

"Top Left" ...T/B: 0.1"-5.7", L/R: 0.1"-5.7"

"Top Cnter" ...T/B: 0.1"-5.7", L/R: 2.8"-2.8"

"Top Right" ...T/B: 0.1"-5.7", L/R: 0.1"-5.7"

"Cnter Left" ...T/B: 2.8"-2.8", L/R: 0.1"-5.7"

"Cnter" ...T/B: 2.8"-2.8", L/R: 2.8"-2.8"

"Cnter Right" ...T/B: 2.8"-2.8", L/R: 0.1"-5.7"

"Bottom Left" ...T/B: 0.1"-5.7", L/R: 0.1"-5.7"

"Btm Cnter" ...T/B: 0.1"-5.7", L/R: 2.8"-2.8"

"Bottom Right" ...T/B: 0.1"-5.7", L/R: 0.1"-5.7"

- **Page to Stamp**
Sets whether to print the stamp on all pages or only the first page.
 - **All Pages**
 - **1st Page Only**

❖ **Stamp Color:1-4**

Sets the color registered in User Stamp color (1 to 4).

- Yellow
- Red
- Cyan
- Magenta
- Green
- Blue
- **Black**

Date Stamp

This section describes the user tools in the Date Stamp menu under Stamp.

❖ **Format**

You can select the date format for Date Stamp mode.

- MM/DD/YYYY
- MM.DD.YYYY
- DD/MM/YYYY
- DD.MM.YYYY
- YYYY.MM.DD

Default:

- Metric version: **DD/MM/YYYY**
- Inch version: **MM/DD/YYYY**

❖ **Font**

You can select the Date Stamp font.

- **Font 1**
- Font 2
- Font 3

❖ Size

You can set the Date Stamp size.

- **Auto**
- Large
- Middle
- Small

❖ Superimpose

You can have the Date Stamp printed in white when it overlaps black parts of the image.

- On
- **Off**

❖ Stamp Color

You can set the selected priority color when printing the date.

- Yellow
- Red
- Cyan
- Magenta
- Green
- Blue
- **Black**

❖ Stamp Setting

Specify how Date Stamp is printed.

- Stamp Position
Specify where to print the Date Stamp.
 - **Top Left**
 - Top Center
 - Top Right
 - Bottom Left
 - Bttm Center
 - Bottom Right

- Stamp Position

You can adjust the position of the Date Stamp within the available range as shown below.

- Metric version:
 - “Top Left” ...T/B: 4-144mm, L/R: 4-144mm
 - “Top Cnter” ...T/B: 4-144mm, L/R: 72-72mm
 - “Top Right” ...T/B: 4-144mm, L/R: 4-144mm
 - “Bottom Left” ...T/B: 4-144mm, L/R: 4-144mm
 - “Bttm Cnter” ...T/B: 4-144mm, L/R: 72-72mm
 - “Bottom Right” ...T/B: 4-144mm, L/R: 4-144mm

- Inch version:
 - “Top Left”...T/B: 0.1”-5.7”, L/R: 0.1”-5.7”
 - “Top Cnter”...T/B: 0.1”-5.7”, L/R: 2.8”-2.8”
 - “Top Right”...T/B: 0.1”-5.7”, L/R: 0.1”-5.7”
 - “Bottom Left”...T/B: 0.1”-5.7”, L/R: 0.1”-5.7”
 - “Bttm Cnter”...T/B: 0.1”-5.7”, L/R: 2.8”-2.8”
 - “Bottom Right”...T/B: 0.1”-5.7”, L/R: 0.1”-5.7”
- Page to Stamp

Sets whether to print the stamp on all pages or only the first page.

 - **All Pages**
 - 1st Page Only

Page Numbering

This section describes the user tools in the Page Numbering menu under Stamp.

❖ Stamp Format

You can select the page number format given priority when **[Page Numbering]** is pressed.

- **P1,P2...**
- 1/5,2/5...
- -1,-2-...
- P.1,P.2...
- 1,2...
- 1-1,1-2...

❖ Font

You can select the page number printed in Page Numbering mode.

- **Font 1**
- Font 2
- Font 3

❖ Size

You can set the size of the stamp printed in Page Numbering mode.

- **Auto**
- Large
- Middle
- Small

❖ Duplex Back Page Stamping Position

You can set the position of the duplex back page number printed in Duplex mode.

- **Opposite Position**
- Same Position

❖ Page Numbering in Combine

You can set page numbering when using the Combine function and the Page Numbering function together.

- **Per Original**
- Per Copy

❖ Stamp Position on Designating Page

You can select to print the page number onto slip sheets when using the Designate function set to **[Copy]** and the Page Numbering function together.

- On
- **Off**

❖ Stamp Position

Specify how each of stamp is printed.

- Stamp Position
Specify where to print the stamp.
 - Top Left
 - Top Center
 - **Top Right**
 - Bottom Left
 - Bttm Center
 - Bottom Right
- Stamp Position
You can adjust the position of the stam within the available range as shown below.
 - Metric version:
 - "Top Left" ...T/B: 4-144mm, L/R: 4-144mm
 - "Top Cnter" ...T/B: 4-144mm, L/R: 72-72mm
 - "Top Right" ...T/B: 4-144mm, L/R: 4-144mm
 - "Bottom Left" ...T/B: 4-144mm, L/R: 4-144mm
 - "Bttm Cnter" ...T/B: 4-144mm, L/R: 72-72mm
 - "Bottom Right" ...T/B: 4-144mm, L/R: 4-144mm
 - Inch version:
 - "Top Left" ...T/B: 0.1"-5.7", L/R: 0.1"-5.7"
 - "Top Cnter" ...T/B: 0.1"-5.7", L/R: 2.8"-2.8"
 - "Top Right" ...T/B: 0.1"-5.7", L/R: 0.1"-5.7"
 - "Bottom Left" ...T/B: 0.1"-5.7", L/R: 0.1"-5.7"
 - "Bttm Cnter" ...T/B: 0.1"-5.7", L/R: 2.8"-2.8"
 - "Bottom Right" ...T/B: 0.1"-5.7", L/R: 0.1"-5.7"

❖ Superimpose

You can have page numbers printed in white when they overlap black parts of the image.

- On
- **Off**

❖ Stamp Color

You can set the selected priority color when printing the date.

- Yellow
- Red
- Cyan
- Magenta
- Green
- Blue
- **Black**

❖ Page Numbering Initial Letter

You can select the page numbering initial letter between "P1, P2.../P.1, P.2..." and "S1, S2.../S.1, S.2...".

- **P1, P2.../P.1, P.2...**
- S1, S2.../S.1, S.2...

Input/Output

This section describes the user tools in the Input/Output menu under Copier / Document Server Features.

❖ Switch to Batch

You can select to have Batch mode or SADF mode displayed when you press the **[Special Original]** key.

- **Batch**
- **SADF**

❖ SADF Auto Reset

In SADF mode, an original must be set within a specified time after the previous original has been fed.

You can adjust this time from 3 to 99 seconds in increments of 1 second.

The default setting is **5 second(s)**.

❖ Rotate Sort: Auto Paper Continue

Specify to continue copying when paper of the required orientation has run out during rotatesorting.

- **On**
Copying continues using copy paper of a different orientation. The copy job will finish even if you have left the machine.
- **Off**
When paper of the required orientation runs out, the machine stops copying and prompts you to supply copy paper. After you have loaded paper, the machine will continue copying.

❖ Memory Full Auto Scan Restart

When memory becomes full while scanning originals, the machine can make copies of scanned originals first, and then automatically proceed scanning remaining originals.

- **On**
You can leave the machine unattended to make copies, but sorted pages will not be sequential.
- **Off**
When memory becomes full, the machine stops operation allowing you to remove the copy pages delivered on the output tray.

❖ Letterhead Setting

If you select **[Yes]** in this function, the machine rotates the image correctly.

- **Yes**
- **No**

Orientation-fixed (top to bottom) or two-sided paper might not be printed correctly depending on how the originals and paper are placed.

❖ Select Stapling Position

Specify which Top 2 staples or Bottom shown on the initial display with priority.

The optional 500-sheet finisher, 1000-sheet finisher, or booklet finisher is required to use this function.

- Top Slant/Left
- Bottom Slant/Left
- Lett 2
- Top 2
- Top
- Bottom
- Saddle Stitch
- Off

❖ Select Punch Type

Specify which punch type (2 holes or 3 holes) has priority to be shown on the initial display.

The optional 500-sheet finisher, 1000-sheet finisher, or booklet finisher is required to use this function.

- 2 Holes Left
- 2 Holes top
- 3 Holes left
- 3 Holes Top
- 4 Holes Left
- 4 Holes Top
- Off

❖ **Simplified Screen: Finishing Types**

You can select which key is displayed with higher priority for “Finishing Types” on the Simplified Screen.

- Stack
- Staple: Top
- Staple: Slant
- Staple: Bottom
- Staple: Left 2
- 2 Holes Left
- 3 Holes Left
- 4 Holes Left
- Do not Display

Adjust Color Image

This section describes the user tools in the Adjust Color Image menu under Copier / Document Server Features.

❖ ADS Background (Full Color)

“The background density is adjusted to skip the texture and copy. You can adjust the background density up to 5 levels when in Full Color.

Center of the 5 level adjustment is set by default.

❖ Color Sensitivity

You can adjust the color specified to convert in “Color Convert” and the color specified for “Erase Color”, in 5 levels.

Center of the 5 level adjustment is set by default.

When the color width has been set to “Wider”, and the color to be deleted, for example is red, all the colors that are close to magenta and orange are deleted. If it's set to “Narrower” the color red will be deleted.

❖ A.C.S. Sensitivity

This 5-step setting determines the level of the standard used for discriminating between black & white originals and full color originals when “Auto Color Select” is selected.

Center of the 5 level adjustment is set by default.

❖ A.C.S. Priority

This setting determines the copy priority between “Black & White” and “Full Color” when “Auto Color Select” is selected.

- **Full Color**
- Black & White

Settings for the Document Server

For details, see “System Settings”, and “Copier / Document Server Features”.

❖ Copier / Document Server Features

Heading	items	Default
General Features	Document Server Storage key	2 Sided original: Top to Top
General Features	Document Server Storage key	1 Sided → 1 Sided Combine: 2 originals
General Features	Document Server Storage key	1 Sided → 1 Sided Combine: 4 originals
General Features	Document Server Storage key	1 Sided → 1 Sided Combine: 8 originals
General Features	Document Server Storage key	Create Margin
General Features	Document Server Storage key	Off

❖ System Settings

Heading	Item	Default
General Features	Warm Up Notice	On
General Features	Copy Count Display	Up
General Features	Output: Document Server	Internal Tray 1
Tray Paper Settings	Paper Tray Priority: Copier	Tray 1
Tray Paper Settings	Cover Sheet Tray	Off
Tray Paper Settings	Slip Sheet Tray	Off
Timer Settings	Copier/Document Server Auto Reset Timer	60 second(s)
Administrator Tools	Auto Delete File in Document Server	3 daay(s)
Administrator Tools	Delete All Files in Document Server	-

4. Facsimile Features

This chapter describes user tools in the Facsimile Features menu.

General Features

This section describes the user tools in the General Features menu under Facsimile Features.

❖ Quick Operation Key (1-3)

Frequently used functions programmed as Quick Operation keys are shown on the menu immediately after the power is turned on.

If **[On]** is selected, the Quick Operation keys can be programmed with the following items:

- On
 - Manual E-mail RX
 - PIN Code TX
 - Send Later
 - Subject
 - Text
 - Receipt. Notice
 - Std. Message
 - Fax Header Print
 - Label Insertion
 - Closed Network
 - E-mail TX Results
 - Print Memory Lock
 - Stamp
 - TX File Status
 - RX File Status
 - Journal
 - Print Stored RX File
 - TX Status Report
 - Forwarding
 - Switch RX Mode
 - SUB Code TX
 - SEP Code Reception
 - BCC Transmission
- Off

Up to three functions can be programmed to a Quick Operation keys. Functions that appear dimmed have already been set.

❖ **Switch Title of Quick Dial Table**

Select the title to be shown on the destination list.

- Title 1
- Title 2
- Title 3

❖ **Search Destination**

Select a destination list to be used in “Search Destination”. You can select from Address Book, or registered LDAP Server.

❖ **Communication Page Count**

Checks the transmission and reception, and totals on the display.

- Transmissions:
Total number of transmitted pages
 - Receptions:
Total number of received pages
- ① Press [**Facsimile Features**].
 - ② Press [**General Features**].
 - ③ Press [**Communication Page Count**].
 - ④ After checking the display, press [**Exit**].
 - ⑤ Press the [**User Tools/Counter**] key.

❖ **Adjust Sound Volume**

Adjust the sound volume during On Hook Mode and Immediate Transmission.

- On Hook Mode
- At Transmission
- At Reception
- At Dialing
- At Printing

❖ **Box Setting**

The following functions are for delivery and transfer of documents:

- Personal Box
- Information Box
- Transfer Box

For details about Box Setting, see “Box Settings”

❖ **Box Setting: Print List**

You can print a list of the Personal Boxes, Information Boxes, and Transfer Boxes currently programmed.

❖ On Hook Mode Release Time

Use this function to specify a time to cancel On Hook mode after you transmit using On Hook dialing.

- 1 minute
- 3 minutes
- 5 minutes
- 10 minutes

Scan Settings

This section describes the user tools in the Scan Settings menu under Facsimile Features.

❖ **Program / Change / Delete Scan Size**

You can program, change, or cancel frequently used scan sizes.

For details about programming Scan Size, see “Program / Change / Delete Scan Size”.

Reference

p.139 “Program / Change / Delete Scan Size”

Send Settings

This section describes the user tools in the Send Settings menu under Facsimile Features.

❖ Max. E-mail Size

Specify to limit the size of e-mail messages that are transmitted, if receivers limit e-mail size, or you cannot send large size e-mail for some reason. When this function is set to on, transmission of e-mail that exceeds the set size is aborted.

- On
- Off

When e-mail exceeds the maximum file size, an Error Report is output, and the e-mail is deleted.

Even when e-mail does not exceed the size limit, it may be rejected if it does not meet the requirements of the server settings.

- ① Press **[Facsimile Features]**.
- ② Press **[Send Settings]**.
- ③ Press **[Max. E-mail Size]**.
- ④ Press **[On]**.

- ⑤ Enter the maximum e-mail size using the number keys.

Maximum e-mail size can be between 128 and 102,400 KB.

If you make a mistake, press **[Clear]** or the **[Clear/Stop]** key, and then enter again.

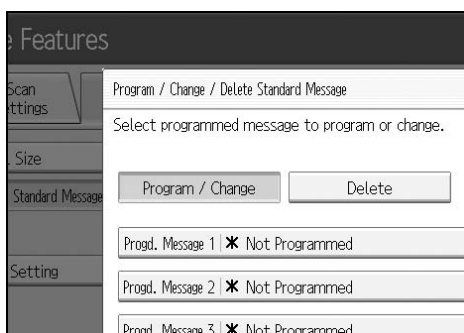

- ⑥ Press **[OK]**.

❖ Program / Change / Delete Standard Message

Program standard messages to be printed at the top of the first page of the original of the opposite party. It is useful for personalizing messages such as sending greetings.

You can program three standard messages. You cannot change the “Confidential”, “Urgent”, “Please phone.”, or “Copy to corres. section” messages. The procedure is the same for both programming and changing.

- ① Press **[Facsimile Features]**.
- ② Press **[Send Settings]**.
- ③ Press **[Program / Change / Delete Standard Message]**.
- ④ Check that **[Program/Change]** is selected.
To delete the registered message, press **[Delete]**.

- ⑤ Select the message you want to program or change.
To delete the registered message, select the message you want to delete, and then press **[Yes]**.
- ⑥ Enter a new message.
For details about entering text, see “Entering Text”, About This Machine.
- ⑦ Press **[OK]**.
To cancel a registration, press **[Cancel]**.
- ⑧ Press **[Exit]**.
- ⑨ Press the **[User Tools/Counter]** key.

❖ Backup File TX Setting

You can specify whether or not to send to a selected folder the backup of a file sent by Memory Transmission.

By setting **[Backup File TX Setting]** to **[On]** and selecting the destination folder, you can automatically send to the selected folder the backup of a file sent by Memory Transmission using the machine's control panel, Web Image Monitor, DeskTopBinder, or LAN-Fax.

Select the destination folder for the backup file from the address book.

- On
- Off

If you set **[Backup File TX Setting]** to **[On]** but the Backup File TX fails, the machine automatically prints a backup file TX communication failure report. For details about the communication failure report, see "Communication failure report", Facsimile Reference.

Using the parameter settings (switch 04, bit 1), specify whether or not to print a communication failure report.

The backup file format will be the same as that specified for files sent by Scan to Folder. Using the parameter settings (switch: 21, bit: 3), select TIFF or PDF as the format for sending a file. The format is factory-preset to TIFF. Using the parameter settings, you can specify the redial interval (switch 35, bits 0-7) and the maximum number of redials (switch 36, bits 0-7). The redial interval is factory-preset to 15 minutes; the maximum number of redials, to 192.

Using the parameter settings, (switch 37, bit 0) you can specify whether to stop sending a backup file if the destination folder becomes full while the machine is sending or waiting to send a fax or the backup file.

- ① Press **[Facsimile Features]**.
- ② Press **[Send Settings]**.
- ③ Press **[Backup File TX Setting]**.
- ④ Press **[On]**.
If there is a folder already programmed, a folder name is shown. If you want to change the folder, press **[Folder]** and proceed to step ⑤.
- ⑤ Specify a folder for back up, and then press **[OK]**.
The folder name is shown to the right of **[Folder]**.
- ⑥ Press **[OK]**.
- ⑦ Press the **[User Tools/Counter]** key.

Reference

p.149 "Parameter Settings"

Reception Settings

This section describes the user tools in the Reception Settings menu under Facsimile Features.

❖ **Switch Reception Mode**

Specify the method for receiving fax documents.

- Manual Reception
- Auto Reception

❖ **Program Special Sender**

By programming particular receivers as Special Sender in advance, you can have Special Senders treated differently.

For details about how to program Special Sender, see “Special Senders to Treat Differently”.

❖ **Program Special Sender: Print List**

You can print the Special Sender List.

- ① Press **[Facsimile Features]**.
- ② Press **[Reception Settings]**.
- ③ Press **[Program Special Sender: Print List]**.
- ④ Press the **[Start]** key.
To cancel printing a list before pressing the **[Start]** key, press **[Cancel]** or the **[Clear/Stop]** key.
- ⑤ Press the **[User Tools/Counter]** key.

❖ **Forwarding**

Specify whether or not received fax documents are to be forwarded to a programmed receiver.

- On
- Off

❖ **Reception File Setting**

Selects whether received documents are saved on the hard disk to be printed later or printed immediately without being saved.

For details about Reception File Setting, see “Reception File Setting”.

❖ **Stored Reception File User Setting**

The administrator can be specified for managing documents stored on the machine after fax documents are received. To specify the administrator, enter the administrator user code for managing documents using Web Image Monitor or DeskTopBinder.

You must register the administrator's User Code to the destination list in advance.

This function is only available when **[Store]** is selected in "Reception File Setting".

It is recommended that you use a Web Image Monitor operating under the same network environment as this machine. Otherwise, the Web browser may not open and an error may occur.

- ① Press **[Facsimile Features]**.
- ② Press **[Reception Settings]**.
- ③ Press **[Stored Reception File User Setting]**.
- ④ If you want to use a user code, press **[On]**.
- ⑤ Press the Destination key of the user you wish to specify, and then press **[OK]**.
- ⑥ Check the selected user, and then press **[OK]**.

When a programmed user is deleted from the destination list, message "Deleted from Address Book" is displayed. Enter the user again.

- ⑦ Press the **[User Tools/Counter]** key.

If the programmed user code was deleted using the Address Book Management function under System Settings, you cannot view received and saved documents using a Web Image Monitor. Select **[Off]** in step ④ or reprogram the user code.

❖ **SMTP Reception File Delivery Settings**

This function is available on systems that allow routing of e-mail received via SMTP.

- On
- Off

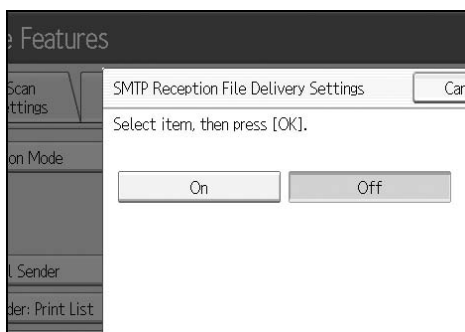

When an authorized e-mail address is set, e-mail received from addresses that do not match the authorized address is discarded, and an error message is returned to the SMTP server.

The authorized e-mail address is compared with the addresses of email originators, as illustrated by the following examples.

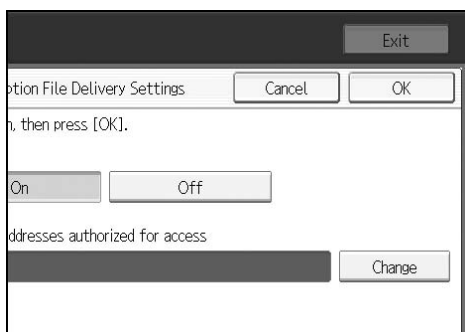

- When the authorized e-mail address is set to "@aaa.abcd.com":
 - abc@aaa.abcd.com - accepted
 - def@aaa.xyz.com - not accepted
 - abc@abcd.com - not accepted

No Error Report is output even when e-mail is discarded.

① Press **[On]**.

② Press **[Change]**, and then enter the sending e-mail address to be authorized.

If you make a mistake, press **[Backspace]** or **[Clear]**, and then enter again.

③ Press **[OK]** twice.

❖ **2 Sided Print**

Specify whether or not received fax documents are to be printed on both sides of the paper.

- On
- Off

❖ **Checkered Mark**

Specify whether or not a checkered mark is to be printed on the first page of received fax documents.

- On
- Off

❖ **Center Mark**

Specify whether or not a center mark is to be printed halfway down the left side and at the top center of each page received.

- On
- Off

❖ Print Reception Time

Specify whether or not the received date, time, and file number are printed at the bottom of received fax documents.

- On
- Off

❖ Reception File Print Quantity

Specify the number of copies to be printed for each fax document received.

- 1 to 10 set(s)

❖ Paper Tray

Use this function to print fax documents received from programmed senders and fax documents from other senders, using different paper trays. Display of tray names may differ depending on the options installed.

- Tray 1
- Tray 2
- Tray 3 (option)
- Tray 4 (option)
- LCT (option)
- Auto Select

❖ Specify Tray for Lines

Specify a paper tray for each line (telephone, Internet Fax, IP-Fax).

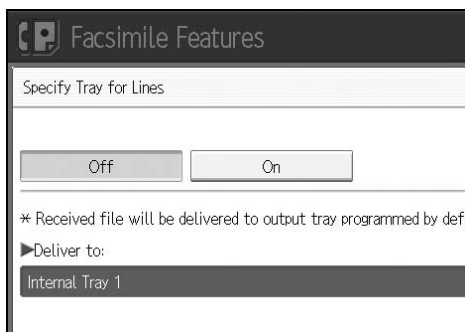

- Off
- On

① Press [**Facsimile Features**].

② Press [**Reception Settings**].

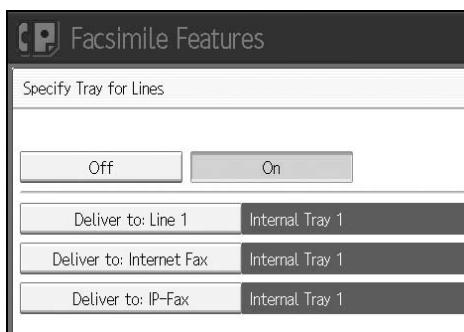

③ Press [**Specify Tray for Lines**], and then press [**▼Next**].

④ Press [**On**].

If you select [**Off**], the received fax is delivered to a default tray.

- ⑤ Select the line type.

- ⑥ Select a tray to deliver the received paper onto, and then press **[OK]**.
If you want to specify another line type, repeat from step ⑤.

4

❖ Folder Transfer Result Report

You can set whether the Folder Transfer Result Report is transmitted to the specified e-mail address, when folders are programmed as the forwarding destinations to which documents are sent from all senders or Special Senders. You must first register the destination for the Folder Transfer Result Report in the destination list. See "Registering a Fax Destination".

Specify a group destination to transfer documents to multiple destinations. A maximum of 500 parties can be specified in a group. See "Registering Names to a Group".

Even if the Folder Transfer Result Report is not successfully transmitted, the report is not printed on this machine.

- E-mail
- Do not E-mail

- ① Press **[Facsimile Features]**.
- ② Press **[Reception Settings]**.
- ③ Press **[▼Next]**.
- ④ Press **[Folder Transfer Result Report]**.
- ⑤ To send the Folder Transfer Result Report, press **[E-mail]**.
To not send the Folder Transfer Result Report, press **[Do not E-mail]**, and then press **[OK]**.
- ⑥ Press **[Notify Destination]**.
- ⑦ Press the Destination key of the email address for notification, and then press **[OK]**.
- ⑧ Check the selected destination, and then press **[OK]**.
- ⑨ Press the **[User Tools/Counter]** key.

❖ Memory Lock Reception

When you switch Memory Lock on, received documents are stored in memory and not printed automatically. When a document is received in the Memory Lock mode, the Confidential File indicator blinks. To print this document, enter the Memory Lock ID. A user without the ID cannot print the document. This prevents unauthorized users from accessing the document. To use Memory Lock, program the Memory Lock ID, and then switch Memory Lock on. To store incoming documents from Special Senders only in Memory Lock, program each sender with "Special Senders to Treat Differently".

This function is not available with Internet Fax.

- ① Press [**Facsimile Features**].
- ② Press [**Reception Settings**], and then press [**▼Next**].
- ③ Press [**▼Next**].
- ④ Press [**Memory Lock Reception**].
- ⑤ Select [**On**] or [**Off**], and then press [**OK**].
- ⑥ Press the [**User Tools/Counter**] key.

Initial Settings

This section describes the user tools in the Initial Settings menu under Facsimile Features.

❖ Parameter Setting

User Parameters allow you to customize various settings to suit your needs. For details about Parameter Setting, see “Parameter Settings”.

❖ Parameter Setting: Print List

You can print Parameter Setting list.

Print this list to see the current User Parameter settings. However, not all the parameter settings are printed.

① Press **[Facsimile Features]**.

② Press **[Initial Settings]**.

③ Press **[Parameter Setting: Print List]**.

④ Press the **[Start]** key.

To cancel printing a list before pressing the **[Start]** key, press **[Cancel]** or the **[Clear/Stop]** key.

⑤ Press the **[User Tools/Counter]** key.

❖ Program Closed Network Code

Register an ID required for Closed Network communication.

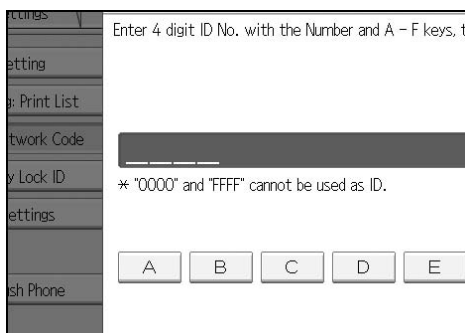

① Press **[Facsimile Features]**.

② Press **[Initial Settings]**.

③ Press **[Program Closed Network Code]**.

④ Enter an ID using the number keys and **[A]** to **[F]**, and then press **[OK]**.

Register a four-digit number using 0 through 9 and A through F (except for 0000 and FFFF).

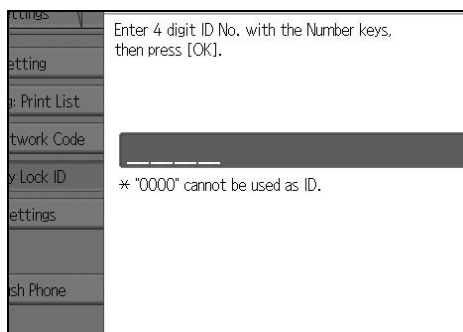

⑤ Press the **[User Tools/Counter]** key.

❖ Program Memory Lock ID

Program a Memory Lock ID to be entered before printing documents when the Memory Lock function is activated.

- ① Press **[Facsimile Features]**.
- ② Press **[Initial Settings]**.
- ③ Press **[Program Memory Lock ID]**.
- ④ Enter an ID using the number keys, and then press **[OK]**.
A Memory Lock ID can be any four-digit number, except 0000.

If you make a mistake, press **[Clear]** or the **[Clear/Stop]** key before pressing **[OK]**, and then try again.

- ⑤ Press the **[User Tools/Counter]** key.

❖ Internet Fax Settings

You can select to display the internet Fax icon or not. When you want to send an Internet Fax, set On to display the icon.

- On
- Off

❖ Select Dial / Push Phone

Use this function to select a line type when the machine is connected to a G3 analog line.

Dial and Push lines are available for selection.

If the optional extra G3 interface unit is installed, settings for the extra G3 lines appear.

This function is not available in some regions.

- ① Press **[Facsimile Features]**.
- ② Press **[Initial Settings]**.
- ③ Press **[Select Dial / Push Phone]**.
- ④ Press **[Push Button Phone]** or **[Dial Phone (10PPS)]** to select the line, and then press **[OK]**.
- ⑤ Press the **[User Tools/Counter]** key.

❖ Program Fax Information

Program information to be shown on the display of the other machine and printed as a report. The following information can be programmed.

- Fax Header
- Own Name
- Own Fax Number

For details about how to program Fax Information, see “Registering Fax Information”

❖ Enable H.323

Specify whether or not H.323 is used for IP-Fax transmission.

- On
- Off

❖ Enable SIP

Specify whether or not SIP is used for IP-Fax transmission.

- On
- Off

❖ H.323 Settings

Set the IPv4 address or host name, and alias telephone number of the gatekeeper.

If you select **[On]** using the User Parameters, you can use the gatekeeper server. See “Parameter Settings” (switch 34, bit 0).

You can use numbers, and symbols (“#” and “*”) for registration of the alias telephone number in H.323 Settings. Make sure you enter these characters correctly.

- ① Press **[Facsimile Features]**.
- ② Press **[Initial Settings]**.
- ③ Press **[H.323 Settings]**.
- ④ Press **[Change]** for each property.
- ⑤ Enter the IPv4 address or host name, and alias telephone number and press **[OK]**.
- ⑥ Press **[OK]**.

❖ SIP Settings

Set the SIP server's IPv4 address or host name, and SIP user name.

If you select **[On]** using the User Parameters, you can use the SIP server. See "Parameter Settings" (switch 34, bit 1).

You can use alphanumeric symbols (lower and upper cases) and symbols (";", "?", ":", "&", "=", "+", "\$", ",", "-", "_", ".", "!", "~", "*", "#", "(", ")", "%", "/", and "@") for registration of the SIP User Name in SIP Settings. Make sure you enter these characters correctly.

Use numbers and periods (".") to enter the correct IPv4 addresses for the gate-keeper, SIP server, and gateway. To obtain the correct IPv4 addresses, consult the administrator.

① Press **[Facsimile Features]**.

② Press **[Initial Settings]**.

③ Press **[SIP Settings]**.

④ Press **[Change]** for each property.

A proxy server relays call requests and responses.

A redirect server processes request destination inquiries.

A register server registers location information of user agents (which correspond to telephones or facsimiles on public telephone lines) on an IP network.

⑤ Enter the IPv4 address or host name, and SIP user name, and then press **[OK]**.

⑥ Specify whether to perform SIP digest authentication.

If you select **[On]**, enter the password using up to 128 characters.

⑦ Press **[OK]**.

❖ Program / Change / Delete Gateway

Register, change, or delete the gateway used for transmission to IP-Fax.

- Program/Change

① Press **[Facsimile Features]**.

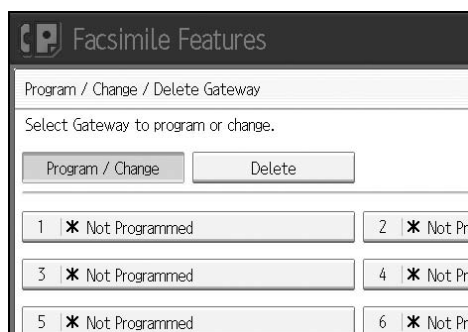

② Press **[Initial Settings]**.

③ Press **[Program / Change / Delete Gateway]**.

④ Check that **[Program/Change]** is selected.

⑤ Press a gateway to register.

When registering a new gateway, press **[Not Programmed]**.

- ⑥ Press **[Change]** for “Prefix”.
- ⑦ Enter the Prefix using the number keys, and then press **[OK]**.
To change the existing prefix, press **[Clear]**, and then enter a new prefix. For documents sent using a gateway to G3 Fax, prefixes can be used. If the first several digits of IP-Fax number and the gateway- specific prefix are identical, documents can be transmitted using the registered digits of the gateway. For example, if both 03 and 04 have been registered as gateway number while 0312345678 is also specified, documents can be transmitted via a gateway for which 03 is used as a prefix.
When you wish to use the gateways regardless of the IP-Fax destination numbers, register only the gateway addresses without registering the prefix.
- ⑧ Select a protocol.

4

The screenshot shows a menu with three items: 'Prefix' with a dark grey input field, 'Select Protocol' with a dropdown menu showing 'H.323', and 'Gateway Address' with a dark grey input field.

- ⑨ Press **[Change]** for Gateway Address.
 - ⑩ Enter the gateway address, and then press **[OK]**.
 - ⑪ Press **[OK]**.
- Delete
 - ① Press **[Facsimile Features]**.
 - ② Press **[Initial Settings]**.
 - ③ Press **[Program / Change / Delete Gateway]**.
 - ④ Press **[Delete]**, and then select a gateway to delete.
 - ⑤ Press **[Yes]** on the confirmation message.
If you do not want to delete the gateway you have selected, press **[No]**.
 - ⑥ Press **[Exit]**.
 - ⑦ Press the **[User Tools/Counter]** key.

- p.149 “Parameter Settings”
- p.159 “Memory Lock”

Reception File Setting

Specify whether received documents are to be saved on the hard disk or printed immediately without being saved. You can print stored documents repeatedly or download them as images to a computer using a Web Image Monitor or DesktopBinder. If you select printing without saving, documents are printed each time they are received.

If you have used System Settings to specify to have received faxes distributed to the delivery server, the documents cannot be saved on the hard disk.

Important

The optional printer/scanner unit is required.

1 Press [**Facsimile Features**].

2 Press [**Reception Settings**].

3 Press [**Reception File Setting**].

4 Press [**Print**] or [**Store**], and then press [**OK**].

To cancel your selection, press [**Cancel**]. The display returns to that of step **3**.

When [**Store**] is selected, you can select whether or not to send notice of reception to a specific e-mail address. To notify of reception, press [**Notify Destination**] and select an e-mail address from the Internet Fax destinations programmed in the address book. Further, you can register a group destination. In such a case, a maximum of 500 destinations can be specified in a group.

5 Press the [**User Tools/Counter**] key.

 **Note**

- You can use “Parameter Settings” (switch 10, bit 5) to select whether or not to print stored received documents. See “Parameter Settings”.
- If **[Store]** is selected and a destination for notification is specified, notification of document reception can be sent to the specified e-mail address.
- Documents saved on the hard disk are categorized as received and stored documents.
- You cannot change to a different setting if received documents have been stored on the hard disk. To change to a difference setting, print documents stored on the hard disk if necessary, and then delete them.
- Received confidential documents are stored in memory. Use the Print Confidential RX File function to print them.
- With **[Store]** selected, more memory space is used as the number of saved documents increases. After memory space becomes insufficient, no more documents are saved on the hard disk. When this happens, the machine starts printing then overwriting old documents.
- You can store received documents up to a total of approximately 320 pages or 2,240 pages of A4 size Standard <ITU-T#1Chart>.
- You cannot send received documents.
- You cannot manage stored documents from the Document Server display.
- It is recommended that you use Web Image Monitor running under the same network environment as this machine. Otherwise, the Web browser may not open and an error may occur.

p.149 “Parameter Settings”

“Printing/Deleting Received and Stored Documents (Print/Delete Stored RX File)”, Facsimile Reference

“Sending Stored Documents”, Facsimile Reference

Reception Report e-mail

When a received document is stored, this report is sent to the e-mail address set as the destination for notification.

Program / Change / Delete Scan Size

Program frequently used scan sizes.

Important

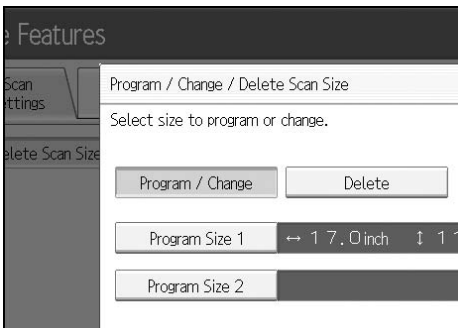

- When programming or changing a scan size, it is recommended that you make a record of the new size.

When you select a scan size to scan a custom size original, two custom sizes are available (Program Size 1 and Program Size 2). Use these functions to program a custom size in advance. The procedure is the same for programming and changing.

You can program up to two sizes.

Specify a horizontal length from 128 to 1200 mm, or from 5.5 to 47 inches.

- 1** Press **[Facsimile Features]**.
- 2** Press **[Scan Settings]**.
- 3** Press **[Program / Change / Delete Scan Size]**.
- 4** Select **[Program Size 1]** or **[Program Size 2]**.

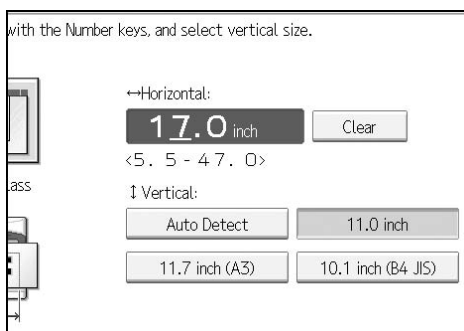

- 5** Enter a horizontal size using the number keys.

Each time you press **[mm]** or **[inch]**, the units switch between “mm” and “inch”. If you enter a length and press **[mm]** or **[inch]**, the length is converted automatically according to the unit (fractions are rounded off). For example, when you enter **[2]**, **[2]**, and **[0]** in millimeters and change to “inch”, the length “8.7 inch” is shown on the display. If you press **[mm]** or **[inch]** again, “221 mm” is displayed.

If you make a mistake, press **[Clear]** or the **[Clear/Stop]** key, and then try again.
To cancel a scan size, press **[Cancel]**.

6 Select a vertical size, and then press [OK].

The displayed vertical size differs depending on the selected unit. When [mm] is selected, [Auto Detect], [210 mm (A4)], [257 mm (B4 JIS)], [297 mm (A3)], [216 mm (8 1/2)], and [279 mm (11)] are shown. When [inch] is selected, [Auto Detect], [8.3 inch (A4)], [10.1 inch (B4 JIS)], [11.7 inch (A3)], [8.5 inch], and [11.0 inch] are shown.

To cancel a scan size, press [Cancel].

7 Press [Exit].

8 Press the [User Tools/Counter] key.

Deleting a scan size

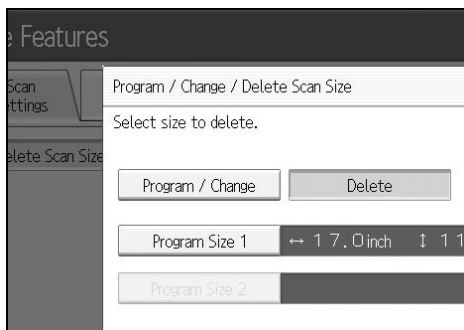

Delete programmed scan size.

1 Press [Facsimile Features].

2 Press [Scan Settings].

3 Press [Program / Change / Delete Scan Size].

4 Press [Delete], and then select [Program Size 1] or [Program Size 2].

5 Press [Yes].

To cancel deleting, press [No]. The display returns to that of step 4.

6 Press [Exit].

7 Press the [User Tools/Counter] key.

Registering Fax Information

You can send information to the other party when transmitting or receiving a fax document. This information is shown on the display of the other machine and printed as a report. The following information can be sent.

Important

- You can confirm programmed settings from the User Parameter List. It is recommended that you print and keep the User Parameter List when you program or change settings. See “Parameter List”.

❖ Fax Header

The Fax Header is printed as the header of every fax you send. You should include your name in the Fax Header.

You can program Fax Header1 or Fax Header2. When you send originals using the destination list, you can select which Fax Header is printed on the document received by the other party.

You can register “Fax Header” using up to 32 alphanumeric characters and symbols.

You can use characters, symbols, numbers, and spaces.

You can set whether or not to print a Fax Header using **[Fax Header Print]** under Options . See “Fax Header Print”, Facsimile Reference

❖ Own Name

The Own Name is sent to the other party when you send or receive a fax . This name should include your name. The Own Name is shown on the display of the other machine and printed in a report.

Own Name can be used only if the other machine is of the same manufacturer and has the Own Name function.

You can register “Own Name” using up to 20 alphanumeric characters and symbols.

❖ Own Fax Number (facsimile number of sender)

The sender's Own Fax Number is sent to the other party when sending a fax. The received facsimile number is shown on the display of the other machine and printed in a report.

This function is available regardless of the manufacturer of the other party's machine.

You can register “Own Fax Number” using up to 20 numbers, space, and “+”symbol.

Registering Fax Information

- 1** Press [Facsimile Features].
- 2** Press [Initial Settings].
- 3** Press [Program Fax Information].
- 4** Select the Fax Information you want to register or change.

Select item to program.

Fax Header	Own Name	Own Fax Number				
<table style="width: 100%; border-collapse: collapse;"> <tr> <td style="border: 1px solid gray; padding: 2px;">First Name</td> <td style="background-color: #cccccc; width: 100px;"></td> </tr> <tr> <td style="border: 1px solid gray; padding: 2px;">Second Name</td> <td style="background-color: #cccccc; width: 100px;"></td> </tr> </table>			First Name		Second Name	
First Name						
Second Name						

4

- 5** Register the name and facsimile number.
- 6** Press [Exit].

Registering a Fax Header

- 1** Check that [Fax Header] is selected.
- 2** Press [First Name] or [Second Name].

Select item to program.

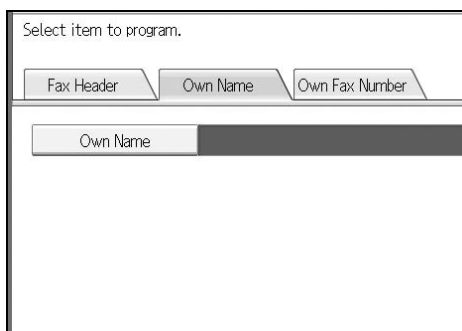

Fax Header	Own Name	Own Fax Number				
<table style="width: 100%; border-collapse: collapse;"> <tr> <td style="border: 1px solid gray; padding: 2px;">First Name</td> <td style="background-color: #cccccc; width: 100px;"></td> </tr> <tr> <td style="border: 1px solid gray; padding: 2px;">Second Name</td> <td style="background-color: #cccccc; width: 100px;"></td> </tr> </table>			First Name		Second Name	
First Name						
Second Name						

- 3** Enter a fax header, and then press [OK].

Registering an Own Name

1 Press [Own Name].

2 Press [Own Name].

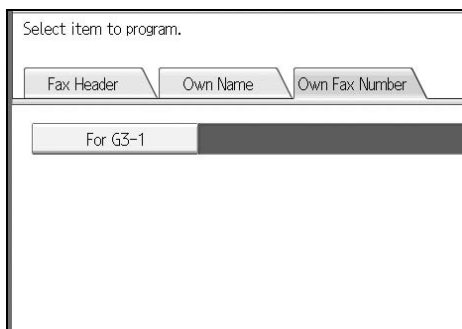

3 Enter your own facsimile's number using the number keys, and then press [OK].

Registering Fax Header

1 Press [Fax No.].

2 Select line type to program.

The display differs depending on the optional units installed on the machine.

3 Enter your own facsimile's number using the number keys, and then press [OK].

To enter a + sign or a space, press [+] or [Space].

Deleting Fax Information

- 1** Press **[Facsimile Features]**.
- 2** Press **[Initial Settings]**.
- 3** Press **[Program Fax Information]**.
- 4** Press **[Fax Header]**, **[Own Name]**, or **[Own Fax Number]** to delete.
- 5** Press the item you want to delete.
- 6** Press **[Backspace]** or **[Delete All]**, and then press **[OK]**.
When deleting your own facsimile's number, press **[Clear]** or the **[Clear/Stop]** key, and then press **[OK]**.
- 7** **[Exit]**.
- 8** Press the **[User tools/Counter]** key.

Forwarding

Print documents received and forward to a specified End Receiver. This is useful if, for example, you are visiting another office and would like a copy of your documents to be sent to that office.

You can also specify a “folder” as the forwarding destination.

Important

- To use this function, set Forwarding under Reception Settings to On (enable).
- You can select end receivers only from among destinations programmed in the Address Book. You cannot specify programmed transfer stations as end receivers.

A fax number, e-mail address, IP-Fax destination, and folder can be set as the forwarding destination.

Even when **[On]** is selected for “Forwarding” in “Reception Settings”, if **[Off]** is selected for the forwarding destination in this function, only printing is performed, not forwarding.

When you wish to change the end receivers depending on the senders, specify the end receivers by the senders, at “Program Special Sender”. Documents not received from specified senders are sent to the destination specified in this function.

Specify whether or not to print forwarded documents. See “Parameter Settings”(switch 11, bit 6).

Deleting a destination specified as a forward destination from the destination list causes the settings of the forward destination to be deleted, so they must be registered again. When a destination is changed, a document is transmitted to the new destination. If there is no destination of the specified type, you can set which destination to be used as an alternative destination. See “Parameter Settings” (switch 32, bit 0).

You can program one of the Quick Operation keys with operations for this function.

If you have specified a folder for forwarding, you can specify the file format used for forwarding. See “Parameter Settings” (switch 21, bit 3).

Programming an End Receiver

Important

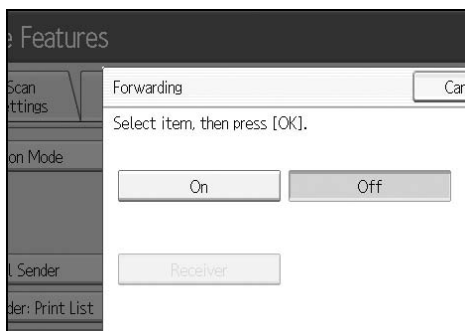

- ❑ One end receiver can be registered for each special sender. To register two or more end receivers, use group destination. However, a maximum of 500 destinations can be specified in a group.

1 Press [**Facsimile Features**].

2 Press [**Reception Settings**].

3 Press [**Forwarding**].

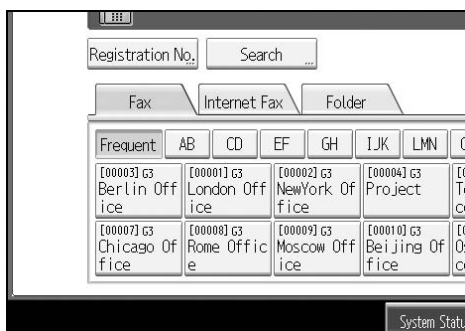

4 Press [**On**].

If there is an End Receiver already programmed, a receiver name is shown. If you want to change the receiver, press [**Receiver**] and proceed to step **5**.

To cancel Forwarding, press [**Off**] and proceed to step **6**.

5 Specify an End Receiver using the destination list, and then press [OK].

The receiver name is shown to the right of **[Receiver]**.

Press the key on the left of the display to switch the destination between fax number, email address, IP-Fax destination, and folder.

Set a folder destination in Address Book Management under Administrator Tools in the System Settings menu. See “Registering Folders”.

If you have specified a folder for forwarding, you can specify the file format used for forwarding. See “Parameter Settings” (switch 21, bit 3).

If you make a mistake, press **[Clear]** before pressing **[OK]**, and then try again.

6 Press [OK].

7 Press the **[User Tools/Counter]** key.

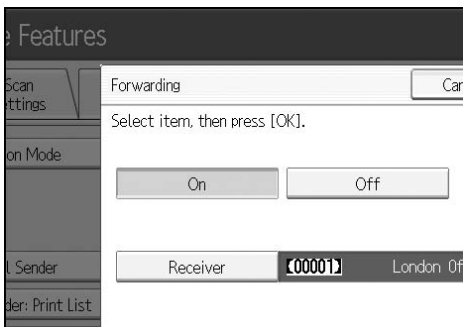

Reference

p.149 “Parameter Settings”

p.235 “Registering Folders”

Quitting the forwarding function

- 1** Press [Facsimile Features].
- 2** Press [Reception Settings].
- 3** Press [Forwarding].
- 4** Press [Off], and then press [OK].

- 5** Press the [User Tools/Counter] key.

Forwarding Mark

You can print a Forwarding Mark on receiver's documents that have been forwarded.

The receiver can distinguish between forwarded and normally received documents.

GFMTENOE

This function is not available when memory forwarding is performed to a folder destination.

Reference

p.149 "Parameter Settings"

Parameter Settings

User Parameters allow you to customize various settings to suit your needs. To change function settings, set the User Parameter Switches.

❖ Switches and Bits

Each User Parameter has a set of switches, and each of the switches consist of eight bits, whose values are "0" or "1". The right most bit is bit 0 and the left most is bit 7. You can adjust the settings to match your needs by switching the value of bits between "0" and "1".

- Switch 02

0	0	1	1	1	0	1	1
↓	↓	↓	↓	↓	↓	↓	↓
7	6	5	4	3	2	1	0

❖ User Parameter List

User Parameter Switches are outlined in the following table.

Switch	Bit	Item	0	1
02	0	Forwarding Mark	Off	On
02	3	TSI Print	Off	On
03	0	Automatic printing of the Communication Result Report	Off	On
03	2	Automatic printing of the Memory Storage Report	Off	On
03	3	Whether or not to print the SEP Code RX Reserve Report automatically.	Off	On
03	4	Whether or not to print the SEP Code RX Result Report automatically.	Off	On
03	5	Automatic printing of the Immediate TX Result Report	Off	On
03	7	Automatic printing of the Journal	Off	On
04	0	Automatic printing of the Confidential File Report	Off	On
04	1	Automatic printing of Communication Failure Report and Transfer Result Report	Off	On
04	4	Indicates the parties	Off	On
04	5	Include sender's name on reports	Off	On
04	7	Include a portion of the image on reports	Off	On
05	0	Receive Service Call (SC) Condition (Substitute Reception during service call)	Possible (Substitute RX)	Not possible (Reception off)

Switch	Bit	Item	0	1
05	2,1	Substitute the reception when the machine cannot print (because paper is jammed, all paper trays have run out of paper, toner is empty, or all paper trays are out of order)	<ul style="list-style-type: none"> • 00: Enabled unconditionally (Free) • 01: Enabled when Own Name/ Own Fax Number is received • 10: Enabled for Closed Network Code match • 11: Disabled (Reception off) 	-
05	5	Print sheet is limited to that which has highest priority.	Off	On
05	7	Empty tray alert (Paper Empty Warning) even when one paper tray is empty	Off	On

Changing the User Parameters

This section describes how to set parameters.

Important

- Access to some User Parameter Settings may require options, or other settings may need to be made beforehand.
- It is recommended that you print and keep a User Parameter list when you program or change a User Parameter.
- Do not change any bit switches other than those shown on the previous pages.

1 Press [**Facsimile Features**].

2 Press [**Initial Settings**].

3 Press [**Parameter Setting**].

4 Select the switch number you want to change.

5 Select the bit number you want to change.

When the bit number is pressed, the current value switches between 1 and 0.

Repeat from step **5** to change another bit number for the same switch.

6 Press [**OK**].

To cancel these settings, press [**Cancel**]. The display returns to that of step **4**.

7 Repeat step **4** through step **5** to change the switch settings.

8 After all the settings are finished, press [**Exit**].

9 Press the [**User Tools/Counter**] key.

Special Senders to Treat Differently

By programming particular senders in advance, you can set the following function for each sender:

- Authorized RX
- Forwarding
- Reception File Print Qty
- Print 2 Sided
- Memory Lock
- Paper Tray

4

Use Own Name or Own Fax Number to program your senders. If the sender has a machine of the same manufacturer, program an Own Name that has already been programmed as a sender. If the machine is not from the same manufacturer, Own Fax Number is used.

You can apply the same settings to all programmed numbers. You can then customize the settings for individual numbers as necessary using the Special Sender Registration function.

The following items can be programmed.

- Special Senders (Up to 30. A maximum of 20 characters for each name when using G3.)
- Full/Partial agreement
When you program own names and facsimile names for multiple destinations, you can program a common sequence of characters to identify destinations.

Destination to be programmed (Own Name)	Number of programmed identifications
NEW YORK BRANCH HONG KONG BRANCH SYDNEY BRANCH	3

Using Partial matching

Destination to be programmed (Own Name)	Number of programmed identifications
BRANCH	1

You can program up to 30 wild cards. Spaces are ignored when identifications are compared. You can use wild cards for the following functions:

- Forwarding
- Special Senders
- Authorized RX (Authorized Reception)

When using Partial agreement, you can enter up to the first 24 characters of an e-mail address to use it as an own name or facsimile name.

 **Note**

- You cannot program senders as Special Senders if they do not have Own Name or Own Fax Number programmed.
- The machine cannot differentiate between Polling Reception and Free Polling documents from Special Senders.
- You cannot use the following functions with Internet Fax receptions.
 - Authorized RX
 - Reception File Print Qty
 - Memory Lock
- You can program up to 24 characters for the sender.
- To use Forwarding, Print 2 Sided, or Paper Tray with Internet Fax reception, program the sender's email address.
- You can check Own Name and Own Fax Number using the Journal. You can check programmed Special Senders using the specified sender list.
- If you select "Off" for the Special Sender function in "Initial Set Up", the settings will be the same as the Reception Settings.

Authorized Reception

Use this function to limit incoming senders. The machine only receives faxes from programmed Special Senders, and therefore, it helps you screen out unwanted documents, such as junk mail, and saves wasting fax paper.

 **Note**

- To use this function, program the Special Senders function, and then select "On" in "Authorized RX" with "Reception Settings". See "Parameter Settings" (switch 08, bit 2).
- Without programming Special Senders, the Authorized RX function will not work, even if you select "On".
- If you select "Off" for "Authorized RX" in "Initial Set Up", settings are the same as the Reception Settings.
- You can change Special Senders in the same way as you program them.

 **Reference**

p.149 "Parameter Settings"

Facsimile Reference "Reception Settings"

Reception File Print Quantity

Print the specified number of copies of documents received from programmed senders (Special Senders). If you do not program any Special Senders, the machine prints the specified number of copies for all received documents

Note

- You cannot use multi-copy printing with Memory Lock.
- Specify up to 10 copies.

Forwarding

Print received documents, and then transfer them to those receivers programmed beforehand.

Folder destination can be registered.

It is also possible to forward faxes sent only by senders programmed as Special Senders.

Note

- To use this function, program your Special Senders, and then select “On” for “Forwarding” in “Reception Settings”.
- If you specify “On” in “Forwarding” and select [**Same as Basic Settings**], the fax document is forwarded to the receivers programmed in “Specify End Receiver.”.
- If you do not program any Special Senders, the machine transfers all incoming documents to the other end receivers specified in “Specify End Receiver.”.
- You can set the fax destination, Internet fax destination, IP-Fax destination or folder destination, as a forward destination.
- Set folder destinations using the Address Book Management function under System Settings. See “Registering Folders”.

Reference

p.145 “Forwarding”

p.149 “Parameter Settings”

“Reception Settings”, Facsimile Reference

Print 2 Sided

Print on both sides of the paper.

Note

- If you select the bypass tray for “Paper Tray”, duplex printing is disabled.

Memory Lock

Store incoming documents from programmed senders (Special Senders) in memory without printing them. People without the Memory Lock ID cannot print the documents, and therefore this function is useful for receiving confidential documents. If you do not program any senders, the machine receives fax document from all senders using Memory Lock reception.

Important

- You must register Memory Lock ID in advance.
- If you program the same sender in Memory Lock and Forwarding, Forwarding is disabled.

Reference

p.133 "Program Memory Lock ID"

Paper Tray

Print documents received from programmed senders (Special Senders) and the documents from other senders on different types of paper.

For example, if blue paper is in Tray 1 and white paper is in Tray 2, the machine prints the documents from Special Senders on the blue paper and prints the documents from other senders on the white paper, making it easy for you to separate the two.

If you do not program any Special Senders, the machine outputs documents received from all senders using the default paper tray.

Note

- If the machine receives a document that has a different size from the paper in the specified tray, the machine prints it after splitting it or minimizing its size.
- Selection of the bypass tray enables you to specify the paper size in "Scan Area".

Programming/Changing Special Senders

Program and change Special Senders.

- 1** Press [Facsimile Features].
- 2** Press [Reception Settings].
- 3** Press [Program Special Sender].
- 4** Check [Program/Change] is selected.

5 Select the destination to program or change.

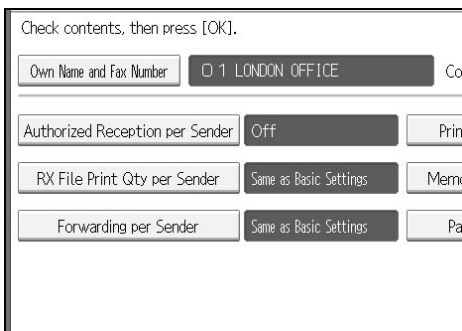

6 Enter a destination name, and then press [OK].

Enter a destination name using Own Name or Own Fax Number.

7 Press [Full Agreement] or [Partial Agreement].

8 Select the item you want to program.

You must select only the item you want to program.

To cancel these settings, press [Cancel]. The display returns to that of step 5.

9 Press [OK].

A Special Sender is programmed.

To program another sender, repeat the procedure from step 5.

10 Press [Exit].

11 Press the [User Tools/Counter] key.

Reference

- p.156 “Full/Partial agreement”
- p.161 “Authorized RX (Authorized Reception)”
- p.162 “Forwarding”
- p.161 “Reception File Print Qty”
- p.163 “Print 2 Sided”
- p.163 “Memory Lock”
- p.163 “Paper Tray”

Authorized RX (Authorized Reception)

Specify when programming a Special Sender.

- 1** Press [Authorized Reception per Sender].
- 2** Press [On] or [Off], and then press [OK].

Reception File Print Qty

Specify when programming a Special Sender.

- 1** Press [Reception File Print Quantity per Sender].
- 2** Press [Number of Sets].

- 3** Enter the print quantity using the number keys, and then press [OK].

Note

- Selecting **[Same as Basic Settings]** will result in the same setting made for “RX File Print Qty” of “Reception Settings”.
- If you make a mistake, press **[Clear]** or the **[Clear/Stop]** key before pressing **[OK]**, and then try again.

Forwarding

Specify when programming a Special Sender.

Important

- One forward destination can be registered for each Special Sender. To register two or more forward destinations, use group destinations. However a maximum of 500 destinations can be specified in a group.

1 Press **[Forwarding per Sender]**.

2 Select **[On]** or **[Off]**.

If you select **[Off]**, proceed to step **4**.

3 Press the **Destination** key of a forward destination, and then press **[OK]**.

4 Press **[OK]**.

Note

- Selecting **[Same as Basic Settings]** will result in the same setting made for “Forwarding” under “Administrator Tools”.
- Press the key on the left of the display to switch the destination between fax number, e-mail address, IP-Fax destination, and folder.
- When a folder is specified as the forward destination, you can set a file format for forwarding. See “Parameter Settings” (switch 21, bit 3).

- Deleting a destination specified as a forward destination from the destination list causes the settings of the forward destination to be deleted, so they must be registered again. When a destination is changed, a document is transmitted to the new destination. If there is no destination of the specified type, you can set which destination to be used as an alternative destination. See “Parameter Settings” (switch 32, bit 0).
- After you perform step 1, set “Forwarding” of “Reception Settings” to “On”.

Reference

p.149 “Parameter Settings”

p.235 “Registering Folders”

Print 2 Sided

4

Specify when programming a Special Sender.

- 1** Press [2 Sided Print per Sender].
- 2** Press [On] or [Off], and then press [OK].

Note

- Selecting [Same as Basic Settings] will result in the same setting made for “2 Sided Print” of “Reception Settings”.

Memory Lock

Specify when programming a Special Sender.

- 1** Press [Memory Lock Reception per Sender].
- 2** Press [On] or [Off], and then press [OK].

Note

- Selecting [Same as Basic Settings] will result in the same setting made for “Program Memory Lock ID” under “Administrator Tools”.

Paper Tray

Specify when programming a Special Sender.

- 1** Press [Paper Tray per Sender].
- 2** Select the tray you want to use, and then press [OK].

Note

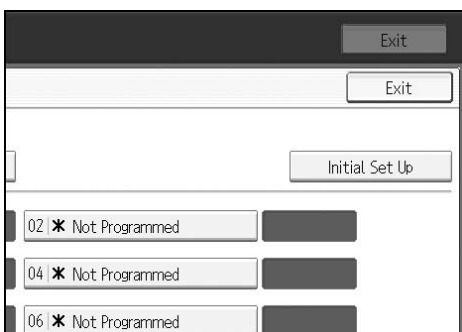

- Selecting [Same as Basic Settings] will result in the same setting made for “Paper Tray” of “Reception Settings”.

Programming Initial Set Up of a Special Sender

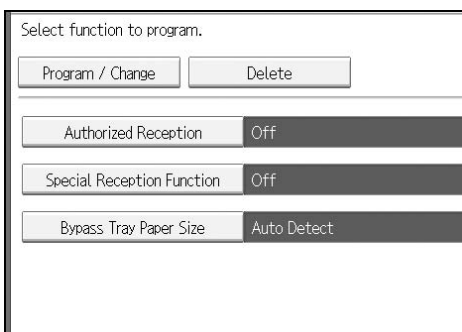

Program the “Initial Set Up” of a Special Sender. You can also specify the Bypass Tray Paper Size.

- 1** Press [Facsimile Features].
- 2** Press [Reception Settings].
- 3** Press [Program Special Sender].
- 4** Press [Initial Set Up].

4

- 5** Select the function you want to program.

In this feature, “Authorized RX” has the same settings as “Reception Settings”.

- 6** To programming Authorized RX and Special RX Function, press [Authorized Reception] or [Special Reception Function].

7 Press **[On]** or **[Off]**, and then press **[OK]**.

The illustration shows the “Authorized RX” display as an example.

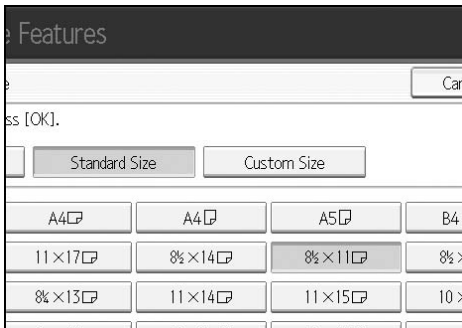

**8** To programming Bypass Tray Paper Size, press **[Bypass Tray Paper Size]**.

You can select a size from **[Auto Detect]**, **[Standard Size]**, or **[Custom Size]**.

If you select **[Auto Detect]**, proceed to steps **9** and **14**.

If you select **[Standard Size]**, proceed to steps **9**, **10** and **14**.

If you select **[Custom Size]**, proceed to steps **9** and **11** to **14**.

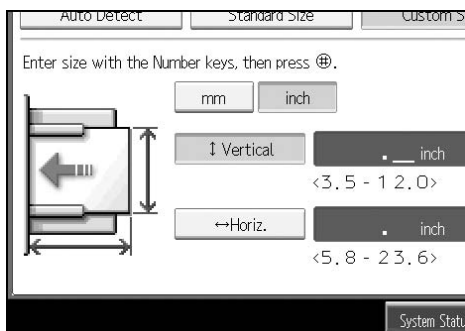

9 Select the size you want to program.

If you select **[Standard Size]**, select a paper size displayed, and then proceed to step **10**.

If you select **[Custom Size]**, proceed to step **11**.

10 Select the size you want to program from the sizes shown.**11** Make sure that **[Vertical]** is selected.

- 12** Enter the vertical size of the paper using the number keys, and then press the [#] key.

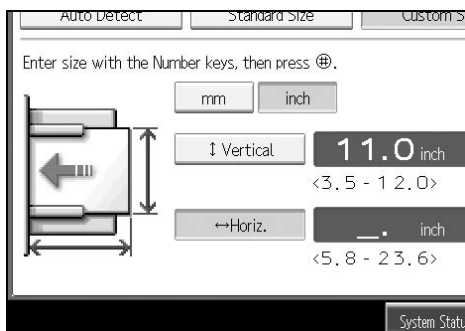

4

Specify a vertical size from 210 mm (8.3") to 297 mm (11.6"). You cannot enter a size smaller than 210 mm or larger than 297 mm.

Each time you press [mm] or [inch], the units switch between "mm" and "inch". If you enter a length and change the units by pressing [mm] or [inch], it is converted automatically (fractions are rounded off).

- 13** Enter the horizontal size of the paper using the number keys, and then press the [#] key.

Specify a horizontal size from 148 mm (5.9") to 600 mm (23.7"). You cannot enter a size smaller than 148 mm or larger than 600 mm.

Each time you press [mm] or [inch], the units switch between "mm" and "inch". If you enter a length and change the units by pressing [mm] or [inch], it is converted automatically (fractions are rounded off).

- 14** Press [OK].
- 15** Press [Exit].
- 16** Press the [User Tools/Counter] key.

Note

- If you select [Auto Detect], the machine recognizes the paper size automatically.

Reference

"Reception Settings", Facsimile Reference

Deleting a Special Sender

Use this function to delete “Initial Set Up” of a Special Sender. The Bypass Tray Paper Size can also be deleted.

1 Press [**Facsimile Features**].

2 Press [**Reception Settings**].

3 Press [**Program Special Sender**].

4 Press [**Delete**], and then select the Special Sender you want to delete.

5 Press [**Yes**].

To cancel deleting a special sender, press [**No**]. The display returns to that of step **4**.

6 Press [**Exit**].

7 Press the [**User Tools/Counter**] key.

Box Settings

The following functions are for delivery and transfer of documents:

- Personal Box
- Information Box
- Transfer Box

❖ SUB Code and SEP Code

SUB Code and SEP Code are IDs consisting of up to 20 digits, and can include numbers, #, *, and spaces.

To use this function, you must program a box and SUB/SEP Code beforehand. The other party can send documents to, and retrieve stored documents from, this box using the code.

Note

- The combined total of items that can be stored using the Personal Box, Information Box, and Transfer Box functions is 150.
- You cannot set the same Box code on two different boxes.
- Transmission or programming may not be allowed if there is not enough free memory left. The amount of free memory left differs depending on the optional equipment installed.

Programming/Changing Personal Boxes

This section describes how to program Personal Boxes.

You can program the following items:

- Box name (required)
Up to 20 characters long
- SUB Code (required)
Up to 20 characters long and can be composed of digits 0-9, "#", "*", and spaces (the first character cannot be a space).
- Password (optional)
Up to 20 characters long and can be composed of digits 0-9, "#", "*", and spaces (the first character cannot be a space).
When programming a password, a mark is displayed before the Box name.
- Receiver (optional)
You can program one delivery destination for each Personal Box. Specify a delivery destination programmed in Destination key.

1 Press [Facsimile Features].

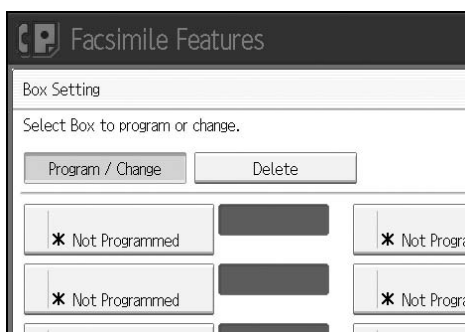

2 Press [General Features].

3 Press [Box Setting].

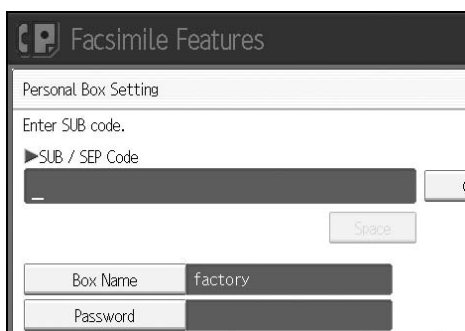

4 Check that [Program/Change] is selected.

5 Select a box to program.

When programming a new box, press **[*Not Programmed]**.

To change a box already programmed, press it and proceed to step **6**.

6 Press **[Personal Box]**.**7** Enter a box name, and then press **[OK]**.**8** Enter a SUB Code.

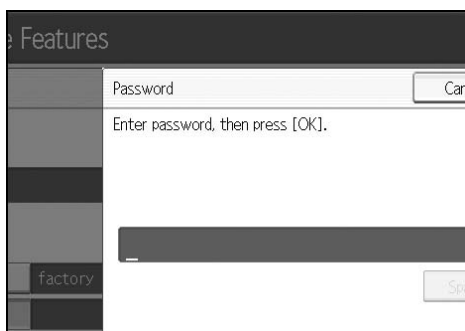

To change the SUB Code, press **[Clear]** or the **[Clear/Stop]** key, and then try again. To change a Box name, press **[Box Name]**, and then repeat from step **7**.

9 Specify the settings you require.

If you do not want to program a password or receiver, proceed to step **10**.

10 Press **[Password]**.

- 11 Enter a password, and then press [OK].

If you make a mistake, press [Clear] or the [Clear/Stop] key before pressing [OK], and then try again.

- 12 Re-enter the password, and then press [OK].

If you make a mistake, press [Clear] or the [Clear/Stop] key before pressing [OK], and then try again.

To change the password after pressing [OK], press [Change] and repeat steps 11 and 12, or press [Cancel] and repeat from step 10.

- 13 Press [OK].

- 14 Press [Receiver].

- 15 Select a destination using the destination list, and then press [OK].

Press the key on the left of the display to switch the destination between fax number, email address, IP-Fax destination, and folder.

- 16 Press [OK].

- 17 Press [Exit].

- 18 Press the [User Tools/Counter] key.

Note

- When programming a password, a mark is displayed before the Box name.
- Specify a fax number, Internet Fax destination and IP-Fax destination as the transmission destination.
- The Fax Header is not printed on delivered documents.
- If a document cannot be delivered, a Communication Failure Report is printed and the document is saved as a Confidential Reception document.
- You can edit boxes in the same way you program them. However, boxes that are being used cannot be edited.
- If a destination in the destination table is deleted after being registered, delivery is not performed and the settings of the delivery destination are also deleted. Also, when a delivery destination is changed, a document is sent to the changed destination. If there is no destination of the specified type, you can set which destination to be used as an alternative destination. See "Parameter Settings" (switch 32, bit 0).

Deleting Personal Boxes

This section describes how to delete Personal Boxes.

Important

- If there are documents in the box, you cannot delete the box.

1 Press [Facsimile Features].

2 Press [General Features].

3 Press [Box Setting].

4 Press [Delete], and then select the box you want to delete.

Select Box to delete.		
Program / Change	Delete	
123456789 factory	Confidentl.	* Not Prog.
* Not Programmed		* Not Prog.
* Not Programmed		* Not Prog.
* Not Programmed		* Not Prog.

- 5** If the password is programmed, enter a password using the number keys, and then press [OK].

If you make a mistake, press [Clear] or the [Clear/Stop] key, and then try again.

- 6** Press [Yes].

To cancel deleting a box, press [No]. The display returns to that of step 4.

- 7** Press [Exit].

- 8** Press the [User Tools/Counter] key.

Programming/Changing Information Boxes

This section describes how to set up an Information Box.

You can store the following items:

- Box name (required)
Up to 20 characters long
- SEP Code (required)
Up to 20 characters long and can be composed of digits 0-9, "#", "*", and spaces (the first character cannot be a space).
- Password (optional)
Up to 20 characters long and can be composed of digits 0-9, "#", "*", and spaces (the first character cannot be a space).
When programming a password, a mark is displayed before the Box name.

- 1** Press [Facsimile Features].

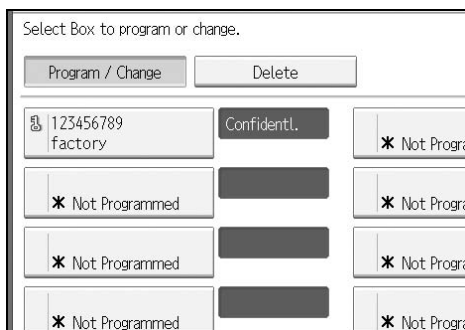

- 2** Press [General Features].

- 3** Press [Box Setting].

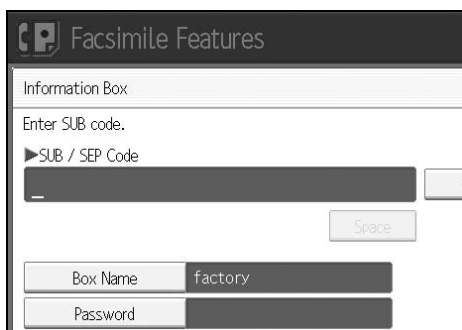

- 4** Check that [Program/Change] is selected.

5 Select the box to program.

When programming a new box, press **[*Not Programmed]**.

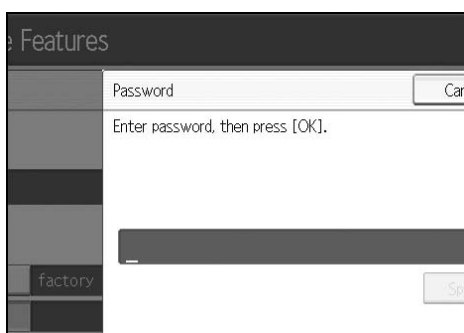

To change a box already programmed, press it, and then proceed to step **3**. If a password is programmed, enter the password, press **[OK]**, and then proceed to step **3**.

6 Press **[Information Box]**.**7** Enter a box name, and then press **[OK]**.**8** Enter the SEP Code.

To change the SEP Code, press **[Clear]** or the **[Clear/Stop]** key, and then try again. To change the box name, press **[Box Name]**, and then repeat the procedure from step **7**.

9 Press **[Password]**.

If you do not want to program a password, proceed to step **10**.

10 Enter a password, and then press [OK].

If you make a mistake, press [Clear] or the [Clear/Stop] key before pressing [OK], and then try again.

4

11 Re-enter the password, and then press [OK].

If you make a mistake, press [Clear] or the [Clear/Stop] key before pressing [OK], and then try again.

12 Press [OK].**13** Press [Exit].**14** Press the [User Tools/Counter] key.**Note**

- You can edit boxes in the same way you program them. However, boxes that are being used cannot be edited.
- If a destination in the destination list is deleted after being registered, delivery is not performed and the settings of the delivery destination are also deleted. Also, when a delivery destination is changed, a document is sent to the changed destination. If there is no destination of the specified type, you can set which destination to be used as an alternative destination. See "Parameter Settings" (switch 32, bit 0).

Deleting Information Boxes

This section describes how to delete Information Boxes.

Important

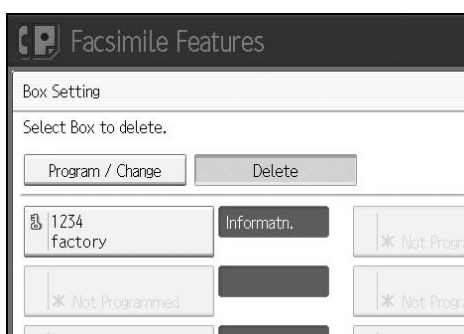

If there are documents in the box, you cannot delete the box.

1 Press [**Facsimile Features**].

2 Press [**General Features**].

3 Press [**Box Setting**].

4 Press [**Delete**], and then select the box you want to delete.

5 If the password is programmed, enter a password using the number keys, and then press [**OK**].

If you make a mistake, press [**Clear**] or the [**Clear/Stop**] key, and then try again.

6 Press [**Yes**].

To cancel deleting a box, press [**No**]. The display returns to that of step **4**.

7 Press [**Exit**].

8 Press the [**User Tools/Counter**] key.

Programming/Changing Transfer Boxes

This section describes how to set up an Transfer Box.

This function turns the machine into a fax relay station. Documents sent with a SUB Code that matches the SUB Code programmed as a Transfer Box are received, and then relayed to a programmed receiver.

Since documents can be sent to multiple destinations in a single transfer request, you can economize on call charges when sending to distant destinations.

- Inform the Requesting Party of the SUB Code assigned to the Transfer Box. When they want to have a document transferred by your machine, ask them to send the document using SUB Code Transmission and specifying this SUB Code. If a password has also been programmed, inform them of this too, and ask them to enter it as the SID code.

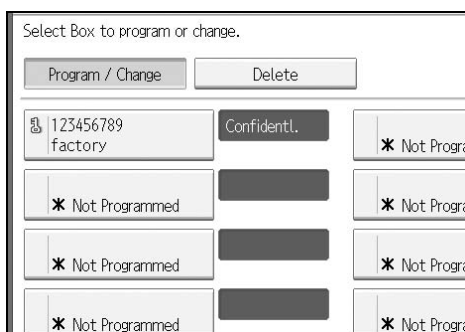

You can store the following items:

- Box name (required)
Up to 20 characters
- SUB Code (required)
Up to 20 characters long and can be composed of digits 0-9, "#", "*", and spaces (the first character cannot be a space).
- End Receiver (required)
You can store five End Receivers (destinations to which documents are forwarded) for each box. Specify End Receivers using a single or group destination programmed in the destination list beforehand.
- Password (optional)
Up to 20 characters long and can be composed of digits 0-9, "#", "*", and spaces (the first character cannot be a space).
When programming a password, a mark is displayed in front of the Box name.

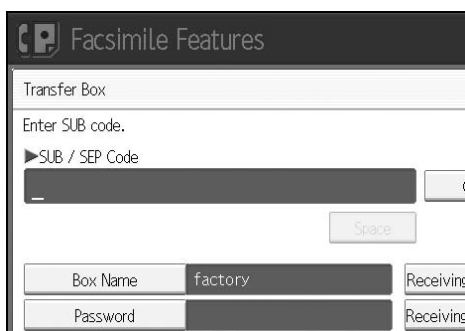

- 1** Press [Facsimile Features].
- 2** Press [General Features].
- 3** Press [Box Setting].
- 4** Check that [Program/Change] is selected.

5 Select the box to program.

When programming a new box, press **[*Not Programmed]**.

To change a box already programmed, press it, and then proceed to step **6**.

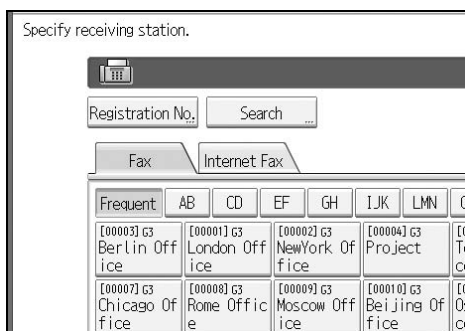

6 Press [Transfer Box].**7 Enter a Box name, and then press [OK].****8 Enter a SUB Code.**

To change the SUB Code, press **[Clear]** or the **[Clear/Stop]** key, and then try again. To change Box name, press **[Box Name]**, and then repeat from step **7**.

9 Specify the condition of registration.**10 To program End Receivers, select an End Receiver.**

You can store five End Receivers.

- 11 Specify End Receivers with destination keys, and then press [OK].**

You can change the display to the fax destination, Internet fax destination, and IP-Fax destination using the key on the left side of the display.

4

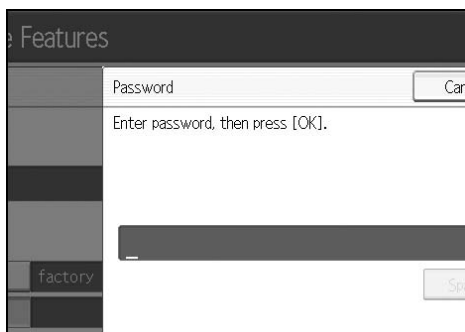

A reception station can also be registered as a group destination. In such a case, a maximum of 500 parties including End Receivers 1-5 can be specified in a group.

To register another End Receiver, repeat from step 10.

- 12 To program a password, press [Password].**

If you do not want to program a password, proceed to step 15.

- 13 Enter a password, and then press [OK].**

If you make a mistake, press [Clear] or the [Clear/Stop] key before pressing [OK], and then try again.

- 14 Re-enter the password, and then press [OK].**

If you make a mistake, press [Clear] or the [Clear/Stop] key before pressing [OK], and then try again.

To change the password after pressing [OK], press [Change] and repeat steps 13 and 14, or press [Cancel] and repeat from step 12.

- 15 Press [OK] twice.**

- 16 Press [Exit].**

- 17 Press the [User Tools/Counter] key.**

Note

- After documents are transferred, Transfer Result Reports are not sent back to the sender.
- Specify the Internet fax destination and IP-Fax destination as a reception station.
- After documents are transferred, they are deleted.
- When this function is set to on, the machine prints out the received documents it transfers and a Transfer Result Report after the transfer has finished. If you do not want it to print, contact your service representative.
- When the programmed receiver is a group destination for Multi-step Transfer, Multi-step Transfer takes place. For more information, contact your service representative.
- You can edit boxes in the same way you program them.
- If you delete a destination specified as a reception destination using the destination list, the settings of the reception destination are also deleted, so they must be registered again. When a destination is changed, a document is transmitted to the new destination. If there is no destination of the specified type, you can set which destination to be used as an alternative destination. See "Parameter Settings" (switch 32, bit 0).

Deleting Transfer Boxes

This section describes how to delete Transfer Boxes.

- 1** Press [Facsimile Features].
- 2** Press [General Features].
- 3** Press [Box Setting].
- 4** Press [Delete], and then select the box you want to delete.

- 5** If the password is programmed, enter a password using the number keys, and then press **[OK]**.

If you make a mistake, press **[Clear]** or the **[Clear/Stop]** key, and then try again.

- 6** Press **[Yes]**.

To cancel deleting a special sender, press **[No]**. The display returns to that of step **4**.

- 7** Press **[Exit]**.

- 8** Press the **[User Tools/Counter]** key.

Printing the Box List

Print a list showing the currently programmed Personal Boxes, Information Boxes, and Transfer Boxes.

- 1** Press **[Facsimile Features]**.
- 2** Press **[General Features]**.
- 3** Press **[Print List]** next to **[Box Setting]**.
- 4** Press the **[Start]** key.

After printing the list, you can then start from step **3**.

To cancel printing a list before pressing the **[Start]** key, press **[Cancel]** or the **[Clear/Stop]** key. The display returns to that of step **3**.

To cancel printing a list after pressing the **[Start]** key, press **[Stop Printing]**. The display returns to that of step **3**.

- 5** Press the **[User Tools/Counter]** key.

5. Printer Features

This chapter describes user tools in the Printer Features menu.

Test Print

This section describes the user tools in the Test Print menu under Printer Features.

❖ Multiple Lists

You can print the configuration page and error log.

❖ Configuration Page

You can print the machine's current configuration values.

❖ Error Log

You can print error logs listing all errors that occurred during printing. The most recent 30 errors are stored in the error log. If a new error is added when there are 30 errors already stored, the oldest error is deleted. However, if the oldest error belongs to one of the following types of print jobs, it is not deleted. Instead, it will be stored separately in error logs for each job type, up to a maximum of 30 for each log. You can check any of these print jobs for error log information.

- Sample Print
- Locked Print
- Hold Print
- Stored Print

The records of Auto Job Cancel and jobs canceled manually from the control panel can be printed.

❖ Menu List

You can print a Menu List showing the machine's function menus.

❖ PCL Config./Font Page

You can print the current configuration and installed PCL font list.

❖ PS Config./Font Page

You can print the current configuration and installed PostScript font list.

This menu can be selected only when the optional PostScript 3 unit is installed.

❖ PDF Config./Font Page

You can print the current configuration and installed PDF font list.

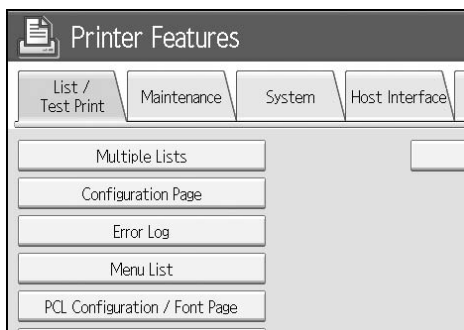

This menu can be selected only when the PostScript 3 unit is installed.

❖ Hex Dump

You can print in the Hex Dump mode.

Printing the configuration page

- 1** Press [Printer Features].
- 2** Press [Configuration Page] on the [List / Test Print].

The configuration page is printed.

- 3** Press the [User Tools/Counter] key.

Interpreting the configuration page

❖ System Reference

- Unit Number
Displays the serial number assigned to the board by its manufacturer.
- Total Memory
Displays the total amount of memory (SDRAM) installed on the printer.
- Firmware Version
 - Printer
Displays the version number of the printer firmware.
 - System
Displays the version number of the system firmware.
 - Engine
Displays the version number of the printer engine.
 - LCDC
Displays the version number of the panel display.
 - NIB
Displays the version number of the Network interface.
- Device Connection
This item(s) appears when the device option(s) is installed.
- HDD: Font / Macro Download
Displays the capacity of the hard disk drive.

- **Printer Language**
Displays the version number of the printer driver language.
- **Connection Equipment**
Displays the installed optional equipments.
- ❖ **Paper Input**
Displays settings made under Tray Paper Settings menu.
- ❖ **System**
Displays settings made under the System menu.
- ❖ **PCL Menu**
Displays settings made under PCL Menu.
- ❖ **PS Menu**
Displays settings made under PS Menu.
- ❖ **PDF Menu**
Displays settings made under PDF Menu.
- ❖ **Host Interface**
Displays settings made under the Host Interface menu.
When DHCP is active on the network, the actual IPv4 address, subnet mask and gateway address appear in parentheses on the configuration page.
- ❖ **Interface Information**
Displays the interface information.

Maintenance

This section describes the user tools in the Maintenance menu under Printer Features.

❖ List / Test Print Lock

You can Lock the [List/Test Print] menu.

- On
- Off

❖ Delete All Temporary Print Jobs

You can delete all print jobs temporarily stored in the machine.

❖ Delete All Stored Print Jobs

You can delete all print jobs stored in the machine.

❖ 4 Color Graphic Mode

- Text Priority
Use the optimum CMYK toner combination for text printing.
- Photo Priority
Use the optimum CMYK toner combination for photo printing.

Reference

p.47 "System Settings"

System

This section describes the user tools in the System menu under Printer Features.

❖ **Print Error Report**

Select this to have an error report printed when a printer or memory error occurs.

- On
- **Off**

❖ **Auto Continue**

You can select this to enable Auto Continue. When it is On, printing continues after a system error occurs.

- **Off**
- Immediate
- 1 minute
- 5 minutes
- 10 minutes
- 15 minutes

❖ **Memory Overflow**

Select this to have a memory overflow error report printed.

- **Do not Print**
- Error Information

❖ **Job Separation**

You can enable Job Separation.

This menu can be selected only when a finisher (optional) is installed.

- On
- **Off**

❖ **Auto Delete Temporary Print Jobs**

You can select to automatically delete print jobs temporarily stored in the machine.

- On
- **Off**

If you select **[On]**, you can set up to 200 hours for auto file deleting.

❖ **Auto Delete Stored Print Jobs**

You can select to automatically delete print jobs stored in the machine.

- **On: 3 days**
- Off

If you select **[On]**, you can set up to 180 days for auto file deleting.

❖ Initial Print Job List

You can set the desired type of print job list that appears on the screen when you press **[Print Jobs]**.

- **Complete List**
Displays the list of print jobs stored in the machine.
- **List Per User ID**
Displays the list of the User ID who stored a file in the machine.

❖ Memory Usage

You can select the amount of memory used in Font Priority or Frame Priority, according to paper size or resolution.

- **Font Priority**
This setting uses memory for registering fonts.
- **Frame Priority**
This setting uses frame memory for high speed printing.

❖ Duplex

You can select to have print on both sides of each page.

- **Off**
- **Long Edge Bind**
- **Short Edge Bind**

❖ Copies

You can specify the number of print sets. This setting is disabled if the number of pages to print has been specified with the printer driver or another command.

- 1-999
- Default: 1

❖ Blank Page Print

You can select whether or not to print blank pages.

- **On**
- **Off**

Pages that match one of the following conditions are identified as blank.

- There are no images.
- There are images but they are outside of the printable area.
- There are only blank characters.

❖ Reserved Job Waiting Time

You can specify how long the machine waits to receive a print job before allowing other functions such as the copier and scanner functions to interrupt it.

- **Long Wait**
- **Medium Wait**
- **Short Wait**
- **Off**

❖ Printer Language

Specify the printer language.

- **Auto**
- PCL
- PS
- PDF

This menu appears only when the PostScript 3 unit is installed.

❖ Sub Paper Size

You can enable the Auto Substitute Paper Size (A4, LT) feature.

- Auto
- **Off**

❖ Page Size

You can select the default paper size.

- 12×18
- 11×17
- 8¹/₂×14
- 8¹/₂×13
- 8¹/₂×11
- 8¹/₄×13
- 8×13
- 7¹/₄×10¹/₂
- 5¹/₂×8¹/₂
- 4¹/₈×9¹/₂
- 3¹/₈×7¹/₂
- A3
- A4
- A5
- A6
- B4JIS
- B5JIS
- B6JIS
- C5 Env
- C6 Env
- DL Env
- 8K
- 16K
- Custom Size

Default: Metric version: **A4**, Inch version: **8¹/₂×11**

❖ Letterhead Setting

You can rotate original images when printing.

When printing, original images are always rotated by 180 degrees. Therefore, output might not be as expected when printing onto letterhead or preprinted paper requiring orientation. Using this function, you can specify image rotation.

- **Off**

When set to Off, original images are rotated by 180 degrees.

- **Auto Detect**

When set to Auto Detect, the machine detects a letterhead or preprinted paper automatically, and does not rotate the image.

- **On (Always)**

When set to On (Always), the machine does not rotate.

This function reduces printing speed.

❖ Bypass Tray Setting Priority

Specify whether (Printer) Driver / Command or Machine Settings, has priority for determining the paper size for the bypass tray.

- **Driver / Command**

- **Machine Settings**

❖ Edge to Edge Print

You can select whether or not to print on the entire sheet.

- **Off**

- **On**

The 5 mm margin along the edges may not be printed properly.

❖ Default Printer Language

You can set the default printer language if the machine cannot find the printer language automatically.

- **PCL**

- **PS**

- **PDF**

This menu appears only when the PostScript 3 unit is installed.

❖ Tray Switching

You can set to switch the paper tray.

- **Off**

- **On**

🔍 Reference

“Loading paper”, Troubleshooting

Host Interface

This section describes the user tools in the Host Interface menu under Printer Features.

❖ I/O Buffer

You can set the size of the I/O Buffer. Normally it is not necessary to change this setting.

- 128KB
- 256KB

❖ I/O Timeout

You can set how many seconds the machine should wait before ending a print job. If data from another port usually arrives in the middle of a print job, you should increase this timeout period.

- 10 seconds
- **15 seconds**
- 20 seconds
- 25 seconds
- 60 seconds

PCL Menu

This section describes the user tools in the PCL Menu under Printer Features.

❖ Orientation

You can set the page orientation.

- **Portrait**
- Landscape

❖ Form Lines

You can set the number of lines per page.

- 5 to 128 by 1
- Default: Metric version: **64**, Inch version: **60**

❖ Font Source

You can set the storage location of the default font.

- **Resident**
- RAM
- HDD
- SD

RAM, HDD and SD can be selected only when fonts have been downloaded to the machine.

❖ Font Number

You can set the ID of the default font you want to use.

- 0 to 63 by 1
- The default setting is **0**.

❖ Point Size

You can set the point size you want to use for the selected font.

- 4.00 to 999.75 by 0.25
- This setting is effective only with variable-space fonts.
The default setting is **12.00**.

❖ Font Pitch

You can set the number of characters per inch for the selected font.

- 0.44 to 99.99 by 0.01
- This setting is effective only with fixed-space fonts.
The default setting is **10.00 pitch**.

❖ Symbol Set

Specify the set of print characters for the selected font. The available options are as follows:

Roman-8, ISO L1, ISO L2, ISO L5, **PC-8**, PC-8 D/N, PC-850, PC-852, PC8-TK, Win L1, Win L2, Win L5, Desktop, PS Text, VN Intl, VN US, MS Publ, Math-8, PS Math, VN Math, Pifont, Legal, ISO 4, ISO 6, ISO 11, ISO 15, ISO 17, ISO 21, ISO 60, ISO 69, Win 3.0

❖ Courier Font

You can select a courier font type.

- **Regular**
- Dark

❖ Extend A4 Width

You can extend the printing area width (when printing on A4 sheet with PCL).

- **Off**
- On

When the setting is On, the width will be 8¹/₂ inches.

❖ Append CR to LF

When set to On, a carriage return will follow each line feed: CR=CR, LF=CR-LF, FF=CR-FF.

- **Off**
- On

❖ Resolution

You can set the print resolution in dots per inch.

- 300 dpi (B&W)
- **600 dpi (Fast)**
- 600 dpi (Standard)
- 600 dpi (High Quality)

PS Menu

This section describes the user tools in the PS Menu under Printer Features.

This menu appears only when the optional PostScript 3 unit is installed.

❖ Data Format

You can select a data format.

- Binary Data
- **TBCP**

This setting is not effective when operating the machine with a parallel or EtherTalk connection.

When operating the machine with a parallel connection, and also if the binary data is sent from the printer driver, the print job is canceled.

When operating the machine with an Ethernet connection, the print job is canceled under the following conditions;

- The printer driver data format is TBCP, and the data format selected on the display panel is Binary Data.
- The printer driver data format is binary, and the data format selected on the display panel is TBCP.

❖ Resolution

You can set the print resolution in dots per inch.

- **600 dpi (Fast)**
- 600 dpi (Standard)
- 600 dpi (High Quality)

❖ Color Setting

You can make an RGB setting.

- Off
- Fine
- **Super Fine**

❖ Color Profile

You can set the color profile.

- **Auto**
- Presentation
- Solid Color
- Photographic
- User Setting

PDF Menu

This section describes the user tools in the PDF Menu under Printer Features.

❖ **Change PDF Password**

Set the password for the PDF file executing PDF Direct Print.

- Current Password
- New Password
- Confirm New Password

A password can be set using on the Web Image Monitor, but in this case the password information is sent through the network. If security is a priority, set the password using this menu from the Control Panel.

❖ **PDF Group Password**

Set the group password already specified with DeskTopBinder.

- Current Password
- New Password
- Confirm New Password

A password can be set using on the Web Image Monitor, but in this case the password information is sent through the network. If security is a priority, set the password using this menu from the Control Panel.

❖ **Resolution**

You can set the print resolution in dots per inch.

- **600 dpi (Fast)**
- 600 dpi (Standard)
- 600 dpi (High Quality)

❖ **Color Setting**

You can make an RGB setting.

- None
- Fine
- **Super Fine**

❖ **Color Profile**

You can set the color profile.

- **Auto**
- Presentation
- Solid Color
- Photographic
- User Setting

6. Scanner Features

This chapter describes user tools in the Scanner Features menu.

General Settings

This section describes the user tools in the General Settings menu under Scanner Features.

❖ Switch Title of Quick Dial Table

Select the title to be shown on the destination list.

❖ Update Delivery Server Destination List

Press **[Update Delivery Server Destination List]** to update the receivers from the delivery server. To use this function, it is necessary to set **[Delivery Option]** to **[On]**.

❖ Search Destination

Select a destination list to be used in “Search Destination”.

To search from LDAP server, it is necessary to register the LDAP server in **[System Settings]** and set **[LDAP Search]** to **[On]**.

❖ TWAIN Standby Time

When the machine is being used to send e-mail or a file, or functioning as Document Server or a network delivery scanner, a scanning request to the machine as a TWAIN scanner will switch the machine to the network TWAIN scanner function. This setting determines the delay until the machine switches to the network TWAIN scanner function.

- Off
When **[Off]** is selected, the machine will switch to the network TWAIN scanner function at once.
- **On: 10 sec.**
When **[On]** is selected, you can enter the delay time with the number keys (3-30 seconds). The machine will switch to the network TWAIN scanner function when the time set here passes after the last key operation.

❖ Destination List Display Priority 1

Select a destination list to be displayed when the machine is in the initial state. You can select either **[E-mail / Folder]** or **[Delivery Server]**.

- E-mail / Folder
- **Delivery Server**

❖ Destination List Display Priority 2

In the machine’s address book, select which address book appears by default. You can select either **[E-mail Address]** or **[Folder]**.

- **E-mail Address**
- Folder

❖ **Print & Delete Scanner Journal**

Up to 100 transmission/delivery results can be checked on this machine. If the stored transmission/ delivery results reach 100, select whether to print the delivery journal.

- **Print and Delete All**

The transmission/delivery journal is printed automatically. The printed journal is deleted.

- **Do not Print: Delete Oldest**

Transmission/delivery results are deleted one by one as new results are stored.

- **Do not Print: Disable Send**

Transmission/delivery cannot be performed when the journal is full.

When printed, all records are deleted after printing. When not printed, records over the limit are automatically deleted in succession from the oldest record.

While the journal is being printed, files with the status waiting cannot be sent.

❖ **Print Scanner Journal**

The scanner journal is printed and deleted.

❖ **Delete Scanner Journal**

The scanner journal is deleted without being printed.

Scan Settings

This section describes the user tools in the Scan Settings menu under Scanner Features.

❖ A.C.S. Sensitivity Level

Sets the sensitivity level for judging colour/black and white for scanning originals when **[Scan Type]** is set to **[Auto Color Select]**.

❖ Wait Time for Next Orig.: Exposure Glass

When dividing originals and scanning them individually with the exposure glass to form a single file, select **[Continuous Wait]**, **[Off]**, or **[Set Wait Time]** for the waiting status.

- Continuous Wait
- Off
- **Set Wait Time: 60sec.**

If you select **[SADF]** in **[Original Feed Type]** on the Scan to Folder screen, the **[Wait Time for Next Orig.: Exposure Glass]** setting becomes invalid.

If you select **[Batch]** in **[Original Feed Type]** on the Scan to Folder screen, the **[Wait Time for Next Orig.: Exposure Glass]** setting becomes invalid, and the machine waits for an additional original to be put in place.

If **[Set Wait Time]** is selected, enter the wait time in seconds (3-999) for placing additional originals with the number keys. Scanning will start if additional originals are placed and the **[Start]** key is pressed within this time. You can end scanning and begin transmission by pressing the **[#]** key within this time. Once the specified time has elapsed, transmission starts automatically.

If **[Continuous Wait]** is selected, the machine will wait for additional originals until the **[#]** key is pressed. Scanning will start when additional originals are placed and the **[Start]** key is pressed. You can end scanning and begin sending by pressing the **[#]** key.

If originals are placed in the auto document feeder (ADF), transmission will start without waiting for additional originals after all originals in the ADF have been scanned, regardless of the specified settings.

If a paper misfeed occurs or any of the following operations is performed while the machine is waiting for additional originals, the countdown stops and does not start again until the **[#]** key is pressed.

- Changing the settings such as the scan settings
- Opening the upper cover of the ADF
- Pressing the **[Interrupt]** key to activate the copy mode

❖ **Wait Time for Next Original(s): SADF**

When dividing originals and scanning them separately with the ADF to form a single file, select **[Set Wait Time]** or **[Continuous Wait]** for the waiting status.

- Continuous Wait

- **Set Wait Time: 60sec.**

This setting is valid if **[SADF]** is specified for **[Original Feed Type]** when scanning.

If **[Set Wait Time]** is selected, enter the wait time in seconds (3-999) for placing additional originals with the number keys. Scanning will start automatically if additional originals are placed within this time. You can end scanning and begin transmission by pressing the **[#]** key within this time. Once the specified time has elapsed, transmission starts automatically.

If **[Continuous Wait]** is selected, the machine will wait for the additional originals until the **[#]** key is pressed. Scanning will start when additional originals are placed and the **[Start]** key is pressed. You can end scanning and begin sending by pressing the **[#]** key.

Even if originals are placed on the exposure glass, the machine will operate according to the specified settings. However, every time originals are placed on the exposure glass, you must press the **[Start]** key to start scanning. Scanning will start if additional originals are placed and the **[Start]** key is pressed within this time. You can end scanning and begin transmission by pressing the **[#]** key within this time. Once the specified time has elapsed, transmission starts automatically.

If originals are placed in the auto document feeder (ADF), transmission will start without waiting for additional originals after all originals in the ADF have been scanned, regardless of the specified settings.

If a paper misfeed occurs or any of the following operations is performed while the machine is waiting for additional originals, the countdown stops and does not start again until the **[#]** key is pressed.

- Changing the settings such as the scan settings
- Opening the upper cover of the ADF
- Pressing the **[Interrupt]** key to activate the copy mode

❖ **Background Density of ADS (Full Color)**

Characteristics due to the type of paper such as nonwhiteness like newspaper or transparent originals can be reduced by correcting the scanning density.

Reference

“Batch, SADF”, Scanner Reference

“Items for Specifying Scan Settings”, Scanner Reference

“Setting Items for Original Feed Type”, Scanner Reference

“Scanning Multiple Pages of Originals as One File”, Scanner Reference

Send Settings

This section describes the user tools in the Send Settings menu under Scanner Features.

❖ Compression (Black & White)

Select whether or not to compress black and white scan files.

- On
- Off

Compression reduces the time required for transferring the scan file. The actual time required for file transfer will vary depending on the file size and network load.

❖ Compression (Gray Scale / Full Color)

Specify whether or not to compress multi-level (grayscale / full color) scan files.

- On
- Off

If you select **[On]**, you can specify the compression level between one and five. The image quality is better for lower compression, but the time required for file transfer increases accordingly.

The actual time required for file transfer will vary depending on the file size and network load.

❖ High Compression PDF Level

Select compression level when creating high compression PDF files.

- Higher
- Standard

❖ Max. E-mail Size

Select whether or not to limit the size of an e-mail to which an image is attached.

- On
- Off

When **[On]** is selected, enter the size limit (128-102400 KB) with the number keys.

When the SMTP limits the size, match that setting.

❖ **Divide & Send E-mail**

This function is effective only when **[On]** is selected for **[Max. E-mail Size]**. Select whether or not an image exceeding the size specified in **[Max. E-mail Size]** should be divided and sent using more than one e-mail.

- **Yes (per Max. Size)**
- Yes (per Page)
- Off

When **[Yes (per Max. Size)]** is selected, enter the Max. Number of Divisions (2-500) with the number keys.

When **[Multi-page: TIFF]** or **[Multi-page: PDF]** is selected for **[File Type]**, the image will not be divided even if **[Yes (per Page)]** is selected.

When **[Yes (per Max. Size)]** is selected, some received files may not be able to be restored, depending on the type of e-mail software.

When **[No]** is selected, the e-mail is not sent if its size exceeds the limit, and an error message appears. The scan file is discarded.

Set the maximum e-mail size within the capacity of the SMTP server.

❖ **E-mail Information Language**

Select the language in which email information such as title, document name, and sender's name is sent.

Select one of the following 20 languages:

British English, American English, German, French, Italian, Spanish, Dutch, Portuguese, Polish, Czech, Swedish, Finnish, Hungarian, Norwegian, Danish, Japanese, Simplified Chinese, Traditional Chinese, Russian, and Hangul. The e-mail text which is a template cannot be changed.

❖ **No. of Digits for Single Page Files**

Sets digit number for serial number to attach to Single Page file name.

- **4 Digits**
- 8 Digits

❖ **Stored File E-mail Method**

Specify the e-mail setting for sending stored files. You can select **[Send File]** or **[Send URL Link]**. This setting can be used for the following:

- **Sending Stored Files by E-mail**
- Simultaneous Storage and Sending by E-mail

If you select **[Send File]**, actual files are attached to e-mails.

If you select **[Send URL Link]**, URL Links to file locations are attached to e-mails.

7. Registering Addresses and Users for Facsimile/Scanner Functions

This chapter describes how to register destinations and users in the Address Book.

Address Book

Registering information such as the names of users and their e-mail addresses in the Address Book allows you to manage them easily.

❗ Important

- ❑ Address Book data is stored on the hard disk. It can be lost if there is some kind of hard disk failure. The manufacturer shall not be responsible for any damages resulting data loss.

You can register and manage the following items in the Address Book:

❖ Names

You can register the name of the user and the key display. This is the basic information required for managing user of the machine.

To register a fax number or e-mail address in the address book, you must register information such as the user name and destination name in advance.

❖ Auth. Info

You can register user codes in order to restrict particular functions to certain users, and to check their use of each function. You can also register login user names and login passwords to be used when sending e-mail, sending to folders, or accessing an LDAP server.

❖ **Protection**

You can set protection codes to stop sender's name from being used or folders from being accessed without authorization.

❖ **Fax Dest.**

You can register fax numbers, line, fax header and select label insertion. When using IP-Fax, you can register the IP-Fax destination and select the protocol.

7

❖ **E-mail Address**

You can register e-mail destinations in the Address Book.

❖ **Folder**

You can register the protocol, path name and server name.

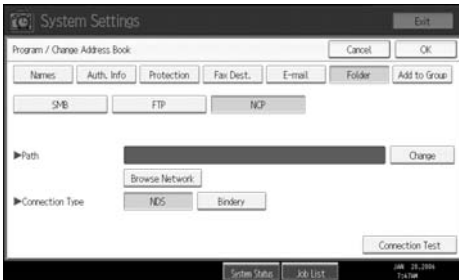

- SMB

- FTP

- NCP

❖ **Add to Group**

You can put registered e-mail and folder destinations into a group for easier management.

 **Note**

- You can also use a Web Image Monitor to register names in the Address Book. With the SmartDeviceMonitor for Admin, you can register multiple names at the same time.
- Using [**Address Management Tool**] in SmartDeviceMonitor for Admin, you can backup Address Book data. We recommend backing up data when using the Address Book.
- For details about using Web Image Monitor, see the Web Image Monitor Help.
- For operating instructions, see SmartDeviceMonitor for Admin Help.

Managing names in the Address Book

By registering a name and key display beforehand, you can specify email and folder destinations simply by selecting the name key.

 **Reference**

p.206 "Registering Names"

Sending fax by Quick Dial

Register a fax number in the Address Book so you can specify it only by selecting the fax destination, shown on the fax initial display when sending a fax. When label insertion is set to "On", the receiver's name and standard messages are printed on the fax message when it is received at the other end.

By registering IP-Fax destinations in the Address Book, you can specify a destination simply by selecting it from the destinations that appear in the initial fax display. Registered IP-Fax numbers can be used and printed as sender's IP-Fax numbers.

 **Reference**

p.218 "Fax Destination"

Sending e-mail by Quick Dial

By registering e-mail addresses in the Address Book, you can specify e-mail destinations simply by selecting them from the fax initial display when sending a document by internet fax.

You can also specify an e-mail address by selecting the destination shown on the initial scanner display when sending a document using the scanner function. A registered e-mail address can be used as the sender's address, and the sender's address are automatically entered in the "From" field of an email header.

 **Reference**

p.231 "E-mail Destination"

Sending scanned files to a shared folder directly

After registering the path name, user name and password, you can connect to a shared folder simply by selecting the destination shown on the initial scanner display whenever sending files using the scanner function to a shared folder.

To share the folder using Windows, select the SMB protocol.

To register the folder to the FTP server, select the FTP protocol.

To register the folder to the NetWare server, select the NCP protocol.

Reference

p.235 "Registering Folders"

Preventing unauthorized user access to shared folders from the machine

After registering a protection code, you can specify the object of protection to prevent an e-mail destination from being used without permission.

You can prevent unauthorized access to registered folders.

Reference

p.262 "Registering a Protection Code"

Managing users and machine usage

Register user codes to limit users to the following functions and check their use of each function:

- Copier
- Document Server
- Facsimile
- Scanner
- Printer

Reference

p.209 "Authentication Information"

Registering Names

Register user information including their names.

The user name is useful for selecting a destination when sending faxes or e-mail. You can also use it as a folder destination.

You can register up to 2000 names.

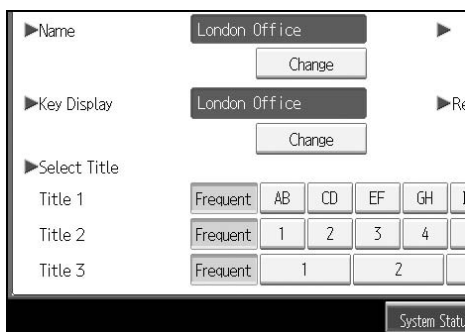

Registering Names

This section describes how to register names.

- 1** Press [System Settings].

- 2** Press [Administrator Tools].
- 3** Press [Address Book Management].
- 4** Check that [Program/Change] is selected.
- 5** Press [New Program].
- 6** Press [Change] on the right of the Name.
The name entry display appears.
- 7** Enter the name, and then press [OK].
- 8** Press the key for the classification you want to use under Select Title.

7

9 Press [OK] twice.

10 Press the [User Tools/Counter] key.

Note

- The name can be used for documents in the Document Server. For details about the Document Server, see “Using the Document Server”, Copy/ Document Server Reference.
- The keys you can select are as follows:
 - [Frequent]: Added to the page that is displayed first.
 - [AB], [CD], [EF], [GH], [IJK], [LMN], [OPQ], [RST], [UVW], [XYZ], [1] to [10]: Added to the list of items in the selected title.
- You can select [Frequent] and one more page for each title.

Reference

“Entering Text”, About This Machine

“Using the Document Server”, Copy/ Document Server Reference

Changing a Registered Name

This section describes how to change a name.

1 Press [System Settings].

2 Press [Administrator Tools].

3 Press [Address Book Management].

4 Check that [Program/Change] is selected.

5 Select the registered name you want to change.

Press the name key, or enter the registered number using the number keys.

6 To change the name or key display, press [Change] on the right of the name or key display.

7 Enter the name or key display, and then press [OK].

8 To change the title, press the key for the classification you want to use from Select Title.

Note

- You can search by the registered name, user code, fax number, folder name, e-mail address, or IP-Fax destination.

Reference

“Entering Text”, About This Machine

To change a registration number

1 Press [Change] to the right of “Registration No.”

2 Enter a new registration number using the number keys, and then press the [#] key.

Deleting a Registered Name

This section describes how to delete a name.

1 Press [System Settings].

7

2 Press [Administrator Tools].

3 Press [Address Book Management].

4 Press [Delete].

5 Select the name you want to delete.

Press the name key, or enter the registered number using the number keys.

6 Press [Yes].

7 Press [Exit].

8 Press the [User Tools/Counter] key.

Authentication Information

Following describes the procedure for authenticating a user code.

Important

- The functions associated with each user code are the same. If you change or delete user codes, management data and limits associated with that code become invalid.

Register user codes to limit users to the following functions and check their use of each function:

Copier

Document Server

Facsimile

Scanner

Printer

Note

- You can register up to 500 user codes.
- The number of copies made of documents stored in the Document Server using the facsimile function is counted for each user code. This allows you to check each user's usage.
- The number of copies scanned using the scanner function is counted for each user code. This allows you to check each user's usage.
- To automatically register the printer driver user code, select **[Printer: PC Control]** for the printer in User Code Authentication. To use the user code set in User Tools, set the user codes registered in User Tools for the printer driver.
- For details about setting user codes for the printer driver, see Printer Driver Help.

Reference

p.80 "User Authentication Management"

Registering a User Code

This section describes how to register a user code.

- 1 Press **[System Settings]**.

- 2 Press **[Administrator Tools]**.

- 3 Press **[Address Book Management]**.

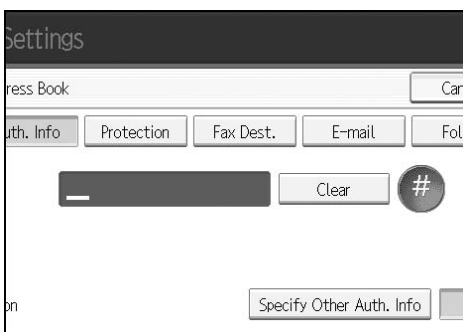

- 4 Check that **[Program/Change]** is selected.

- 5 Press the name whose code is to be registered, or enter the registered number using the number key.

You can search by the registered name, user code, fax number, folder name, e-mail address, or IP-Fax destination.

- 6 Press **[Auth. Info]**.

- 7 Enter the user code using the number keys, and then press **[#]** key.

If you make a mistake, press **[Clear]** or the **[Clear/Stop]** key.

- 8 Press **[▼Next]** twice.

- 9** Select the functions to be used with the user code from Available Functions.

- 10** Press [OK].
- 11** Press [Exit].
- 12** Press the [User Tools/Counter] key.

Note

- You can enter a one-to eightdigit user code.
- To register the name, see "Registering Names".

Reference

p.206 "Registering Names"

7

Changing a User Code

This section describes how to change a user code.

Important

- Even if you change a user code, the counter value will not be cleared.

- 1** Press [System Settings].

- 2** Press [Administrator Tools].
- 3** Press [Address Book Management].

4 Check that **[Program/Change]** is selected.

5 Select the user whose user code you want to change.

Press the name key, or enter the registered number using the number keys.

You can search by the registered name, user code, fax number, folder name, e-mail address, or IP-Fax destination.

6 Press **[Auth. Info]**.

7 Press **[Change]**, and then enter the new user code using the number keys

8 Press **[#]** key.

9 To change the available functions, press **[Auth. Info]** and then press **[▼Next]** twice.

10 Press the key to select the functions to enable them.

Press the key to highlight it, and then the function is enabled. To cancel a selection, press the highlighted key.

11 Press **[OK]**.

12 Press **[Exit]**.

13 Press the **[User Tools/Counter]** key.

Note

To change the name, key display and title, see “Changing a Registered Name”.

Reference

p.207 “Changing a Registered Name”

Deleting a User Code

This section describes how to delete a user code.

Important

- After clearing the user code, the counter is automatically cleared.

1 Press [System Settings].

2 Press [Administrator Tools].

3 Press [Address Book Management].

4 Press [Delete].

5 Select the name whose code is to be deleted.

Press the name key, or enter the registered number using the number keys.

You can search by the registered name, user code, fax number, folder name, e-mail address, or IP-Fax destination.

6 Press [Auth. Info].

7 Press [Change] to delete the user code, and then press [#] key.

8 Press [OK].

9 Press [Exit].

10 Press the [User Tools/Counter] key.

 **Note**

- To delete a name from the Address Book entirely, see “Deleting a Registered Name”.

 **Reference**

p.208 “Deleting a Registered Name”

Displaying the Counter for Each User

This section describes how to display the counter for each user.

- 1** Press **[System Settings]**.

7

- 2** Press **[Administrator Tools]**.
- 3** Press **[Display / Clear / Print Counter per User]**.
- 4** Select the function usage you want to print from **[Copier Counter]**, **[Print Counter]**, **[Fax Counter]** or **[Scanner Counter]**.

Counters for individual function usage under each user code appear.

Printing the Counter for Each User

This section describes how to print the counter for each user.

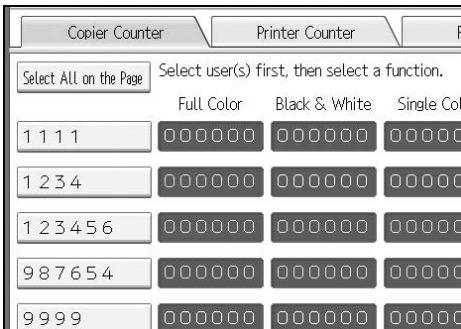

- 1 Press **[System Settings]**.

- 2 Press **[Administrator Tools]**.

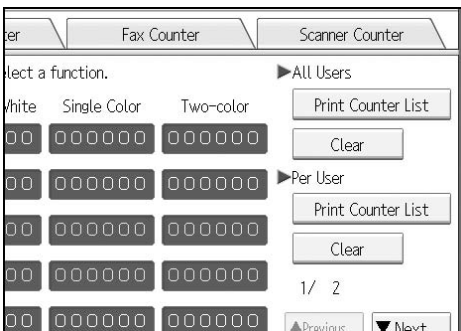

- 3 Press **[Display / Clear / Print Counter per User]**.

- 4 Select a user code from the left side of the display.

Press **[Select All on the Page]** to select all user codes on the page.

- 5 Press **[Print Counter List]** under **Per User**.

Enter the user code, and then press **[#]** if the user code is registered.

- 6 Select the function usage you want to print from **[Copier Counter]**, **[Print Counter]**, **[Fax Counter]**, and **[Scanner Counter]**.

7 Press **[Print]**.

Printing the Counter for All User

This section describes how to print the counter for all user.

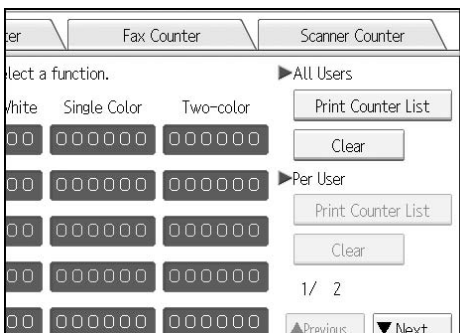

1 Press **[System Settings]**.

2 Press **[Administrator Tools]**.

3 Press **[Display / Clear / Print Counter per User]**.

4 Press **[Print Counter List]** under **All Users**.

Enter the user code, and then press **[#]** if the user code is registered.

5 Select the function usage you want to print from **[Copier Counter]**, **[Print Counter]**, **[Fax Counter]**, and **[Scanner Counter]**.

6 Press **[Print]**.

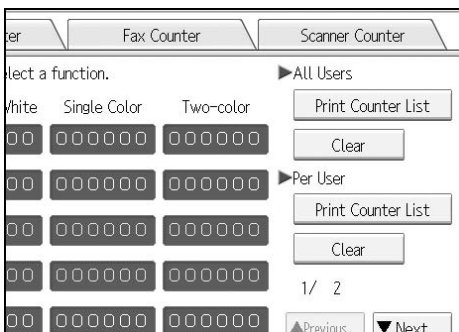

Clearing the Number of Prints

This section describes how to clear the counter.

- 1 Press [System Settings].

- 2 Press [Administrator Tools].
- 3 Press [Display / Clear / Print Counter per User].
- 4 Select the user code to clear.
- 5 To clear the number of prints made under a user code, Select the user code from the left side of the display.

Press [Select All on the Page] to select all user codes on the page.

- 6 Press [Clear] under Per User Codes.
- 7 Select the function usage you want to clear from [Copier Counter], [Print Counter],[Fax Counter], and [Scanner Counter].
- 8 Press [OK].
- 9 To clear the number of prints for all user codes, press [Clear] under All Users.
- 10 Select the function usage you want to clear from [Copier Counter], [Print Counter],[Fax Counter], and [Scanner Counter].
- 11 Press [OK].

Fax Destination

Register a fax destination so you do not need to enter fax numbers each time, and can send documents that have been scanned in using the facsimile function.

- It is easy to select the fax destination if you register “Name” and “Key Display” for the fax destination.
- You can register fax destinations as a group. For details about registering a group, see “Registering Names to a Group”.
- You can register fax destinations by selecting them from redial function.
- Registered Fax numbers can be used as sender's Fax numbers.

There are two types of fax destination, as shown below:

- **Fax Destination**
Select this to send the fax over the telephone network.
- **IP-Fax**
Select this to send the fax to a machine on a TCP/IP network.
You cannot send the fax to a machine on another network if that network is behind a firewall.

You can program the following items in a fax destination:

❖ **Fax number**

Registers the destination's fax number. You can enter a fax number using up to 128 digits. You must include every digit in the number.

❖ **SUB Code**

Registering a SUB Code allows you to use Confidential Transmission to send messages to the other fax machines which support a similar function called “SUB Code”. See “SUB Code”, Facsimile Reference.

❖ **SEP Code**

Registering a SEP Code allows you to use Polling Reception to receive faxes from the other fax machines which support Polling Reception. See “SEP Code”, Facsimile Reference.

❖ **Line**

If the optional extra G3 interface unit is installed, you can select the line type per destination.

❖ **International TX mode**

When setting the International TX mode to **[On]**, the machine transmits more carefully by lowering transmission speed. However, communication times increase.

❖ **Fax header**

You can select to print a fax header on fax messages the other party receives. The default is “1st Name”.

❖ **Label insertion**

Use label insertion to print information such as the destination name on the sheet printed out at the destination.

Data is printed as follows:

- **Destination Name**

The destination name specified in **[Fax Destination]** is printed with “To” before it at the top of the sheet.

- **Standard Message**

A registered two-line sentence is printed under “Destination Name”.

To use this function, set Label Insertion to **[On]** when programming fax destinations and also press **[Label Insertion]** when sending fax documents.

Fax header and label insertion are also printed when sending by e-mail using the fax function.

You can program a standard message other than those registered in the machine. See “Programming, Changing, and Deleting Standard Messages”, Facsimile Reference

You can program the following items in an IP-Fax Destination:

❖ **IP-Fax**

Register the IP-Fax destination. You can register the name using up to 128 characters. You must make this setting when using IP-Fax.

This setting only works if the IP-Fax function has been selected.

❖ **SUB Code**

Registering a SUB Code allows you to use Confidential Transmission to send messages to the other fax machines which support a similar function called “SUB Code”. See “SUB Code”, Facsimile Reference.

❖ **SEP Code**

Registering a SEP Code allows you to use Polling Reception to receive faxes from the other fax machines which support Polling Reception. See “SEP Code”, Facsimile Reference.

❖ **Select Protocol**

Select the protocol for the IP-Fax transmission.

This setting only works if the IP-Fax function has been selected.

Using a Fax Destination as a sender

1 Press [Protection].

2 Press [Sender] on the right side of Use Name as.

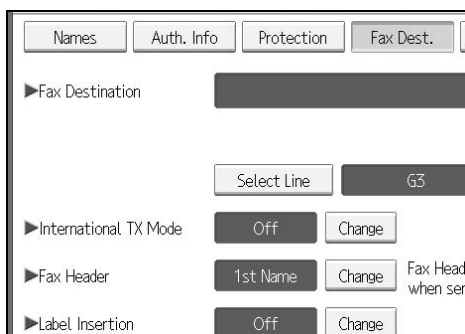

To change the fax number

1 Press [Change] under Facsimile No..

2 Enter the new fax number using the number keys, and then press [OK].

To change the line

1 Press [Select Line].

2 Select the line, and then press [OK].

To change the SUB Code

- 1** Press [Adv. Features], and then press [SUB Code].
- 2** Press [Change] under TX SUB Code.
- 3** Enter the new SUB Code, and then press [OK].
- 4** To change the password, press [Change] under Password (SID).
- 5** Enter the new password, and then press [OK].
- 6** Press [OK].

To change the SEP Code

- 1** Press [Adv. Features], and then press [SEP Code].
- 2** Press [Change] under RX SEP Code.
- 3** Enter the new SEP Code, and then press [OK].
- 4** To change the password, press [Change] under Password (PWD).
- 5** Enter the new password, and then press [OK].
- 6** Press [OK].

To set the International TX Mode

- 1** Press [Change] under International TX Mode.
- 2** Select [Off] or [On], and then press [OK].

To select the fax header

You can register the fax header in Program Fax Information in the system settings for Facsimile Features.

- 1** Press [Change] under Fax Header.
- 2** Select [1st Name] or [2nd Name], and then press [OK].

Reference

p.141 "Registering Fax Information"

To set label insertion

When Label Insertion is set to ON, the receiver's name and standard messages are printed on the fax message when it is received at the other end.

- 1** Press [Change] under Label Insertion.
- 2** Press [On].
- 3** Press [Change] under Line 2.
- 4** Select the new standard message or press [Manual Entry] to enter the new message.
- 5** Enter the new message, and then press [OK].
- 6** Press [OK].
- 7** Press [Change] under Line 3.
- 8** Select the new standard message, and then press [OK].
- 9** Press [OK].

 **Note**

- To change the name, key display and title, see "Changing a Registered Name".

Registering Folders

By registering a shared folder, you can send scan files to it directly.

There are three types of protocol you can use:

- SMB
For sending files to shared Windows folders.
- FTP
Use when sending files to an FTP server.
- NCP
Use when sending files to an Net- Ware server.

Note

- For details about protocols, server names, and folder levels, consult your network administrator.
- You can prevent unauthorized users from accessing folders from the machine. See “Registering a Protection Code”.
- You can only select either SMB, FTP, or NCP. If you change protocol after finishing your settings, all previous entries are cleared.

Using SMB to Connect

Note

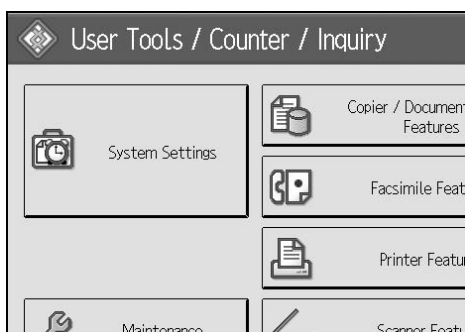

- To register a folder in an FTP server, see “Using FTP to Connect”.
- To register a folder in an NetWare server, see “Using NCP to Connect”.

Reference

- p.241 “Using FTP to Connect”
- p.246 “Using NCP to Connect”

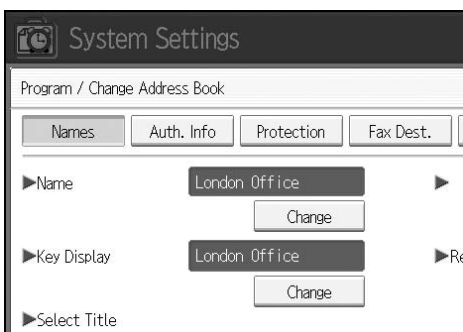

Registering a Folder

- 1** Press [System Settings].

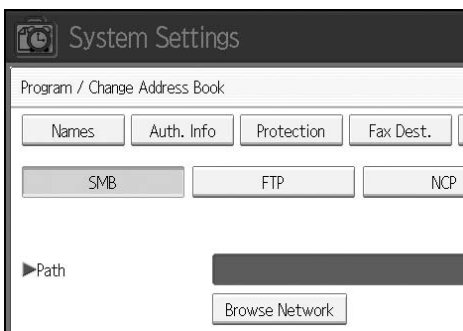

- 2** Press [Administrator Tools].

- 3** Press [Address Book Management].
- 4** Check that [Program/Change] is selected.
- 5** Select the name whose folder you want to register. Press the name key, or enter the registered number using the number keys.
- 6** Press [Auth. Info], and then press [Next].

- 7** Press [Specify Other Auth. Info] on the right side of Folder Authentication.
- 8** Press [Change] under Login User Name.
- 9** Enter the login user name, and then press [OK].
- 10** Press [Change] under Login Password.
- 11** Enter the password, and then press [OK].
- 12** Enter the password again to confirm, and then press [OK].
- 13** Press [Folder].
- 14** Press [SMB].

- 15** Press [Connection Test] to check the path is set correctly.
- 16** Press [Exit].
- 17** Press [OK].
- 18** Press [Exit].

 **Note**

- To register the name, see “Registering Names”.
- You can enter up to 64 characters for the user name.
- You can enter up to 64 characters for the password.
- You can enter a path using up to 128 characters.
- To specify a folder, you can either enter the path manually or locate the folder by browsing the network.
- If the connection test fails, check the settings, and then try again.
- When **[Do not Specify]** is selected, the SMB User Name and SMB Password that you have specified in Default User Name / Password (Send) of File Transfer settings applies.
- If User Authentication is specified, contact your administrator.

 **Reference**

p.206 “Registering Names”

p.237 “To locate the folder manually”

p.238 “To locate the folder using Browse Network”

To locate the folder manually

1 Press **[Change]** under Path.

2 Enter the path where the folder is located.

3 Press **[OK]**.

If the format of the entered path is not correct, a message appears. Press **[Exit]**, and then enter the path again.

 **Note**

- Enter the path using this format: “\\ServerName\Share-Name\PathName”.
- You can also enter an IPv4 address.
- You can enter a path using up to 128 characters.

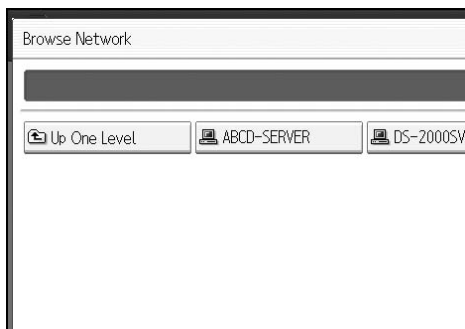

To locate the folder using Browse Network

1 Press **[Browse Network]**.

The client computers sharing the same network as the machine appear.
Network display only lists client computers you are authorized to access.

2 Select a client computer.

Shared folders under it appear.

You can press **[Up One Level]** to switch between levels.

3 Select the folder you want to register.**4** **[OK]**.

If a Login Screen Appears

This section explains how to log on to the machine if the login screen appears when you try to access a folder by browsing the network.

If you have not specified folder authentication, or if an incorrect user name or password has been entered for folder authentication, the login screen appears.

1 Enter the login user name, and then press **[OK]**.

Enter the login user name specified for folder authentication.

2 Enter the password, and then press **[OK]**.

The path to the selected folder appears.

If a message appears, press **[Exit]**, and then enter the login user name and password again.

Changing a Folder

- 1 Press [System Settings].

- 2 Press [Administrator Tools].
- 3 Press [Address Book Management].
- 4 Check that [Program/Change] is selected.
- 5 Select the name whose folder you want to change.

Press the name key, or enter the registered number using the number keys.

You can search by the registered name, user code, fax number, folder name, e-mail address, or IP-Fax destination.

- 6 Press [Folder].
- 7 Select the items you want to change.

When specifying a folder, enter the path directly or select it by referencing the network. For more information, see "To locate the folder manually" and "Using Browse Network to locate the folder".

- 8 Press [Connection Test] to check the path is set correctly.
- 9 Press [OK].
- 10 Press [Exit].

Note

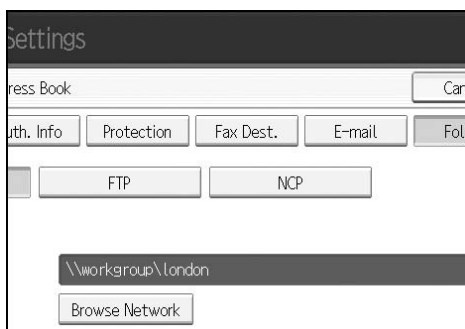

- To change the name, key display and title, see "Changing a Registered Name".

You can search by the registered name, user code, fax number, folder name, e-mail address, or IP-Fax destination.

6 Press [Auth. Info], and then press [Next].

7 Press [Specify Other Auth. Info] on the right side of Folder Authentication.

8 Press [Change] under Login User Name.

- 9** Enter the login user name, and then press [OK].
- 10** Press [Change] under Login Password.
- 11** Enter the password, and then press [OK].
- 12** Enter the password again to confirm, and then press [OK].
- 13** Press [Folder].
- 14** Press [NCP].
- 15** Select "Connection Type".
If you want to specify a folder in an NDS tree, press [NDS]. If you want to specify a folder on a NetWare server, press [Bindery].
- 16** Specify the folder.
- 17** Press [OK].
- 18** Press [Exit].

Note

- To register the name, see "Registering Names".
- You can enter up to 64 characters for the user name.
- You can enter up to 64 characters for the password.
- If you have set "Connection Type" to [NDS], enter the user name followed by the name of the context where the user object is located. If the user name is "user" and the context name is "context", enter "user.context"
- To specify a folder, you can either enter the path manually or locate the folder by browsing the network.
- When [Do not Specify] is selected, the NCP User Name and NCP Password that you have specified in Default User Name / Password (Send) of File Transfer settings applies. For details, see "File Transfer".
- If User Authentication is specified, contact your administrator.

To locate the folder manually

- 1** Press **[Change]** under **Path**.
- 2** Enter the path where the folder is located.
- 3** **[OK]**.
- 4** Press **[Connection Test]** to check the path is set correctly.
- 5** Press **[Exit]**.

 **Note**

- If you set "Connection Type" to **[NDS]**, and if the NDS tree name is "tree", the name of the context including the volume is "context", the volume name is "volume" and the folder name is "folder", then the path will be "\\tree\volume.context\folder".
- If you set "Connection Type" to **[Bindery]**, and if the Net-Ware server name is "server", the volume name is "volume" and the folder name is "folder", then the path will be "\\server\volume\folder".
- You can enter a path using up to 128 characters.
- If the connection test fails, check the settings, and then try again.

7

To locate the folder using Browse Network

- 1** Press **[Browse Network]**.
- 2** If you have set "Connection Type" to **[NDS]**, a list of items in the NDS tree appears. If you have set "Connection Type" to **[Bindery]**, a list of items on the NetWare server appears.
- 3** Search for the destination folder in the NDS tree or NetWare server.
You can press **[Up One Level]** to switch between levels.
- 4** Select the folder you want to register.
- 5** **[OK]**.

 **Note**

- Only the folders you are allowed to access appear in **[Browse Network]**.
- If the languages used on the machine and the destination you want to view differ, the items in the list may not appear correctly.
- Up to 100 items can be displayed in the list.

Changing a registered folder

- 1 Press **[System Settings]**.

- 2 Press **[Administrator Tools]**.
- 3 Press **[Address Book Management]**.
- 4 Check that **[Program/Change]** is selected.

- 5 Select the user of the registered folder you want to change.

Press the name key, or enter the registered number using the number keys.

You can search by the registered name, user code, fax number, folder name, e-mail address, or IP-Fax destination.

- 6 Press **[Folder]**.

- 7 Select "Connection Type".

If you want to specify a folder in an NDS tree, press **[NDS]**. If you want to specify a folder on a NetWare server, press **[Bindery]**.

- 8 Specify the folder.

To specify a folder, you can either enter the path manually or locate the folder by browsing the network.

- 9 Press **[Connection Test]** to check the path is set correctly.

- 10 Press **[OK]**.

- 11 Press **[Exit]**.

 **Note**

- To change the name, key display and title, see "Changing a Registered Name".

Registering Names to a Group

You can put names that have been registered in the Address Book into a group. When registering new names, you can also register groups at the same time.

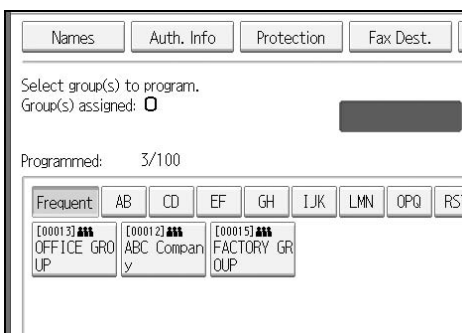

1 Press **[System Settings]**.

- 2** Press [Administrator Tools].
- 3** Press [Address Book Management].
- 4** Check that [Program/Change] is selected.
- 5** Select the name to register in a group.

Press the name key, or enter the registered number using the number keys.

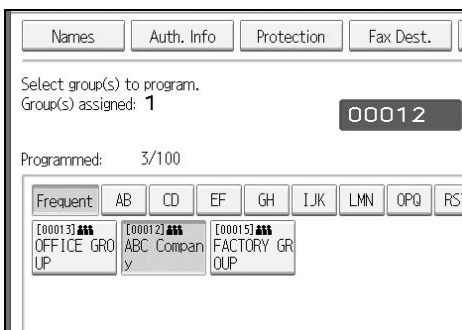

You can search by the registered name, user code, fax number, folder name, e-mail address, or IP-Fax destination.

- 6** Press [Add to Group].
- 7** Select a group to which you want to add the name to.

7

The group key that you have selected becomes highlighted, and the name is added to it.

- 8** Press [OK].

Adding a Group to Another Group

You can add a group to another group.

- 1** Press **[System Settings]**.

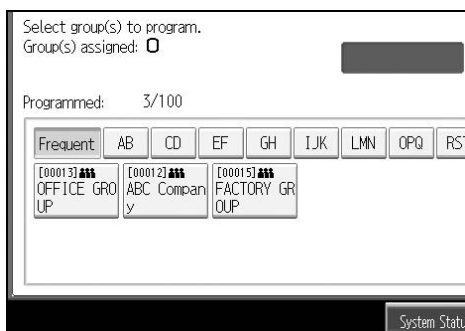

- 2** Press **[Administrator Tools]**.
- 3** Press **[Address Book: Program / Change / Delete Group]**.
- 4** Check that **[Program/Change]** is selected.
- 5** Select the group that you want to put into another group.

Press the group key, or enter the registered number using the number keys.

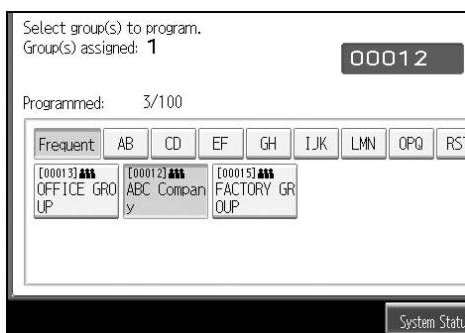

You can search by the registered name, user code, fax number, folder name, e-mail address, or IP-Fax destination.

- 6** Press **[Add to Group]**.

7 Select the group which you want to add to.

The group key that you have selected becomes highlighted, and the group is added to it.

7

8 Press [OK].

Displaying Names Registered in a Group

You can check the names or groups registered in each group.

1 Press [System Settings].

2 Press [Administrator Tools].

3 Press [Address Book: Program / Change / Delete Group].

4 Check that [Program/Change] is selected.

5 Select the group where the members you want to check is egistered.

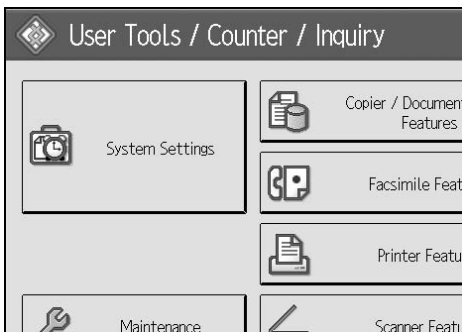

You can search by the registered name, user code, fax number, folder name, e-mail address, or IP-Fax destination.

6 Press [Programmed User/Group].

All the names registered will be displayed.

7 Press [OK].

Removing a Name from a Group

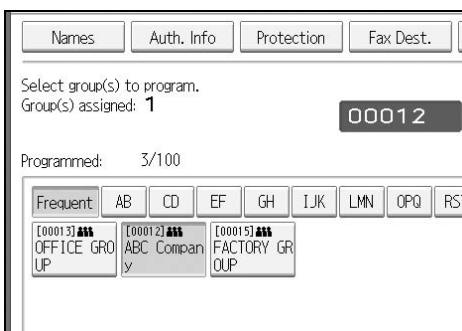

1 Press [System Settings].**2** Press [Administrator Tools].**3** Press [Address Book Management].**4** Check that [Program/Change] is selected.**5** Select the name to remove from a group.

Press the name key, or enter the registered number using the number keys.

You can search by the registered name, user code, fax number, folder name, e-mail address, or IP-Fax destination.

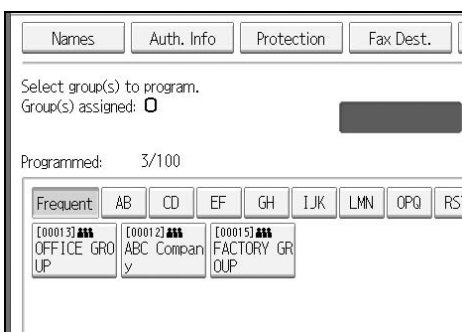

6 Press [Add to Group].

7 Select the group from which you want to remove the name.

The group key that you have selected becomes highlighted, and the name is added to it.

8 Press [OK].

7

Deleting a Group Within Atnother Group

1 Press [System Settings].

2 Press [Administrator Tools].

3 Press [Address Book: Program / Change / Delete Group].

4 Check that [Program/Change] is selected.

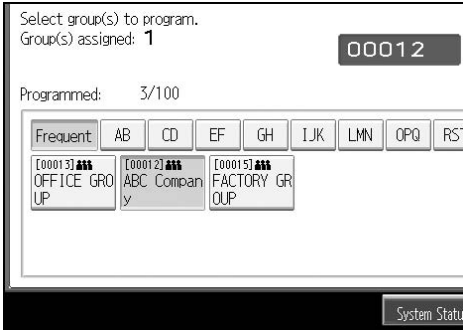

5 Select the group that you want to delete from.

Press the group key, or enter the registered number during the number keys. You can search by the registered name, user code, fax number, folder name, e-mail address, or IP-Fax destination.

6 Press [Add to Group].

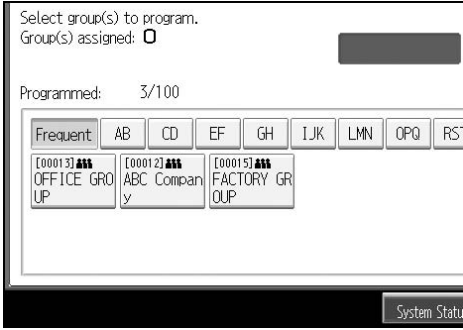

The keys of groups in which the group is registered appear highlighted.

7 Select the group that you want to delete from.

The group key is deselected and the group is deleted from it.

8 [OK].

Changing a Group Name

- 1 Press [System Settings].

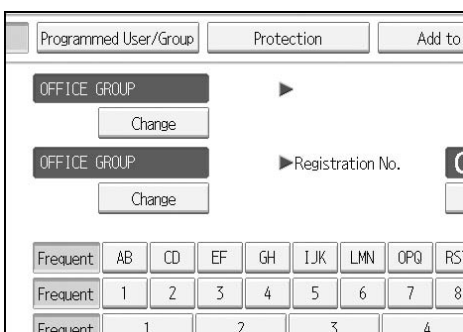

- 2 Press [Administrator Tools].
- 3 Press [Address Book: Program / Change / Delete Group].

- 4 Check that [Program/Change] is selected.

- 5 Press the group key you want to change.

You can search by the registered name, user code, fax number, folder name, e-mail address, or IP-Fax destination.

- 6 To change the group name and key display, press [Change] under Group Name or Key Display.

- 7 Enter the new group name or key display, and then press [OK].
- 8 To change the title, press the title key under Select Title.
- 9 To change the registration number, press [Change] under Registration No..
- 10 Enter the new registration number using the number keys.
- 11 Press the [#] key.
- 12 Press [OK].

Deleting a Group

- 1 Press [System Settings].

- 2 Press [Administrator Tools].
- 3 Press [Address Book: Program / Change / Delete Group].
- 4 Press [Delete].
- 5 Press [Yes].
- 6 Press a group key you want to delete.

You can search by the registered name, user code, fax number, folder name, e-mail address, or IP-Fax destination.

- 7 Press [Yes].

Registering a Protection Code

You can stop sender's names or folders being accessed by setting a protection code.

You can use this function to protect the following:

- Folders
You can prevent unauthorized access to folders.
- Sender's names
You can prevent misuse of sender's names.

3 Press [Address Book Management].

4 Check that [Program/Change] is selected.

5 Select the name whose protection code you want to register.

You can search by the registered name, user code, fax number, folder name, e-mail address, or IP-Fax destination.

6 Press **[Protection]**.**7** Press **[Destination]** or **[Sender]** under Use Name as.

Both **[Destination]** and **[Sender]** can be selected at the same time.

8 Press **[Change]** under Protection Code.**9** Enter a protection code using the number keys, and then press **[#]**.**10** Press **[OK]**.**11** Press **[Exit]**.**Note**

- Specify a protection code of up to eight digits. You can also specify “Protection” without specifying a protection code.

Registering a Protection Code to a Group User

- 1** Press [System Settings].

- 2** Press [Administrator Tools].
- 3** Press [Address Book: Program / Change / Delete Group].
- 4** Check that [Program/Change] is selected.
- 5** Press the group key you want to register or enter the registered number using the number keys.
- 6** Press [Protection].
- 7** Press [Folder Destination] under Protection Object.
- 8** Press [Change] under Protection Code.
- 9** Enter a protection code using the number keys, and then press the [#] key.
- 10** Press [OK].
- 11** Press [Exit].

Note

- Specify a protection code of up to eight digits. You can also specify "Protection" without specifying a protection code.

Registering SMTP and LDAP Authentication

SMTP Authentication

For each user registered in the Address Book, you can register a login user name and login password to be used when accessing an SMTP server.

To use an SMTP server, you need to program it beforehand.

Important

- When [**Do not Specify**] is selected for SMTP Authentication, the User Name and Password that you have specified in SMTP Authentication of File Transfer settings applies. For details, see “File Transfer”.

- 1** Press [**System Settings**].

- 2** Press [**Administrator Tools**].

- 3** Press [**Address Book Management**].

- 4** Check that [**Program/Change**] is selected.

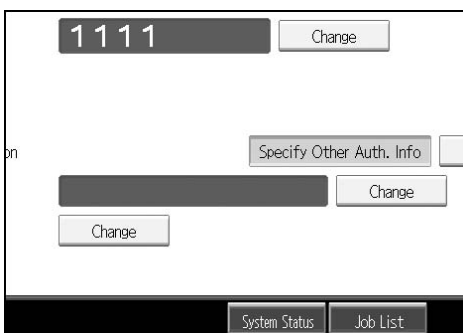

- 5** Press the name you want to register or enter the registered number using the number keys

You can search by the registered name, user code, fax number, folder name, e-mail address, or IP-Fax destination.

- 6** Press [**Auth. Info**].

- 7** Press [**Specify Other Auth. Info**] on the right side of SMTP Authentication.

8 Press **[Change]** under Login User Name.

9 Enter the login user name, and then press **[OK]**.

10 Press **[Change]** under Login Password.

11 Enter the password, and then press **[OK]**.

12 Enter the password again to confirm, and then press **[OK]**.

13 **[OK]**.

 **Note**

- To register the name, see Registering Names”.
- You can enter up to 191 characters for the user name.
- When using POP before SMTP Authentication, you can enter up to 63 characters.
- You can enter up to 64 characters for the password.
- To change the SMTP Authentication settings, repeat step **2** to **13**.

LDAP Authentication

For each user registered in the Address Book, you can register a login user name and login password to be used when accessing an LDAP server.

To use an LDAP server, you need to program it beforehand. For details, see “LDAP Server Settings”, Network Guide.

Important

- When **[Do not Specify]** is selected for LDAP Authentication, the User Name and Password that you have specified in Program/Change LDAP Server of Administrator Tools settings applies. For details, see “LDAP Server Settings”.

1 Press [System Settings].

2 Press [Administrator Tools].

3 Press [Address Book Management].

4 Check that [Program/Change] is selected.

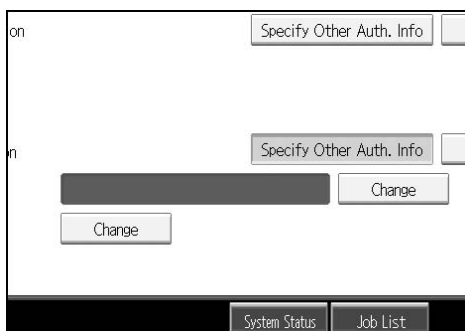

You can search by the registered name, user code, fax number, folder name, e-mail address, or IP-Fax destination.

5 Press the name you want to register or enter the registered number using the number keys.

6 Press [Auth. Info], and then press [Next].

7 Press [Specify Other Auth. Info] on the right side of LDAP Authentication.

8 Press **[Change]** under Login User Name.

9 Enter the login user name, and then press **[OK]**.

10 Press **[Change]** under Login Password.

11 Enter the password, and then press **[OK]**.

12 Enter the password again to confirm, and then press **[OK]**.

13 Press **[OK]**.

Note

- To register the name, see Registering Names”.
- When **[Do not Specify]** is selected for LDAP Authentication, the User Name and Password that you have specified in Program/Change LDAP Server of Administrator Tools settings applies.
- You can enter up to 128 characters for the user name.
- To change the LDAP Authentication settings, repeat step **2** to **13**.

8. Other User Tools

Initial settings allow you switch the language as well as checking the number of printed papers by displaying the counter.

Maintenance

This section describes the user tools in Maintenance.

[Maintenance] allows correcting color drift and gradient.

❖ Auto Color Calibration

If a certain color is strong or the color of the copy differs from the original, adjust the yellow, magenta, cyan and black balance.

❖ Color Registration

If the color documents show registration shifting, perform automatic color registration.

Note

- ❑ For details about “Auto Color Calibration” and “Color Registration”, see “Maintenance”, Troubleshooting.

Reference

“Maintenance”, Troubleshooting

Changing the Display Language

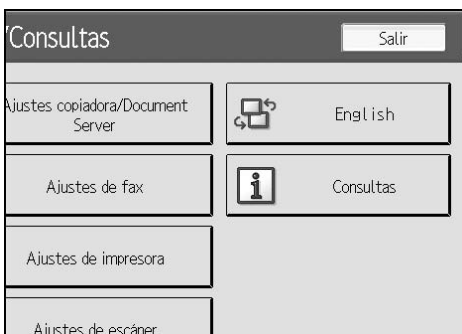

You can change the language used on the display. English is set as default.

1 Press [Español].

The language is changed to Spanish.

2 Press [Salir].

The menu appears in Spanish.

Inquiry

The inquiry function lets you check the telephone numbers to contact for repairs, or ordering consumables such as toner. Be sure to contact your service engineer to verify the following:

❖ Consumables

- Telephone No. to order
- Toner
- Staple
- Staple (Center)
- TX Stamp Name

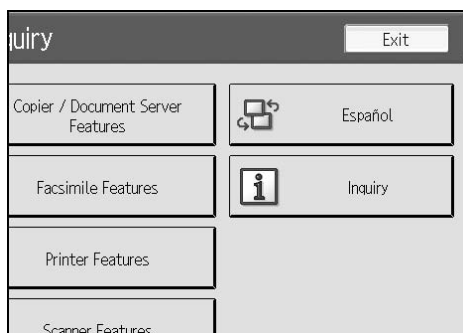

❖ Machine Maintenance/Repair

- Telephone No.
- Serial No. of Machine

❖ Sales Representative

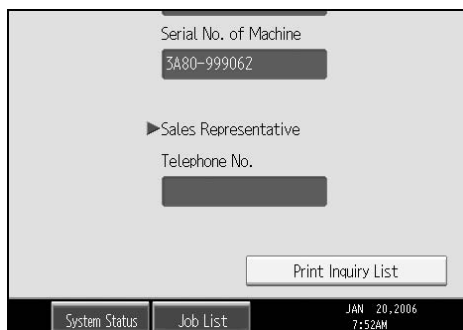

- Telephone No.

1 Press [Inquiry].

Inquiry information appears.

2 Press [Print Inquiry List].

3 Press the **[Start]** key.

Inquiry information prints out.

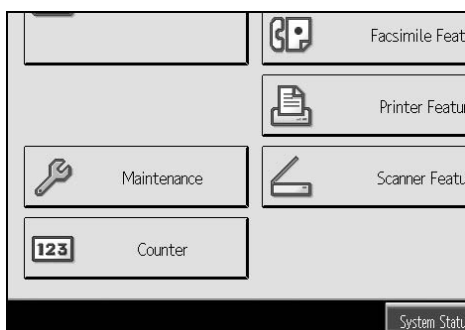

4 Press **[Exit]** twice.

Counter

Displaying the Total Counter

You can display the total counter value used for all functions.

- 1 Press [Counter].

- 2 To print a counter list, press [Print Counter List]. Changing the Display Language

- 3 Press the [Start] key.
A counter list prints out.

Specifications for the Main Unit

No Staple:
 - 1,000 sheets: A4 , 8 1/2"×11"  or smaller (80g/m², 20lb.)
 - 500 sheets: B4JIS , 8 1/2"×14"  or larger (80g/m², 20lb)
 Staple:
 - 2-9 sheets: 100 sets (A4 , 8 1/2"×11" ) (80g/m², 20lb.)
 - 10-50 sheets: 100-20 sets (A4 , 8 1/2"×11" ) (80g/m², 20lb.)
 - 2-9 sheets: 100 sets (A4 , B5JIS , 8 1/2"×11" ) (80g/m², 20lb.)
 - 10-50 sheets: 50-10 sets (A4 , B5JIS , 8 1/2"×11" ) (80g/m², 20lb.)
 - 2-9 sheets: 50 sets (A3 , B4JIS , 11"×17" , 8 1/2"×14" ) (80g/m², 20lb.)
 - 10-30 sheets: 50-10 sets (A3 , B4JIS , 11"×17" , 8 1/2"×14" ) (80g/m², 20lb.)
 - Staple capacity:
 - 30 sheets: B4JIS , 8 1/2"×14"  or larger (80g/m², 20lb)
 - 50 sheets: A4 , 8 1/2"×11"  or smaller (80g/m², 20lb.)
 - Staple paper size: A3 , B4JIS , A4 , B5JIS , 11"×17" ,
8 1/2"×14" , 8 1/2"×13" , 8 1/2"×11" , 8 1/4"×14" , 8 1/4"×13" ,
8"×13" , 7 1/4"×10 1/2" 
 - Staple paper weight:
64-90g/m², 17-28lb.
 - Staple position:
 - 1 staple - 2 positions
 - 2 staples - 1 position
 - Power consumption:
Approx. 50W (power supplied from main unit)
 - Dimensions (W×D×H):
520×520×790mm, 20.5"×20.5"×31.2"
 - Weight:
Approx. 25kg, 55.1lb.

❖ **Booklet Finisher****Finisher Upper Tray:**

- Paper size:
A3☐☐, B4JIS☐☐, A4☐☐, B5JIS☐☐, A5☐☐, A6☐☐, B6JIS☐☐, 11"×17"☐☐,
8¹/₂"×14"☐☐, 8¹/₂"×11"☐☐, 8¹/₂"×5¹/₂"☐☐
- Paper weight:
52-105g/m², 14-28lb.
- Stack capacity:
 - 100 sheets: A4☐☐, B5JIS☐☐, A5☐☐, A6☐☐, B6JIS☐☐, 11"×17"☐☐,
8¹/₂"×11"☐☐, 8¹/₂"×5¹/₂"☐☐
 - 50 sheets: A3☐☐, B4JIS☐☐, 11"×17"☐☐, 8¹/₂"×14"☐☐

Finisher Shift Tray:

- Paper size:
A3☐☐, B4JIS☐☐, A4☐☐, B5JIS☐☐, A5☐☐, A6☐☐, B6JIS☐☐, 11"×17"☐☐,
8¹/₂"×14"☐☐, 8¹/₂"×11"☐☐, 8¹/₂"×5¹/₂"☐☐
- Paper weight:
52-250g/m², 14-66.5lb.
- Stack capacity:
No Staple:
 - 1,000 sheets: A4☐☐, B5JIS☐☐, A5☐☐, 8¹/₂"×11"☐☐ (80g/m²,
20lb.)
 - 500 sheets: A3☐☐, B4JIS☐☐, 8¹/₂"×14"☐☐, 11"×17"☐☐ (80g/m², 20lb.)
 Staple:
 - 2-9 sheets: 100 sets (A4☐☐, B5JIS☐☐, 8¹/₂"×11"☐☐) (80g/m², 20lb.)
 - 10-50 sheets: 100-20 sets (A4☐☐, B5JIS☐☐, 8¹/₂"×11"☐☐) (80g/m²,
20lb.)
 - 2-9 sheets: 50 sets (A3☐☐, B4JIS☐☐, 8¹/₂"×14"☐☐, 11"×17"☐☐) (80g/m²,
20lb.)
 - 10-30 sheets: 50-10 sets (A3☐☐, B4JIS☐☐, 8¹/₂"×14"☐☐, 11"×17"☐☐)
(80g/m², 20lb.)
- Staple capacity:
 - 2-30 sheets: A3☐☐ B4JIS☐☐, 8¹/₂"×14"☐☐, 11"×17"☐☐ (80g/m², 20lb.)
 - 2-50 sheets: A4☐☐, B5JIS☐☐, A5JIS☐☐, 8¹/₂"×11"☐☐ (80g/m²,
20lb.)
- Staple paper size:
A3☐☐, B4JIS☐☐, A4☐☐, B5JIS☐☐, A5☐☐, 11"×17"☐☐, 8¹/₂"×14"☐☐,
8¹/₂"×11"☐☐
- Staple paper weight:
60-90g/m², 17-24lb.
- Staple position
 - 1 staples - 2 positions
 - 2 staples - 2 positions

- Saddle stitch
 - Paper size:
A3☐, B4JIS☐, A4☐, B5JIS☐, 11"×17"☐, 8¹/₂"×14"☐, 8¹/₂"×11"☐
 - Saddle stitching capacity:
2-10 sheets
 - Stack capacity:
2-5 sheets: 20 sets
6-10 sheets: 10 sets
 - Folding:
Center folding
 - Paper weight:
64-90g/m², 17-24lb.
 - Position:
1 position
- Power consumption:
60W (power is supplied from the main unit)
- Dimensions (W×D×H)
535×600×930mm, 21"×23.7"×36.7"
- Weight:
Approx. 48kg, 105.9lb.

❖ Punch Kit (Booklet Finisher)

- Paper size:
A3☐, B4JIS☐, A4☐☐, B5JIS☐☐, A5☐, 11"×17"☐, 8¹/₂"×14"☐, 8¹/₂"×11"☐☐
- Paper weight:
52-163g/m², 14-43.4lb.

❖ 2 Tray Paper Unit

- Paper size:
A3☐, B4JIS☐, A4☐☐, B5JIS☐☐, A5☐, 11"×17"☐, 8¹/₂"×14"☐, 8¹/₂"×11"☐☐, 8¹/₄"×14"☐, 7¹/₄"×10¹/₂"☐☐, 8"×13"☐, 8¹/₂"×13"☐, 8¹/₄"×13"☐, 8K☐, 16K☐☐
- Paper weight:
60-216g/m², 16-57lb.
- Paper capacity:
1,100 sheets (80g/m², 20lb.) ×2 trays
- Power consumption:
Maximum 50W (power is supplied from the main unit)
- Dimensions (W×D×H):
580×620×260mm, 22.9"×24.5"×10.3"
- Weight:
Approx. 25kg 55.2lb.

❖ Large Capacity Tray

- Paper size:
A4 , 8¹/₂"×11" 
- Paper weight:
60-105g/m², 16-28lb.
- Paper capacity:
2,000 sheets (80g/m², 20lb.)
- Power consumption:
Maximum 50W (power is supplied from the main unit)
- Dimensions (W×D×H, option unit):
580×620×260mm, 22.9"×24.5"×10.3"
- Weight:
Approx. 25kg, 55.2lb.

❖ Bridge Unit

- Dimensions:
415×412×111mm, 16.4"×16.3"×4.4"
- Weight:
Approx. 5kg, 11lb.

Information about Installed Software

expat

- The software including controller, etc. (hereinafter “software”) installed on this product uses the expat under the conditions mentioned below.
- The product manufacturer provides warranty and support to the software of the product including the expat, and the product manufacturer makes the initial developer and copyright holder of the expat, free from these obligations.
- Information relating to the expat is available at:
<http://expat.sourceforge.net/>

Copyright (c) 1998, 1999, 2000 Thai Open Source Software Center, Ltd. and Clark Cooper.

Copyright © 2001, 2002 Expat maintainers.

Permission is hereby granted, free of charge, to any person obtaining a copy of this software and associated documentation files (the “Software”), to deal in the Software without restriction, including without limitation the rights to use, copy, modify, merge, publish, distribute, sublicense, and/or sell copies of the Software, and to permit persons to whom the Software is furnished to do so, subject to the following conditions:

The above copyright notice and this permission notice shall be included in all copies or substantial portions of the Software.

THE SOFTWARE IS PROVIDED “AS IS”, WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NONINFRINGEMENT. IN NO EVENT SHALL THE AUTHORS OR COPYRIGHT HOLDERS BE LIABLE FOR ANY CLAIM, DAMAGES OR OTHER LIABILITY, WHETHER IN AN ACTION OF CONTRACT, TORT OR OTHERWISE, ARISING FROM, OUT OF OR IN CONNECTION WITH THE SOFTWARE OR THE USE OR OTHER DEALINGS IN THE SOFTWARE.

NetBSD

1. Copyright Notice of NetBSD

For all users to use this product:

This product contains NetBSD operating system:

For the most part, the software constituting the NetBSD operating system is not in the public domain; its authors retain their copyright.

The following text shows the copyright notice used for many of the NetBSD source code. For exact copyright notice applicable for each of the files/binaries, the source code tree must be consulted.

A full source code can be found at <http://www.netbsd.org/>.

This product includes cryptographic software written by Eric Young (eay@cryptsoft.com). This product includes software written by Tim Hudson (tjh@cryptsoft.com).

Original SSLeay License

Copyright (C) 1995-1998 Eric Young (eay@cryptsoft.com) All rights reserved.

This package is an SSL implementation written by Eric Young (eay@cryptsoft.com).

The implementation was written so as to conform with Netscapes SSL.

This library is free for commercial and non-commercial use as long as the following conditions are aheared to. The following conditions apply to all code found in this distribution, be it the RC4, RSA, lhash, DES, etc., code; not just the SSL code. The SSL documentation included with this distribution is covered by the same copyright terms except that the holder is Tim Hudson (tjh@cryptsoft.com).

Note that any information and cryptographic algorithms used in this software are publicly available on the Internet and at any major bookstore, scientific library, and patent office worldwide. More information can be found e.g. at "<http://www.cs.hut.fi/crypto>".

The legal status of this program is some combination of all these permissions and restrictions. Use only at your own responsibility. You will be responsible for any legal consequences yourself; I am not making any claims whether possessing or using this is legal or not in your country, and I am not taking any responsibility on your behalf.

NO WARRANTY

BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
